It's a long life, but devotion to the true interests and prosperity of the American People has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and firesides.

As a natural consequence it enjoys in its old age all the vitality and vigor of youth, strengthened and ripened by the experiences of over half a century. It is "The New-York Weekly Tribune," acknowledged the country over as

the leading National Family Newspaper. Recognizing its value to those who desire all the news of the State and Nation, the publisher of "The Graphie" (your own favorite home paper) has engered into an alliance with "The New-York Weekly Tribune" which enables

him to furnish both papers at the trifling cost of \$1.50 per year. Every farmer and every villager owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper, as it works constantly and untiringly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in hom markets, and, in fact, is a weekly visitor which should be found in every wide awake, progressive family.

Just think of it! Both these papers for \$1.50 a year. Send all subscriptions to
