Mrs. Hannah Bond is nursing a very severely sprained wrist as a result of a hard fall she received last Sunday when on the way to church. A loose board in the walk did it. What shall the moral be? Never go to church, or see that the walks are made "navigable" for pedestrians? J. H. Crew with his wife and daughter who are out from Washington D. C. taking a vacation arrived here last Tuesday and are visiting north of town with N. G. Kirks, Mrs. Crew and Mrs. Kirk being sisters. Williamson, editor and publisher of the Oregon Agriculturist and Rural Northwest came out from Portland on Wednesday to see E. H. Skinner's cherry pitter work. R. J. Cooper has given the building occupied by his meat market a complete overhauling, including painting, and is well prepared to meet the wants of the most fastidious customers. One Newberg man lost a snug little sum of money and a gold watch as a result of a trip to Dundee and some others are in a fair way to sustain a loss of reputation by the same route. Roy Heater took the medal in the pole vault at Chautauqua in a vault of ten feet six inches without any extra effort. He will probably attend the annual regatta at Astoria next month and show the Astorians what he can do. Rev. S. S. Lewis, of Sherwood, stopped over here one night last week on his way home from Chautauqua. His friends are sorry to find him in rather poor health and fear that he may be compelled to give up his work at Sherwood. J. M. Gilleland who is an old veteran, says he wants somebody to request the Oregonian to let up on the Second Oregon business as it is getting to be harder to endure than the stereotyped advertisements of Hostetter's Stomach Bitters. On the invitation of Prof. Linnville, of New York, who was spoken of last week as being in town visiting with his father, R. B. Linnville, Prof. Edwin Morrison has gone to Port Townsend in company with the Linnvilles to make a scientific research along Puget Sound. Prof. Linnville says the Yale college professors have told him they consider this one of the best fields in the whole country for the student of Biology and with such a prospect before him of course Prof. Morrison went away happy. Charles E. Comstock, who was first sergeant in Co. H. 161st Indiana Volunteers Infantry, in the late war and who is visiting with his parents at Dundee, was in town last Monday. He says he saw no fighting but his regiment spent about four months in Havana and while there he climbed over the remains of the Maine. After being mustered out he found himself pretty well knocked out with rheumatism and he came to Oregon to get relief. So far he is very much pleased with the results of the change.

Mrs. B. S. Cook and children were down from Salem on a visit the first of the week. E. W. Hall returned from Salem on Thursday where he spent a few days on business. Several hands are at work digging the trench for an extension of the water pipe down River street. Have you seen the last photograph sample in Smith's display window? New samples every week. Mr. and Mrs. Fred Groff and Mrs. Groff's sister, Mrs. Maryatt, have gone to Newport for an outing. Mrs. B. C. Miles and children and the Misses Ella Bowman and Mabel Hale left for Newport last Monday. Mrs. Miles is occupying a cottage with her sister, Mrs. Gardner of Portland. "What might have been"—if that little cough had not been neglected—is the sad reflections of thousands of consumptives. One Minute Cough Cure cures cough and colds. C. F. Moore & Co. Yamhill county can boast of something that we'll wager no other county in the state has—A blind bicycle rider. He rode a wheel from North Yamhill the other day and came through in good shape.—Transcript. C. B. Wilson has been appointed Ag't at Newberg for Multnomah box factory. If you are in need of any fruit boxes, strawberry crates or anything of the kind you can get them of him as cheap as you can in Portland. Mr. and Mrs. John Crawford arrived home on Wednesday from an extended visit in Clackamas county. Next week they will leave for the Nehalem country where they will spend several weeks visiting with Mr. Crawford's brother. Thomas Rhoads, Centerfield, O., writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witch Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits. C. F. Moore & Co. T. B. Cummings has been at work during the week on two watering troughs which are to be put in for the convenience of the public on First street. It is also stated that at each place faucets will actually be put in so the thirsty can get a drink of water. Such concessions on the part of those in authority are a little bit startling at this day. Skinner's Cherry Pitter. In a visit to E. H. Skinner's fruit farm out on the side of Chehalis Mountain on Wednesday Mr. Skinner with a force of hands was found busily engaged taking care of his cherry crop. Although the crop is light this season he will have several tons of cherries and a moderate crop of French prunes. Not at all discouraged at the light crop, Mr. Skinner is going right along with the cultivation of his large orchard and it is now in fine condition—much better in fact than the average garden. The harvesting and marketing of a large crop of cherries in localities where there are no canneries has been something of a problem, for cherries to be marketed green must be handled in picking and packing with great care, and of course the market for green fruit will always be, when the crop is heavy, somewhat limited. Dried cherries to bring the best prices must be pitted and here has been the rub again, but Mr. Skinner has successfully solved this problem by inventing a pitter that not only does the work well but does it rapidly. The Graphic will not attempt a description of this ingenious machine for it must be seen at work in order to realize just what it will do. Some improvements have been made over the machine he used last year and it is now a great success. Heretofore Mr. Skinner has claimed that it would pit two tons of cherries in a day but now he finds that it will go a ton better than that and turn out three tons. He certainly has a most excellent thing in this invention which he has been years in bringing to its present state of perfection, for the demand for the machines from large growers of cherries will certainly be good. A patent has been applied for. For Sale. Fifty head of stock sheep. A. P. JOHNSON. Top Buggy for sale. EDMUND ROBINSON, Newberg, Oregon. Farm For Sale. Two hundred and fifty acres 5 miles west of Newberg. Half in cultivation. Inquire at the Graphic office. Bismarck's Iron Nerve. Was the result of his splendid health. They develop every power of brain and body. Only 25 cents at C. E. Smith's drugstore. Wm. M. Manning, now of Newberg, was in the city Wednesday. His sale on the old place west of Carlton occurred on Tuesday, and brought fairly good prices, considering the time of year. Mr. Manning is well pleased with Newberg as a place to live and is doubly happy because of the fact that two eastern friends, Mr. Smith, of Washington, Pa., and his niece Miss Laura Martin, of Moundsville, W. Va., arrived last week to visit him, and will remain until September. They are looking for land to purchase in this country.—Reporter. Ed Wing, the liveryman, lost a horse on Tuesday, from the effect of being over-driven on the Sunday previous.—Reporter.
