Notwithstanding the rainy night, the parsonage was well filled with guests, and the evening was pleasantly spent with music and social conversation.

The Southern Pacific train crew that runs the noon train seems to have the impression that everybody along the line is as slow-going as the train they run, else they would not leave the train across the street and block the way for a half hour while they go a half mile away doing switching, as they occasionally do at Newberg.

The last Carthage, Indiana, Record gives an interesting account of the farewell service given by the Friends church there to Rev. Elwood Scott, formerly pastor of the church here in Newberg. Rev. Scott has resigned his pastorate there after a service of fourteen years and will do some evangelistic work in Canada this winter.

The Minnesota people who arrived last week evidently burned the bridges behind them for they brought two car loads of personal effects, including cattle, horses, poultry, farming implements, wagons and household goods. They say that with the mercury at forty below zero and the wind blowing a gale as fast as the wind in Minnesota it is calculated to turn the feathers the wrong way, and consequently they think they can stand any kind of weather Oregon may put up.

L. C. Thompson, out on the Glenbrook farm has a happy family of raising big things. During harvest he brought in the largest heads of wheat and timothy, and now he comes in with some genuine Oregon spuds. There were seven of them of the Peerless variety, and the seven weigh 24 pounds. They would make the eyes of a down Easter fairly bulge out.—Transcript.

If the latter statement is true it would hardly be safe to show the "down Easter" one of Newberg's sample potatoes, that six and a half pounder for instance.

When it comes to raising strawberries Rev. Joseph Hall don't propose to be downed by anybody if careful selection of varieties and good cultivation will do the work. On Tuesday he brought to the postoffice some very fine berries of the Magoon variety, picked from vines which were set last spring. Some of the berries were nice and ripe while others were still green and making a fine growth. Two of them measured four and a quarter inches each in circumference and several others were almost as large, which does pretty well for the second week in November. If the weather remains warm, strawberries will be served along with Thanksgiving turkey.

With the present prospects ahead it don't look much like the boys at Edwards brick factory would have much time for warming their shins about the stores and talking calamity during the winter. They have two new orders to fill as soon as possible for Portland firms, one for forty thousand Roman brick and the other for eighty thousand of chocolate color. These jobs with what they are already working on will keep the factory running with full force up to the first of the year at least and soon after that date they will begin on the spring work.

Hester-Hampton Nuptials. On Thursday October 26, at 3:30 o'clock p. m., at the residence of Mrs. Wm. Jones, 510 Commercial street, Danville, Illinois, Miss Myra Dell Hampton was married to Thomas William Hester. While such a happy event was not altogether unexpected by their Newberg friends, still the news of it came rather as a surprise at the time. Mr. and Mrs. Hester have friends "too numerous to mention" in this little berg who extend to them the heartiest of congratulations, and who wish them the very best that this old world has to give in the way of earthly happiness, peace and prosperity.

Mr. Hester was a resident of Newberg for two years, and is a graduate of Pacific College, of the class of '98. He was a prominent factor in the college life here, especially in the Y.M.C.A. work and in athletics, he having made the state inter-collegiate record one year in the pole vault. Last year he attended Earlham College, Richmond, Indiana, and graduated with the class of '99. He now has a position as professor of science and mathematics in Vermilion academy, Vermilion Grove, Illinois.

Mrs. Hester's home has been in Newberg and vicinity from the time she was a mere girl and she has always been counted one of Newberg's substantial young ladies. Her sterling qualities of worth have made her highly respected by all who know her. Personally, the news of the marriage brought to the younger member of the Graphic force, a feeling akin to bereavement, as Tom posed, and very faithfully too, last year as the latter's "old lady" in Earlham boarding hall, the two Oregonians being roommates. The associations there enjoyed are "too sacred and tender" for the public gaze, but we put aside any selfish regret, and joyfully rejoice with those who rejoice. Mr. and Mrs. Hester now live to themselves in Vermilion Grove in a neat little cottage, as Tom writes, located on "Mud street," which latter is no joke either, in Illinois.

Married.

George W. Howie and Miss Christina Steele were married on Saturday, November 4, 1899, at the home of the parents of the groom north of Newberg, Rev. J. C. Lucas officiating. The groom is one of our substantial young men who is not afraid of work, and one who by an exhibition of true Scotch thrift has prospered nicely in tilling the soil, while the bride is a real Scotch lady who recently came all the way from the country across the sea to wed the lad for whom an attachment was formed twelve years ago in the old country. The Graphic acknowledges the receipt of samples of the wedding dinner and extends congratulations.

College News.

The Oregon winter has begun its "reign," and mackintoshes and rubbers are again greatly in evidence, and the ungrammatical but expressive cry of "Where's my rubber?" arises daily. By the way, perhaps the cause of the confusion occurring among these useful articles has been discovered. A gorgeous description of a certain "palace" near the college was given last Friday night at literary, and this "palace" was declared to be inhabited by nymphs, who it is well known, are a very sportive race of beings.

Thanksgiving is drawing near, and the students who expect to go home are eagerly looking forward to it. Some, with a far away look in their eyes, have been heard to murmur "Three weeks from to-day."

The health talks are still being enjoyed by the girls of the college. The last one was on the subject of "How to walk."

Football seems to be on the wane at P. C. Perhaps the wet weather has "dampened the ardor" of the players, or perhaps, as of course it is more flattering to them, to think the boys are interested in other, and it may be better things.

The track was in fine condition—for walking—last week. At least, some found it so.

The teachers who went to Portland last Saturday received a very enthusiastic welcome home. Some of the good people of the town wondered what all that noise was about.

Chamberlain's Pain Balm Cures Others.

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well. Adolph L. NEARLY

FIFTY-EIGHT YEARS OLD ! !

It's a long life, but devotion to the true interests and prosperity of the American People has won for it new friends as the years rolled by and the original members of its family passed to their reward, and these admirers are loyal and steadfast today, with faith in its teachings, and confidence in the information which it brings to their homes and firesides.

As a natural consequence it enjoys in its old age all the vitality and vigor of youth, strengthened and ripened by the experiences of over half a century.

It is "The New-York Weekly Tribune," acknowledged the country over as the leading National Family Newspaper.

Recognizing its value to those who desire all the news of the State and Nation, the publisher of "The Graphic" (your own favorite home paper) has entered into an alliance with "The New-York Weekly Tribune" which enables him to furnish both papers at the trifling cost of \$1.50 per year.

Every farmer and every villager owes to himself, to his family, and to the community in which he lives a cordial support of his local newspaper, as it works constantly and untiringly for his interests in every way, brings to his home all the news and happenings of his neighborhood, the doings of his friends, the condition and prospects for different crops, the prices in home markets, and, in fact, is a weekly visitor which should be found in every wide awake, progressive family.

Just think of it! Both these papers for \$1.50 a year.
