Quality

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome—always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

Never experiment with so important an article as the human food

There are many imitation baking powders, made from alum. They may cost less per pound, but their use is at the cost of health.

ROYAL BAKING POWDER CO., NEW YORK

A Romance of Real Life.

The duchess of Arcos was Virginia Woodbury Lowery, of Washington, D. C. A distinguished ancestor, Daniel Woodbury of New England, once held the position of secretary of the treasury, under Jackson, and was afterwards justice of the supreme court. Montgomery Blair, a cabinet officer during the administration of Lincoln, was of the same family.

The romantic courtship of the duke and duchess of Arcos began over 20 years ago. At that time he was young Count Brunetti, of the Spanish legation in Washington, an under secretary, whose admiration for the beautiful Miss Lowery resulted in an engagement, to which the parents objected on account of the youth of their daughter, and the fact that Count Brunetti was appointed to a remote South American post, where months were required to send a communication.

The engagement was of 20 years' duration, and Count Brunetti in that time inherited estates and a title in Spain. When he returned to Washington he found Miss Lowery even more beautiful in her maturity than when he had left her. Mrs. Lowery, who was an invalid, died shortly before the wedding of her daughter, which occurred in August, 1895, at the summer home of the family in New London, Conn., and was quietly celebrated. —Harper's Bazaar.

The Irony of Fate.

"Do you see that pale young man calling out 'Cash!' at the ribbon counter?"

"Yes."

"Fate's awful funny sometimes. Ten years ago, when we were boys together, his one ambition was to be a mighty hunter and catch lions with a lasso."—Tit Bits.

Fancies in Shirt-Waists.

The really swell thing is the pure white silk or satin shirt-waist made in the greatest simplicity of style, and is worn with a black skirt of net. White shirt-waists in cotton goods have the preference, many being of fine lawn, tucked all over in bias or straight-up-and-down or round-and-round tucks. The severe linen waist of white, with cuffs and collar, is worn with the tailor gown having a cutaway jacket in bolero style. Some of the new waists show a cutaway at the neck, having fancy collar and revers with which are worn fancy colored or white chemisettes.—Woman's Home Companion.

Making Sure of Him.

"I think," said the thoughtful mother, "that you ought to object to young Brown paying so much attention to our daughter."

"Why?" demanded the thoughtful father. "He impresses me very favorably."

"That's just it," returned the thoughtful mother. "We must do something to make his ambitious mother think we regard ourselves a little above them socially if we are to make sure of him."—Chicago Post.

He Hoped Not.

The other day when it was raining very hard, four or five men were having a few glasses of beer in a village beerhouse, when one man said to the company:

"It's a drop of nice rain this. It should stir things up in the ground."

One curious old man, who was known to have been henpecked during his wife's lifetime, replied:

"By Jove, I hope not; I only buried th' wife yesterday!"—Spare Moments.

"Yes," replied Smith, "but I heard that his baby has just got so that it can say 'papa' so they can understand it."—N. Y. World.

Items of General Interest Gleaned From the Thriving Pacific States.

Washington State Fair.

The Washington state fair commission at North Yakima, has completed the premium list, and the book is in the hands of the printer. It has been revised and enlarged to cover, as far as possible, all the industries of this great state, and induce exhibits of products from the Pacific Northwest. The list has been increased by adding many articles of home production, and the prizes more than doubled, to insure greater displays of native resources. The commission recognizes the necessity of honest competition in farming and dairying, fruit and vegetable growing, ranch and range productions and all lines of progress in the field and factory. While the state fair has not yet reached perfection, the earnest co-operation of all interested will make of the fourth annual exhibition, the best of its kind ever held in the state.

Many excellent exhibits are promised from the leading sections of the state, and Oregon and British Columbia, will be well represented. The race course is in fine condition and several horses are now training for the speed contests, for which large purses will be offered. The commission offers $10,000 in premiums for the various exhibits and races. Special rates have been obtained from the railroads, and excursions will be run from the cities of Seattle, Spokane, Tacoma and intermediate points. The merchants and manufacturers have contributed liberally in special premiums and with the prospect of ernormous crops there is no reason why the fair should not be a complete success.

Palouse Grain Uninjured.

Owing to reports of the damage to cereals by heat, the Spokesman-Review has obtained a statement concerning wheat in the Palouse and Potlatch sections. In the Palouse wheat and other cereals never looked better. There are no fields damaged by heat, squirrels or blight of other kinds. In the Potlatch not to exceed 10 per cent of resown fields are affected by heat, some farmers complaining that the kernels have shriveled. The total of grain damaged by heat will be quite small, and more than made up for by the excellent condition of other grains.

A Loud Interruption.

"I declare, Maria, this is too irritating to be endured. I told you I didn't want to be disturbed, and here somebody has suddenly sprung a most infernal clatter on me. What does it mean?"

Boston is conducting a vigorous campaign against the smoke nuisance. Miss Lucy Tucker, the daughter of a prominent farmer of Versailles, Ind., was the victim of nervous prostration. Most of the time she was confined to bed, and was on the verge of St. Vitus' dance. "We began giving the pills at once, and the next day we could see a change for the better in her. We gave her one pill after each meal until she was entirely well. She has not been sick a day since. We think the cure almost miraculous.
