> Washington, Sept. 16 .- Secretary Root emphatically overruled General Shafter today, in determining that the Thirty-fifth should embark for Manila at Portland, unless there was unsurmountable obstacles. These he could not find in the reports from Shafter and

> the quartermasters.
>
> The pleas about length of time and impossibility of sending ships were considered by the secretary as inadequate. Two transport ships can be sent up the Columbia, and he saw no reason why they should not sail from Portland direct for Manila. As the ships could not return to the United States in time to carry other troops to Manila, the delay, even if it was all the opposition claimed, was unimportant, in the opinion of the secretary.

The transports will be fitted out at San Francisco with everything except trict. He says public office is man's what the regiment carries. When the troops come to Portland, they will be allowed to parade in the city before they embark. This will be determined by the commanding officer.

The secretary felt that all Portland and Oregon had done for the country, entitled them to favorable considera tion of the request for the embarkation of troops at the Oregon metropolis. Representative Tongue has tele-

graphed Secretary Root saying the Oregon, chartered by the government could be used for the transportation of troops. The department says the Oregon has not been chartered.
