We do not claim to be the only Millinery store in the county but you will find a nice stock of up to date hats at reasonable prices at Mrs. Johnson's.

Otto Pickett wheeled it up to Monmouth last week and took in a part of commencement at the State Normal, returning on Monday. Possibly the attraction was a young and pretty school-mam.

C. B. Wilson has been appointed Ag't at Newberg for Multnomah box factory. If you are in need of any fruit boxes, strawberry crates or anything of the kind you can get them as cheap as you can in Portland.

Stanley & Bond are now in the Newberg Meat Market and are doing business in the best of style. A good supply of fresh meat usually on hand. If you have fat stock to sell you will do well to see them before selling elsewhere.

Bills are about the country working their nefarious schemes on people. One of the worst frauds is the patent right business in the hands of unscrupulous strangers, who are here today and gone tomorrow. Only a few weeks since, a sharper came to a Marion county farmer and showed him a hand-sprayer, a tin contrivance for squirting water from a tub or bucket upon trees. The sharper told the unsuspecting farmer that he would give him a patent for Yamhill, Marion, Benton and Polk counties for the exclusive sale of the sprayers, provided the farmer would buy a case of the "squirters." Believing he had a good thing, and that he could double his money on the investment the farmer paid the sharper \$15, and the latter left, after promising to write, etc. Later the farmer took some of his tin fixings and started out, only to find that every hardware store had them and retailed them for \$1.25, exactly what he paid for them. But the sharper had cleared out, and his present address is not known, and the farmer is trying to work his stock of tin squirters off at cost, and thus get his money back. For the time thus consumed he expects no remuneration, and could he afford it would doubtless like to hire some able bodied young man with needle-toe shoes to kick him for being such a rank sucker.—Salem Independent.

The Graphic and the Oregonian for \$2.00.

Second hand goods wanted at Votaw Bros. Picture frames made to order at Votaw Bros.

Oregon Yearly Meeting of Friends church is now in session, the opening meeting of which occurred on Thursday afternoon. One large tent and several small ones have been erected on the grounds for the accommodation of members from other points. The attendance promises to be very good.

Sam Atkinson drove out of town last Saturday evening with his fine driving mare rigged out in new harness and hitched to a new top buggy just from the shop. All the girls of Chealem Center will want to ride with Sam now and what a time he will have making a choice among so many charming young lady friends.

The hand of misfortune seems to have pursued Frank Liberty and family from the time they left here something like a year ago to make their home in Denver, Colorado. Soon after their arrival there the little boy was killed by an electric car and now word comes that Mrs. Liberty died of consumption some two months ago and that recently Frank followed with the same disease.

New iron gates have been put in at the entrances to the college grounds with a narrow opening at the side for bicycles. This new arrangement will be very expediting to the town cows for no provender tastes so sweet to them as the grass on the college campus and they will now be unable to break through and steal. Bicycle riders who have been accustomed to lifting their wheels over the fence will greatly appreciate the change made by Mr. Miles.

Dr. Davidson had two cases of surgery on her hands at the same time last Monday. A young fellow named Lombard from St Paul took a header when riding down a hill and he had called in to have a severe scalp wound patched up. Charley was assisting his mother, as she often does in such cases, but not being very well he fainted and in falling to the floor his head struck a jar, cutting a severe gash in his head. Dr. Littlefield was called in to assist in setting matters right again.

One day last week Dr. Littlefield received word from the Portland health officer that a man named Armstrong whose home is in Marion county not far from St. Paul was in the city pest house with the smallpox. It appears that Mr. Armstrong had returned from Hood River and after remaining over one night he started back, and on his arrival in Portland he called on a physician who informed him that he had the smallpox and he was immediately put in quarantine. Several people from up the river who were exposed while Mr. Armstrong was at his home came to town last Monday and Dr. Littlefield did quite an extensive business vaccinating them.

Prof. Julia S. White will attend the National Teachers Association meeting at Los Angeles in July. Those who have tried the bicycle path say it is a great improvement over riding in the dusty road.

A. T. Blair sold his team to a Seattle buyer a few days ago for \$250. The "hoss" is having his day again. Mrs. Clarinda Ward intends leaving here next week for Palo, Michigan, for an extended visit with a daughter who is in poor health.

Doors, windows, sash, mouldings, lath, lime, shingles and all kinds of building material for sale by Newberg Milling Company. Mrs. B. C. Miles and Mrs. T. H. Gardner went to Salem last week on account of the serious illness of the little daughter of Mr. and Mrs. B. S. Cooke.

What you want is not temporary relief from piles but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. C. F. Moore & Co. W. P. Samms of Wallowa county who is here visiting with his half brother Jonathan Votaw, gave a very good talk at Friends church on last Sunday evening.

T. B. McAdams is engaged in the grocery, fruit and vegetable trade in San Francisco. He writes the Graphic that his health is all O. K. and also sends his best regards to his Newberg friends. Mrs. Caroline Dunlap left here last Saturday for Vancouver, B. C. where she will spend the summer with her daughter. She intends returning in the fall to open up her kindergarten again.

George Gilbert, an uncle of H. D. Fox, who formerly lived at Omaha, Nebraska, has bought the W. I. Decker grocery and will continue the business. Mr. Decker talks of changing his location if he can dispose of his property. Eliza Hollingsworth, son of W. W. Hollingsworth, left here the first of the week for Nebraska. The young man has an ambition to be a railroad engineer and he goes with a view of getting into a roundhouse to work his way up.

J. G. Eckman of the Reporter office has the thanks of the Graphic for a copy of the G. A. R. souvenir, a "Military History of Yamhill County," written by J. C. Cooper and published by the Reporter company. It contains matter well worth preserving. The ice cream social given at the M. E. church was a success both socially and from a financial stand-point. All the cream was sold and more called for. Good music was furnished by S. J. Lashier and Harry Patterson and H. J. Miller operated his graphophone to the delight of the audience.

E. and G. Behnke, two young men from Portland, have bought the triangle lot at the junction of the Dayton and Portland road with First street where they will put up a blacksmith shop at once and begin hammering iron. The building is to be of good size and built of dressed lumber and painted. The unexpected seems to be taking place in Newberg this season. It is always expected that with the coming of spring and the out-door work incident to the season that many families will move out and leave a number of houses vacant, yet the demand for houses keeps up beyond all precedent and many strangers are coming in.

My friend if you have never given me a call, give me one now. I am in the position of the man who was trying on a pair of boots that were too small for him. An Irishman stalling by said: "Begad ye can't get them boots on till ye wear 'em awhile." So it is with me. I can't wear your further business until I get your first order. Please give me a call. C. C. SMITH, Photographer.

Benham, of Beaverton officiating. Following the ceremony the guests were served with refreshments after which the newly married couple took the noon train for Portland where they will make their

home. The bride has a large circle of friends in Newberg where she has resided for several years, and the groom is a G. A. R. man and said to be a good citizen.

VILLAGE IMPROVEMENT CLUB. The Report of the President, Mrs. Dunlap—How the club has been wided. The Village Improvement Club was an evident need of the town. In proof of this I need only state that when the meeting for organization was called, over forty ladies responded. Their sympathy and interest in the movement made organization an easy and pleasant undertaking. Our constitution and by-laws are so brief as to occupy only about twice as much space in our secretaries book as does the membership list, yet upon the platform constitute by these documents, there is ample room for the cultivation of philanthropic, intellectual, social and friendly relations among ourselves, as well as for vast improvement in our little city. The club's first duty was to bring to the minds of citizens the advisability of making the kindergarten a part of the public school system. For this purpose a number of the club members attended the meeting held in March for the purpose of electing one school director and the school clerk. Our object was well presented by the various ladies present and certainly we as well as the subject in hand were most cordially received. For my part I shall never forget the kindly faces and encouraging words that greeted us from all parts of the room when I spoke. This was not however the meeting where any definite action on the subject could be taken. It is at the January meeting, and to the tax payers that we must appeal, and let us not neglect in the long interval between now and then to be faithful to this cause, impressing upon all with whom we have an opportunity to converse, the importance of this early character building, so when the time comes for fixing the school tax for 1900 every man will be ready to contribute his mite for the purpose of opening this door to the Kingdom of Heaven.

As to the intellectual work in the club we can certainly say that on some times, we have made an excellent beginning. For the child culture class we have finished one small book on psychology and have taken up the most helpful and beautiful of books, "Froebel's Mother Play," and during my absence for the summer I hope the class will go on with this study. It is after all individual work and study that really helps us.

Under the leadership of Miss White the class in literature has been very interesting and a plan has been adopted which cannot fail to open up vast and beautiful fields in the best literature of the day and also in character study, that most fascinating topic, which is claiming the best thought of our time. From these two classes we have had most charming and instructive papers at our club meetings. One from Mrs. Mills, on "Truth," and one from Miss White on "The King."

As to our advancement in social and friendly relations there is no limit, and I am glad to express my personal appreciation of the friendly greetings that have been extended to me by many, whom I should have had no opportunity of meeting except through the club. I think we are not vain in believing that in the one social event in which we have participated, our influence was felt in making it a most happy evening and is it not possible that our closing reception may give us the championship as a friendly and social organization?

As to the improvement of our village the seeds have been sown and must bear fruit, and that the time be not too long in bringing it to fruition, let us be vigilant and earnest in all possible ways in behalf of this all important cause. Certainly Miss Williams has been wise in distributing literature on this subject among our citizens.

Another excellent idea is an address on village improvements at our reception and I would suggest that discussion of this subject be invited. This may lead to definite knowledge and plans of

work. All errors come from ignorance rather than from design.

In looking forward the future of the club seems bright, we are well organized and possess all the graces that woman kind is heir to. Let us be wise then in the use of nature's gifts and not be afraid to carry out Emerson's saying: "To compel us to do the best we can is the part of a friend." Especially must I urge you musical ladies to band together for improvement in that elevating study. How delightful for all would be an occasional musical day.

In retiring from office I regret my inability to have served you better and I most earnestly thank each and every member of the Club for her prompt and efficient assistance which has made my duties a pleasure and not a burden. CAROLINE DUNLAP, President.

CHEALEM CENTER. The Sunday services were led by George Tolson. Mr. Tolson is well liked in Chealem Center as he is such an earnest Christian. The ice cream social Tuesday evening was quite a success. Rev. Waltz, of Newberg, gave an address. The proceeds are to go to the Christian Endeavor work.

Miss Helen Chamberlain came out from Newberg to attend the ice cream social and remained over night with Miss Maud Wills. There were several other men from Newberg. W. R. Carter and daughter Miss Rana and W. J. Stater and family drove over to Tualatin last Sunday to visit friends there.

Word has been received here from Miss Jessie Palmer, of Dayton, Washington, that they had arrived there safely and were located. They like it pretty well there but will have to make quite a descent when they fall in love with that country, after having lived in the Willamette valley.

Last Sunday afternoon one of H. C. Paulsen's valuable mares got to the grain drill and partook of too much of the grain. All efforts to save her were in vain and she died that night. It was quite a loss to Mr. Paulsen as she was so reliable and valuable. XYZ.
