The new bridge at the Holt place west of town is all completed and is being traveled over. It is quite an improvement over the old bridge, it being about five feet higher and decreasing to a very appreciable extent the amount of hill to be pulled up.

Mr. and Mrs. Fred Groff and Mrs. Maryatt arrived home from Newport on Thursday morning. They say the Newberg colony is having a fine time but think they must have been pretty well drenched by a heavy rainstorm they had there the night after they left. Mrs. Maryatt was fortunate enough to pick up from the bench a very fine water agate which she had polished and set and of which she is very proud.

Wagon bridges as they are usually built in Western Oregon are short lived structures at best. The rebuilding of the bridge across the canyon at the Holt place is cited in evidence of this statement. The first bridge built at this place was erected in 1880 and the one just completed makes the second bridge to be constructed since that time, to say nothing of numerous repairs that have been made from time to time. With our wet winters and dry summers and the consequent swelling and shrinking of the timbers a bridge without covering soon goes to rack. As the country grows older and road work is done after a more solid and permanent plan, many canyons that are now bridged will be filled in by the pulling down of hills, which will result in much better roads and a great saving to tax payers in the end. May the day be hastened when this plan is adopted.

We see many pretty views, on paper, of the well kept orchard, clean as a well swept floor, but are skeptical as to the reality. But it is worth going out to some of the large Dundee orchards, those of Davis and Hanson in particular, to see what can really be accomplished in the way of orchard cultivation. Photography can not do justice to the real thing.

The Rev. Elwood Scott, who has been Pastor of the Friends church for the last 17 years with the exception of 2 years at Newberg, Ore., will deliver his farewell sermon next Sabbath. A brother-in-law of Mr. Cox who has been engaged in the manufacture of pasteboard boxes at South Bend, Indiana, is out with him and they are looking over the field in Oregon with a view of putting up a box factory. If they should decide to locate at Newberg our people will do the square thing by them.

He feels confident of a prosperous year, in the coming year, for the college. Mr. Jesse Edwards drove up with the Professor, having business in Amity connected with his brick works.—Dayton Herald.

Tom Hester of Vermilion Grove, Illinois, who graduated here with the class of '98 and at Earlham College, with the class of '99 has secured a position in Vermilion Academy next year as professor of science and mathematics. This is rather a new role for Thomas to assume but we predict for him the success which his abilities and genial good nature deserve.

Newberg will be ably represented in athletics at the Astoria Regatta held this month. Our invincible vaulter, Roy Heater, will be on hand with his vaulting pole, to speak for old Yamhill. Though he will have to vault against Palmer, the great Washington vaulter, we have great confidence in his success, for in a practice vault the other evening he cleared the pole at the height of eleven feet and two inches.

On last Friday afternoon, Prof. Julia S. White, her friend Miss Susan Forsythe of Philadelphia, Miss Lida Wilson and Claud and Walter Woodward took a ride out over the surrounding mountains for a view of the valley. They drove up on Bald Hill north of town, and up Lover's Lane to the Red Hills and down by the large Dundee prune orchards. Miss Forsythe was greatly pleased with the appearance of our country.

H. Cooper left a fine sample of wheat at the postoffice the first of the week, taken from a field of ten acres on his place north of town. Mr. Cooper says he found one stool of wheat grown from a single grain containing fifty stalks and one head which was counted contained sixty grains. If every head yielded as well as this one the yield from the single grain was three thousand grains. This is a pretty fair increase but the possibilities of Oregon are so great that the Graphic is not disposed to blow about a little thing like this.

The change will be made directly after harvest, each party taking care of the present crop. Sorry to see Charley leave Yamhill but his place is to be taken by a good citizen.

Newberg Reunion and Picnic at North Yakima. The Ex-Newbergers of North Yakima, Washington, enjoyed a reunion and picnic on Tuesday, August 1, at the home of Mr. and Mrs. Marion H. Cook, seven miles up the Natchez river from North Yakima. Those present were Mr. and Mrs. Cephas Maris, their daughter Mamie and sons Fred and Harry; Mr. and Mrs. Nate Snodgrass and sons Otis and Ray; Mr. and Mrs. Frank Holiday and daughter Maggie; Mr. and Mrs. John Cook and Allen Cook. The occasion of the festivity was the third anniversary of Mr. and Mrs. Marion Cook's wedding. The time was spent altogether in a social way until the tables were bountifully spread when the wants of the carnal man were attended to. A blessing was asked by Mr. Maris and "Praise God" was sung, after which we proceeded to partake of some of the good things procured in the Yakima valley. In the afternoon, ice cream and cake were served, until every body said "it is enough."

In order to be in the shade, we were rather near the busy bees, some of which tried to play hide and seek in Mr. Maris' beard. No accident occurred however, until one persisted in kissing Mr. Snodgrass on the cheek in such a lusty whole souled sort of way as would have made a regulation "kissing bug" go out of business for very shame. But after the application of not more than a half dozen remedies warranted to "cure all" it is remarkable to relate that Mr. Snodgrass was able to ride home in the evening. A Picnic.
