

Entered as second-class matter at the postoffice at Newberg, Oregon.

The transports carrying the returning Oregon volunteers from Manila arrived in San Francisco on Wednesday afternoon. The boys expressed a desire by vote to be mustered out at San Francisco rather than Vancouver, in order to receive travel pay and this is the situation as the Graphic goes to press. Portland is greatly disappointed but the wish of the boys should be gratified.

The question most often asked now is "when will the Second Oregon arrive in Portland?"

The Forest Grove Times shows a very marked improvement, both in its news matter and general make-up, under the new management of J. B. Eddy.

The Oregonian seems to be a little out of harmony with the administration at present but it is no unusual thing for Harvey to have one leg outside the traces.

Billy Bryan is swinging around the circle again letting the boys know that he is still in the ring. He is not the man to take a back seat at camp meeting if some prominent members of his party do insist that he must be a back number in the next campaign.

The visiting newspaper men will say many good words for Oregon. They were fed on the fat of the land while on their junketing trip through the valley and the condition of the growing crops was such as to give them a favorable impression of the country.

Just where the Second Oregon Volunteers are to be mustered out seems to be a mooted question. One day the dispatches say San Francisco is to be the place and the next day it is Vancouver. The latest however is to the effect that they are to be brought to Astoria on the transports and transferred to river steamers to be taken direct to Portland.

In almost every church there is a divided sentiment on the question of church socials; some of the members favoring them and others being very outspoken against them. Arguments may be offered on both sides of the question but the Graphic is of the opinion that there is no occasion for extremes on either hand. The fact is the lack of social life in church fellowship has a tendency to cause a good many people to seek pleasures for social enjoyment and in this way they are led away from the church, when with a little more care and loosening up among the church members their interest might be held, and yet of no interest of the church suffer. The simple destination of a thing don't alter the condition unless something else can be offered, and there is little doubt but that the church loses much more from the members being too exclusive than from engaging in well guarded socials even though there may be a money consideration in connection with them.

PROTECTED AND UNPROTECTED TRUSTS.

Certain persons are charging blindly that all the trusts which have been formed in recent years are combinations inspired and fostered by the protective tariff. The United States Flour Milling Company, stocked and bonded for \$115,000,000; the American Agricultural Company, a fertilizing combination, is capitalized at \$10,000,000; the American bicycle trust, capitalized at \$80,000,000; the cottonseed oil trust, capitalized at \$35,000,000; the ice trust, of Maine, capitalized at \$60,000,000; the national biscuit trust, capitalized at \$25,000,000; the baking powder trust, capitalized at \$20,000,000, are a few of the most conspicuous combinations which, like the father of all trusts, the Standard Oil Company, have no connection whatever with the protective features of the tariff; yet they are as vigorous and as fictitiously capitalized as the iron industries which have entered trusts. Legislation putting the products of such trusts on the free list would have no effect.

One of the protected trusts most cried out against is the tin plate trust. This industry is not ten years old. Its plants are said to be worth \$10,000,000, but it is capitalized at \$50,000,000. In its infancy this industry was ridiculed and denounced by Mr. Bryan and his friends in Congress. Yet, before it became a combination it supplied the country with \$20,000,000 worth of tin plates a year, which was so much money kept at home and paid for home labor and material which was formerly expended in Great Britain. When the industry was well established here the prices of tin plates were much lower than when Great Britain controlled our supply. Even now, when prices have advanced somewhat with the advance of iron, tin plates were more than 25 per cent. higher in 1887 and 1888, when factories in Wales supplied our market, than they are at the present time. Then the foreign producers acted in a combination to prevent the manufacture of plates in the United States. Plate glass is another industry which Americans have wrested from European competitors. Since the building up of the plate glass industry in this country that article has fallen so much in price that it has ceased to be a

luxury. The industry is now a trust, capitalized with much water. Prices may be some higher now than when the different manufacturers were engaged in fierce competition, but not one-fourth the figure they were when foreign manufacturers supplied the market. Now, it is probable that the tin plate and the plate glass combinations could be destroyed by putting these articles on the free list, but when they are destroyed the thousands of people employed by these industries would be without employment and the tens of thousands depending on the workers without bread. Would not that method of trust killing be very costly?

If a plan could be devised to prohibit the stock-watering which has characterized the organization of all trusts, which seems to be the chief incentive to their formation, the real evil would be destroyed. If Congress would give the Interstate-commerce Commission authority to prevent discrimination in the transportation of freights, the most powerful trusts, like the Standard Oil Company, would not be able to crush out competition. Fictitious capitalization and railroad discriminations are the evils to be cured. There must be remedies, and the practical statesmanship of the country should be able to discover and apply them.—Indianapolis Journal.

Gov. Geer's address at the commencement exercises of the Oregon Agricultural College was the right thing in the right place. There is need of just such plain talk to the students of the agricultural college. Too many of the students of the college, as well as the public generally, look upon the agricultural college as a very inexpensive medium for obtaining a general education. The student who graduates there has received the aid of the public to the extent of several hundred dollars. This aid has been given him to enable him to advance agriculture and allied industries by example or precept. The student who receives an education at the agricultural college while intending to become a lawyer, physician or merchant, virtually perpetrates a moral fraud upon the institution. His presence at college tends to create in the student body a spirit which leads away from the farm instead of to it.—Rural Northwest.

MARRIAGE LICENSES.

W. J. Esterbrook to Lura Sampson. W. Wilson to Ester McGrew. Daniel J. Miller to Malinda Weirich. Thomas E. Blair to Anna M. Summers.

Thomas Rhoads, Centerfield, O., writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witch Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits. C. F. Moore & Co.

LAFAYETTE ITEMS.

Uncle Jim Johnson is quite poorly and is gradually growing worse. John Derby has been sick for a week or two but is out on the street again. Married in LaFayette July 3rd, Warren Esterbrook and Miss Lura Sampson, Rev. Crowe of Gaston officiating. Warren and Lura are among our most respected young people. Our town divided up in numbers between North Yamhill and Dayton to celebrate the fourth and all report a good time. The Sunday Schools all went in together and held a picnic in Hembree's grove last Saturday. A number of our people attended Evangelical Camp meeting last week at Independence. Warren Robertson D. D. of Newberg came up last Saturday night and installed the officers of LaFayette Lodge No. 291, O. O. F. and from the looks of the empty cans in the rear of Vickrey's Store on Sunday morning the boys must have had something to eat. The A. O. U. W. will install officers on Friday night the 8th. The United Artisans will install their new officers on next Monday night, will also have a literary program and refreshments.

A. P. Fletcher and family and Chester Gates have gone to Tillamook and Trask River for a ten days outing.

The second nine of this town and Dayton played a game of ball here last Saturday which resulted in an easy victory for the LaFayette boys.

The boys from here who attended the G. A. R. encampment at McMinnville report a game of ball between Will Scott of McMinnville and the Indians. They said if Scott had eight more men to help him McMinnville might have made a reputation, but one man to nine was not in it.

Charley Nelson has moved to the Jim McCain property on main street.

The boys who went up on the Brayman hill Tuesday night say they saw the fireworks at Salem, Silverton and Sheridan and a few skyrockets on Mt. Hood.

Robert Henry who's little boy stuck a knife in his eye last summer has gone to Portland with him and writes back that the Drs. have taken the little fellow's eye out. POSEY.

Dangers of the Grip.

The greatest dangers from the grip is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for the grip we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure the grip in less time than any other treatment. It is pleasant and safe to take. For sale by C. F. Moore & Co. druggists.

CHEHALEN CENTER.

Mrs. J. C. Lucas is on the sick list. Mrs. J. W. Wheeler and daughter Nellie are spending several weeks at Eugene.

Miss Rosa Burrows attended Sunday School and church at the school house last Sunday.

Miss Mildred Wills entertained her Sunday School class at her home Tuesday afternoon. They played the usual children games and then Miss Mildred arranged a table out in the shade where cake, popcorn, sandwiches etc. were served. The pleasant smiling faces indicated they were having a happy time.

The W. C. T. U. met at the home of C. L. Johnson. After the Bible reading and business session were over Mrs. Johnson ushered the ladies out to the cherry trees where they ate of the luscious cherries. Our new president, Mrs. Walton, takes up the work with a will, also the other new officers and all they hope to accomplish more work than ever this summer as "White Ribboners." The next meeting is to be at the home of Mrs. H. C. Paulsen on the first Thursday in August. X. Y. Z.

"What might have been"—if that little cough hadn't been neglected, as the sad reflections of thousands of consumptives. One Minute Cough Cure cures cough and colds. C. F. Moore & Co.

A new book of township plats has been purchased by the county at cost of \$300 to replace the old one worn out. The draughtsman is James N. Dezenhof of Washington, D. C., who has done a good job. The plats show town and range, the donation land claims and the vacant government land remaining. The work of making the book has been in progress several months.—Reporter.

A diseased stomach surely undermines health. It dulls the brain, kills energy, destroys the nervous system, and predisposes to insanity and fatal diseases. All Dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't help curing. C. F. Moore & Co.

The receipts of the county recorder's office in excess of the salary for the first year of the present term were \$286,100. The total amount of fees received by the clerk for the year was \$1,340,150. About one-third of the work in the office of the clerk is expended on tax-rolls, which if paid for on the basis of the fee system would amount to over \$3,000 per year.—Reporter.

DeWitt's Little Early Risers expell from the system all poisonous accumulations, regulate the stomach, bowels and liver, and purify the blood. They drive away disease, dissipate melancholy, and give health and vigor for the daily routine. Do not gripe or sicken. C. F. Moore & Co.

Saturday morning Clarence and Seral Webber, two bright little boys of 5 and 7 years, who are living with their grandpa, O. J. Lebo, north of this city, were helping their uncle Bert unload hay with a block and tackle, when by some means the left hand of each was drawn into the block and badly lacerated. Dr. Cable was called and found it necessary to remove about half of each thumb, and one loses the index and the other a portion of the third finger. The little folks have many friends, who deeply regret the accident.—Transcript.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands had proved—that Electric

When death laid its cold and relentless hand upon a man's head and loving husband, the wife cannot be blamed for asking herself if all her years of devotion and work and helpfulness were worth the while, when it comes so soon to this tragic end. If men would only take the most common sense precautions against the encroachments of ill-health, there would be fewer houses of mourning, and fewer women left alone almost helpless before the battle of life is half over. A man's liver and stomach are twin machines that work together, either to make or unmake life. If they work wrong, they deplete and poison his blood. Impure and impoverished blood means sickness and death. If they work right, they purify and enrich the blood. A man whose blood is rich and pure, and whose liver is active cannot well be unhealthy. Headaches, biliousness, indigestion, and constiveness, which men generally disregard, are Nature's warnings that the twin mechanism, stomach and liver, is working against, instead of for him. Dr. Pierce's Golden Medical Discovery is the best medicine to use under these circumstances. It creates appetite, corrects all disorders of the digestion, invigorates the liver and fills the arteries with rich, healthy blood. As an invigorating, restorative tonic, it is far superior to all the salt extracts. It is the great blood-maker and flesh-builder. It does not build up fat as cod liver oil does, but the firm, muscular tissues of health. For the last nine years, writes William Miller, Esq., of 671 Military Street, Reading, Pa., "I have been very poor in health. I suffered from indigestion, constiveness, and many kinds of other troubles, and doctors with their pills and medicines, did me no good. Then I used three bottles of Golden Medical Discovery. I can now do as good a day's work as the next man."

Unfailing—Dr. Pierce's Pleasant Pellets for constipation and biliousness. Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion builds up the strength. Only 50c. Sold by C. E. Smith drug-gist. Guaranteed.

Sam Manning has become a firm believer in the old saying that "you can't tell how far a toad can jump by the looks of him." Mr. Nash, of near Wheatland, was in town Saturday with a sleepy looking clodpoper of a horse and made the remark in Sam's hearing that the horse could make a mile in 2:30. Sam offered to bet a five that he couldn't make a mile in three minutes. The wager was accepted, the horse was put on the track and went his little easily in 2:58. Then to show a little better speed he made it again 2:44. And now Sam says he believes the homely old animal is a world beater and that he was pretty thoroughly "worked."

JOHN A. BECK, WATCHMAKER AND JEWELER. Solicits the patronage of his old Indian Friends who need watch repairing done. 270 Morrison St. PORTLAND, OR. E. C. Ward & Co. 1st Street, Newberg, Or.

NEARLY FIFTY-EIGHT YEARS OLD ! !

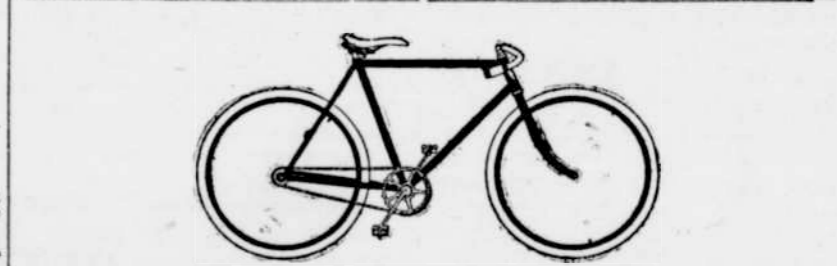

It's a long life, but devotion to the true interests and prosperity of the American People has won for new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and firesides. As a natural consequence it enjoys in its old age all the vitality and vigor of youth, strengthened and ripened by the experiences of over half a century.

It is "The New-York Weekly Tribune," acknowledged the country over as the leading National Family Newspaper.

Recognizing its value to those who desire all the news of the State and Nation, the publisher of "The Graphic" (your own favorite home paper) has entered into an alliance with "The New-York Weekly Tribune" which enables him to furnish both papers at the trifling cost of \$1.50 per year. Every farmer and every villager owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper, as it works constantly and untiringly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in wide awake, progressive family.

Just think of it! Both these papers for \$1.50 a year. Send all subscriptions to

The Graphic, Newberg, Oregon.
