

PACIFIC COAST NEWS

Commercial and Financial Happenings of Interest to the Growing Western States.

New Line Taps Wheat Growing Territory.
The Enid and Tonkawa railroad, the new line which the Rock Island has been building for the past few months in Oklahoma, east from North Enid has been formally opened for traffic.

This new line of railroad is about 26 miles long, and is built through a section of the territory exceptionally rich for wheat growing. Three stations about equal distances apart have been established on the new road and have been named Cropper Garber and Billings.

This line gives promise of being one of the best paying branches of the Rock Island. Within the past few weeks during which time a part of the road has been open for traffic over 50 cars of wheat have been hauled out. At each of the three stations flourishing towns are springing up and elevators and other buildings are being erected as fast as the material can be procured.

A few days before the line opened there were 60 carloads of lumber and supplies on a siding at Enid waiting for the completion of the track to be hauled to Billings.

This new railroad is already a favorite with the farmers of the territory through which it passes and they are jubilant over its building.

Fisheries. Little has been received from the reports from the season's pack between \$5,000 and \$10,000 cases. While the fall pack was disappointing the total exceeded by considerably over 100 per cent the pack of last season and places Puget sound next to Alaska as the greatest salmon canning district of the coast.

Three acres have been bought on the Little Spokane river for a state fish hatchery, and buildings will be erected at once to cost \$2,500. About 10,000,000 "white" salmon will be shipped to this hatchery from the Chewinkum hatchery on the Wenatchee. It is reported that the fish commission deposited 1,000,000 Eastern trout in the Yakima river at Cle Elum a few weeks ago.

Mining Property Sold.
The quickest mining deal ever made in the history of Oregon was closed last week by Mrs. Jacobs, of Portland, just three days after the land was given to a Baker City firm. The property sold is the Knapp property, on the Crocker creek. The purchaser is J. B. Dabney and the price paid was \$75,000. Ground has already been broken for the erection of bunkhouses, blacksmith shop, etc., and the work is now working night and day will at once commence sinking the shaft. Work will continue through the winter.

Pacific Coast Chat.
Dawson mail and men from the steamer Anglian have arrived in Skagway.

A lone mounted highwayman held up three men in the outskirts of Walla Walla the other night.

Twenty-two carloads of apples have been shipped from Farmington, in Whitman county, this season.

A fire was out in a lumber camp near Menlo, Pacific county, Wash., which produced 32,000 feet of fine lumber.

Arthur Huey, who left his home in Walla Walla in July to work in the harvest fields, has not since been heard of.

Farmers in Eastern Washington report that the fall-sown wheat is taller for the season than it has been in the past 30 years.

A literary and social co-operative club is being organized in Tacoma for the study of municipal affairs and social intercourse.

The Pacific sheet metal works at Fairhaven are turning out 135,000 cans a day. Clam cans are now being made for several canneries on the coast.

Scales to the number of 393 of wild animals in Lake county, Wash., were presented to the county court during its late session, the regular November term.

The way building is going on in Grants Pass indicates at least that people have much confidence in the permanency of the town, says the Observer of that town.

The Great Northern has ordered 10 more new engines from the Brooks Locomotive Works. They will weigh 182,000 pounds each, with 150,000 pounds on the driving wheels.

The O. R. & N. has completed its cut off from Walla Junction to Grange City, a distance of 66 miles. By this cut off 23 miles is saved on the main line.

The loss on the Aberdeen cannery, which was burned at Fairhaven, has been settled. Mr. Seaborg gets about \$70,000 for the loss of his cannery and stock. He estimates his loss at \$110,000.

Secretary Baldy, of the Whetstone Shingle Manufacturers' Association, reports that 90 per cent of the shingle mills of the country have closed in response to the order of the state association.

With the exception of a small spot opposite the railroad warehouse, Lake Bennett is frozen over at Bennett from the southern end to a point a mile to the north, but the ice at the northern end is not thick.

The people of Ashland, Or., subscribed and paid \$2,155.85 to pay indebtedness of their normal school before it could be decided to the state. All claims were paid, and a balance of \$62.75 was turned over to the regents with the title to the new school.

A dinner-pail brigade working on good salaries makes a town prosperous, a community filled with farmers raising good crops and selling them for fair prices makes the country prosperous. Dallas property-owners see the point, argues the Times-Mountaineer.

The Dallas board of fire regents held a meeting recently and determined to purchase a chemical engine and new hose cart, and to put in an electric alarm system as called for by the board of fire underwriters in order to secure the 10 per cent reduction of insurance in the business portion of the town.

STAPLES REMAIN FIRM.

Much Underlying Strength in the East Meets Situation.

Bradstreet's says: A striking illustration of the underlying strength of the general business situation is furnished this week by the course of prices. Almost without exception values of staples remain firm at previous quotations or manifest a still further pronounced tendency toward a higher level. This, too, has occurred in the face of a rather smaller distribution in the ordinary trade channels than has been noted in recent weeks. So far as autumn and winter trade is concerned, the complaint of unseasonably mild weather, restricting retail distribution, is reported from many cities.

But rising superior to this and to the unquestionably smaller distribution at first hands, is the accentuated strength of textiles, particularly cotton goods, which reflect some additional strength of the raw product, due to smaller receipts and better foreign advices, but in a large measure also portray the influence of active demand coming on a market exceptionally bare of stocks. A further advance in print cloths, a feature of this week, has brought the quotation for standard grades up to 3 cents, a point not touched for four years past.

Raw wool is higher at all markets on active demand, shared in by the manufactured material.

Wheat, including flour, shipments for the week aggregate 3,688,677 bushels, against 4,540,007 bushels last week, and 8,274,726 bushels in 1918. Since July 1 this season, the exports of wheat aggregate 85,468,546 bushels, against 89,124,083 bushels last year and 101,437,679 bushels in 1917.

Business failures in the Dominion of Canada for the week number 28, as compared with 19 last week, 27 in each week of the year, and 28 in 1918. Since July 1, 34 in 1919 and 32 in 1918.

Physic Street, Canton, China.

Canton possesses the queerest street in the world, in spite of the fact that in nearly all the big towns in China there are some remarkable streets. The chief thing of interest attaching to this eccentric thoroughfare is the fact that it is roofed in with glazed paper fastened on bamboo and contains more signboards to the square foot than any other street in any other country. The most interesting fact about this Canton byway is that, though a business street, it contains no other shops but those of apothecaries and dentists' parlors, no professional men but doctors. It is a sick man's paradise and a Chinese physician's Klondike. They call it Physic street, which is descriptive if not picturesque.

A New Feature in Western Traveling.
The Pullman Company now operates two grades of sleeping cars via the Rio Grande Western Railway. The ordinary sleepers are entirely new, and the berths and better foreign advices, but in a large measure also portray the influence of active demand coming on a market exceptionally bare of stocks. A further advance in print cloths, a feature of this week, has brought the quotation for standard grades up to 3 cents, a point not touched for four years past.

Improved Train Equipment.
The O. R. & N. and Oregon Short Line have added a buffet, smoking and library car to their Portland-Chicago through train, and a dining car service has been inaugurated. The train is equipped with the latest chair cars, day coaches and luxurious first-class and ordinary sleepers. Direct connection made at Granger with Union Pacific, and at Ogden with Rio Grande line, from all points in Oregon, Washington and Idaho to all Eastern cities. For information, rates, etc., call on any O. R. & N. agent, or address W. H. Hurlburt, General Passenger Agent, Portland.

"Of course, the only truly happy man is the man who devotes his life to doing good for others," said the Cornfed Philosopher. That is the only occupation a man can engage in, in which people will let him have his own way.—Indianapolis Journal.

American Dentists Annoyed Abroad.
American dentists are acknowledged to be the most skillful in the world. Many of them are practicing with great success in Europe. In Germany they are subject to considerable annoyance. Their American diplomas are not recognized. They cannot buy anything at a drug store except on a prescription signed by a German physician.—Chicago Chronicle.

Mud stains can be removed from tan boots and shoes by rubbing them with a piece of raw potato, and then polish with cream or paste.

"How long should mourning gowns be worn by a widow of 22?" was the question that came sobbing through the mails. Now it is changed to be the sporting editor's day off, and the religious editor, therefore, was attending to the Side Talks with Young Persons. "There is no hard and fast rule," wrote the religious editor, confidently, "but they ought to come down to the boots, tops, at least." This incident illustrates the occasional awkwardness of a newspaper standing as a bulwark of morals to the exclusion of everything else.—Detroit Free Press.

"I have been using CASCARETS and as a mild and effective laxative they are simply wonderful. My daughter and I were bothered with sick stomach and our breath was very bad. After taking a few doses of Cascarets we have improved wonderfully. They are a great help in the family."

Fifty Years a Pensioner.

A typical instance of the effect of a pension on longevity comes from Linton, where the death has occurred of a man in his 86th year, who enjoyed for over half a century an annual allowance from the war office. He was born in 1818, in Canada, where his father was a soldier, and at the age of 8 became a drummer boy, subsequently blossoming into a full-blown private of a foot regiment. He never did any fighting, and retired at the age of 30, with a pension, on account of ill-health. A few years later he joined the Bedford constabulary, and attained to the rank of sergeant, subsequently becoming an instructor of file-and-drum bands, and holding the post of drum major in the Linton volunteers.

Non-Sinkable Boats.
The latest invention for saving life is a non-sinkable boat. If people would pay as much attention to the preservation of life in other ways there would be a great improvement. Hoister's stomach bitters is a life saving medicine. It never did any fighting, and retired at the age of 30, with a pension, on account of ill-health. A few years later he joined the Bedford constabulary, and attained to the rank of sergeant, subsequently becoming an instructor of file-and-drum bands, and holding the post of drum major in the Linton volunteers.

Climate, Scenery and Nature's Sanatorium.
Scenery, altitude, sunshine and air, constitute the factors which are rapidly making Colorado the health and pleasure grounds of the world.

Here the sun shines 357 days of the average year, and amidst with the crisp, electric mountain air to produce a climate matchless in the known world. No pen can portray, no brush can picture the majestic grandeur of the scenery along the line of the Denver & Rio Grande Railroad in Colorado.

Parties going East should travel via this line which is known all over the world as the Scenic Line of the world.

Under Two Flags.
"What a grand picture it must have been," remarked the boarder who had seen Denver, "to have seen the Olympia steaming home, the stars and stripes on one mast and the homebound pennant on the other."

"Magnificent!" echoed the man in black suspenders, "but think what a picture it would have been to see the stars and stripes on one mast and the baseball pennant on the other."—Chicago Evening News.
