W. E. Stanton who came here recently from Colorado has bought the Emmor Hall block on River street opposite the Votaw property which he will improve for a home. Mr. Stanton contemplates leaving his family here but he will probably go East of the mountains to look after the stock business.

The Evening Telegram evidently got things mixed one day last week for under the head of "Newberg News" the statement was made that the city election had been declared void and a new election ordered held. The "head" must have been put on the items coming from some other town, probably Sherwood, for the Newberg election has not been called in question.

Slippery board walks are getting in their work in Newberg this winter in a way to beat all previous records. The latest victim is Mrs. H. H. Winslow, who is laid up with two broken bones as a result of a fall she sustained on last Sunday morning at her home on Wynoski street. One thigh bone was broken, also one bone of a wrist and the joint of the same wrist dislocated. The patient is getting along as well as could be expected for one of her age.

G. P. Kinyon has sold his interest in the Newberg flouring mills to H. A. Grafe who was one of the number who came here from Minnesota in the fall. Mr. Grafe has the bearing of a man with the necessary push to succeed in whatever he undertakes and he will no doubt find the milling business profitable here. Mr. Kinyon will not give possession until some of the stock of grain on hand can be worked off which will probably take six or eight weeks. He contemplates changing climate on account of Mrs. Kinyon's health and they will most likely go to Northern California.

The republicans of Newberg have elected the following named persons as delegates to the state league convention which meets in Portland, February 6: C. A. Hodson, C. A. Butt, L. M. Parker, F. H. Storey, H. H. Winslow, W. C. Woodward.

Mrs. D. W. Emerson fell from a wagon a few days ago and was pretty badly hurt though no bones were broken. While driving along the road in front of Columbus Mackies, Mr. Emerson touched up the horse a little when the back seat which was occupied by Mrs. Emerson and her mother tipped back throwing the occupants out in the mud.

Hon. John Gill, who was elected to the legislature in 1896 as a populist, was down from his Chase home a few days since, and in conversation with a Transcript reporter said that after "swinging around the circle" with other parties, he had about concluded the republican party was the best one to tie to, and he thought that hereafter he should cast his lot with it. "Uncle John" is very observant and knows whereof he speaks.—Transcript.

Dr. Harry Littlefield has been here for several days assisting his brother Dr. H. J. in his practice. On Monday they performed a very critical surgical operation on the person of Mrs. Canby Heaton of Dundee, the results of which are still in very grave doubt. A gall stone was removed and while the physicians hope that the patient may be able to withstand the shock and recover from the disease they are aware that they have a very difficult case on their hands.

There appears to be no dearth in the republican ranks for the office of county recorder. So far as reported to us there is: Arthur P. Harris, of this city; W. W. Nickell, of Bellevue; C. B. Lafollet, of Sheridan; H. Z. Foster of Willamina and Arthur Lambert, of Dayton. And there will probably be others to hear from. All are good men and would fill the office acceptably and well.—Transcript.

Yes, in all probability there will be "others." Newberg has some good recorder material warranted to show up with the best when the proper time comes.

Yesterday morning it was reported that the daughter of J. P. Brown who had returned the day before from a visit to Newberg, was broken out with smallpox. Mayor Maloney caused an investigation to be made, and Dr. Goncher the examining physician, reports the young lady suffering from a cold, without any fever, and without any eruption or any indication of smallpox. It is hoped that the physician's report will have more weight than that of the nervous persons who organized the scare—otherwise our neighbors might hear that half of McMinnville was digging smallpox graves for the other half.—Reporter.

We think there is no occasion for nervousness on the part of our neighbors as far as Newberg is concerned. There has been one family in the vicinity of Newberg, sick of what may be smallpox, but a very strict quarantine has been kept and though great care is observed, no alarm whatever is felt here.

F. N. Byers is at home from Hood River this week.

Now is the time to get holiday presents at your own price at Moore's.

GEO. H. BERENDSEN, Hubbard, Oregon.

Miss Ruth Thackery came up from Portland on the train Wednesday morning and remained until Monday visiting her friend Miss Grace Christenson.

Cornelius Miles, a brother-in-law of Al Clark arrived here this week from Richmond, Indiana with his wife and granddaughter. They come with a view of remaining a year.

Acker's Dyspepsia Tablets are on old a positive guarantee. Cures heart burn, raising of the food, distress after eating or any form of dyspepsia. One little tablet gives immediate relief. 25 cts and 50 cts. C. E. Smith. 1

Amos Graves is heard from again this week on "Advice to Young People Continued" and in order that we might not detract in any way from the true meaning and full force of his logical arguments copy has been followed closely.

Dr. E. W. Rossiter has been very sick for the past three days and the attending physicians are at a loss to know what to name the disease. The doctor's brother, Dr. A. J. Rossiter has been down from Dayton a part of the time attending him.

The freight train arriving here at noon has discontinued hauling the passenger and mail coaches but the mail comes just the same as before in closed coaches direct from Portland. An attempt was made to cut us off with one mail a day but it would not work.

On last Saturday evening a number of young people gathered at the home of Mr. and Mrs. H. L. Christenson to spend a social evening with Miss Grace, and her friend Miss Ruth Thackery. A very pleasant evening was spent in plays, games and singing, until a late hour.

Smith's drug store has been closed during the week by attachment. It seems to be quite a complicated affair but from the information at hand it appears that the difficulty does not come from a debt of Smith's but rather from some connection Mr. Badley had with the business in the past.

We have all heard and read of Chaplain Gilbert, the brave little person who accompanied the 2nd Oregon to the Philippines, but we had not thought of the good fortune of having him speak in our own town. The ladies of the M. E. church announce, however, that they have secured him for the evening of Friday, February 2 and that he will lecture on "The war in the Philippines."

The A. S. Lane family living on the river a mile and a half below town, all of whom have been sick with what the doctors think is the smallpox are now about well and will soon be able to be out again. The disease was brought home by one of the boys from the logging camp in Polk county where a number of men have had the same, though opinions differ as to whether it is smallpox or not.

The W. I. Decker grocery on the corner of First and Main streets must be regarded as very desirable property for it has changed hands no less than four times in the past few months. First Decker sold to G. W. Gilbert who after an ownership of two or three months sold to S. J. Lashier, who in turn sold to N. C. Johnson and now Johnson has sold to W. H. Morris. The prospects of the latter for a sale have not been reported but a change of pasture is said to make fat calves and spring will soon be here.

N. C. Christenson was down from McMinnville the first of the week and while here closed a deal with J. C. Sawyer by which he again becomes the owner of the grain warehouse at the railroad station. He has taken a partner in the warehouse business at McMinnville and North Yamhill which will probably relieve him of the personal oversight of the business at McMinnville and the probabilities are that he will return to Newberg with his family some time the coming season. Mr. Christenson grew up with the farmers of this community and by his upright methods of doing business he gained their confidence so that he now has a good stand-in with them in the warehouse business and he will drop back into his old place without a jar. We will all be glad to see the family back again as residents of Newberg.

For Sale Cheap. One span of good farm horses, weight about 1100 lbs. price \$75, at S. J. Fishers between Newberg and Dundee.

The New Dairymen Association. The council chamber of the city hall was well filled last Saturday afternoon with men interested in the success of the dairy industry. The meeting was called to order by the temporary chairman, J. M. Atkinson. Jesse Edwards, J. H. Rees and Jo Bryan, the committee previously appointed on constitution and by-laws, brought forward a report, which with slight changes was adopted. Under the constitution, the name of the new organization is the "Chehalis Dairymen's Association." Any citizen of the community, interested in dairying may become a member of the association by the payment of an initiation fee of twenty five cents. Officers are to be elected twice a year in the months of January and July. Regular meetings will be held on the last Friday afternoon of each month, when interesting programs, relative to dairying interests, will be rendered. Officers of the association were elected as follows: J. M. Atkinson, president; Jesse Edwards, vice president; J. H. Rees, secretary and treasurer.

An enthusiastic interest was manifested though under some unfavorable circumstances, which latter, however will be doubtless guarded against in the future. For it will be necessary that there be a distinction forced between matters pertaining to the dairy, and a general, meaningless biph burrah, which is in better place at an overflow meeting of an Irish Wake. If a man wants to prove that "no one will do as much for the community as he" there's a better way to do it than by monopolizing the valuable time of others to tell about it. With two or three exceptions however, everybody present took an active intelligent interest, and will be found doing all in their power to further the interests of the association. In addition to the officers some of those taking a real part in this industry are: J. Bryan, H. A. Grafe, G. Everet, H. O. Hanson, K. C. Eldridge, Will Thomas, D. T. Snodgrass, A. C. Martin, H. C. Paulsen and A. J. Winters. The next meeting will be held on Friday, January 23.

Having a Great Run on Chamberlain's Cough Remedy. Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of a gripe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with the prompt action.—South Chicago Daily Calumet. For sale by C. F. Moore & Co.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE "NECESSARY" MAGAZINE. The best-informed men and women in the world use the AMERICAN MONTHLY REVIEW OF REVIEWS to keep well informed, and call it the "necessary" and "indispensable" magazine. In the busy rush of to-day ambitious men and women must know about the important questions of the month, and not only this, they want to know about them at the right time. When the whole country is puzzled over the gigantic combination of trusts, a well-informed article is printed in the AMERICAN MONTHLY, giving the facts, and its editor discusses the theory; when the Dreyfus affair is in everyone's mouth, the best story of Dreyfus and the great case comes out in this magazine.

Every month, in "The Progress of the World," Dr. Albert Shaw gives a comprehensive picture of the world's history during the previous thirty days. In the departments, the valuable articles and books that have been published during the past month are reviewed and quoted from, so that the readers of the AMERICAN MONTHLY can get the gist of them. In every issue nearly a hundred pictures are printed, including the portraits of the men and women who are making the history of the month.

To be thoroughly well informed helps any man or woman in his or her work. A subscription to the AMERICAN MONTHLY REVIEW OF REVIEWS represents an investment for the best kind of profit, as well as entertainment. One subscriber has just written: "Count me a life subscriber, and when you send me a number beyond the limit of my subscription and secure no renewal from me, consider it a notice of my death."
