"I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have got hold of." One application relieves the pain. Quite a serious loss was sustained by S. M. Crosby of Dundee last Sun day evening in the destruction of his warehouse by fire. The fire was started by the explosion of a lamp, which had not been used for some time, and the flames spread so rapidly that no headway could be made against them. Several of our citizens noticed the conflagration from here. Ownership of the warehouse was in dispute between Mr. Crosby and the Southern Pacific.

L. W. Harger who was in town one day last week when the mercury was down five or six degrees below the freezing point and people were complaining of the "chilly weather," made the prediction that we would have that kind of weather for a month, but it is already almost as balmy as springtime, and now comes Jim Robinson and says that after the next change of the moon we will have fine weather right along. Of prophets and prophecies there are many.

The Newberg Graphic gives notice to candidates who wish to let the voters know that they are candidates for office, and desire their support, that the publisher must be recompensed if mention is made thereof in the columns of that paper. Announcements of candidates up to time of holding conventions will be \$2.50 each. Announcements in the Herald will be charged for at the same rates. This is the correct and proper way for a candidate to get his name before the people.—Dayton Herald.

In some way or other Newberg must have gained a reputation for being a moneyed town, judging from the periodical visits which the unknown safe tappers pay our burg. On Tuesday night both Porter's merchandise and Miller's jewelry stores were burglarized, though nothing of value was secured. Entrance was gained to the former by a rear window. A hole was bored through the safe door, and the powder did the rest, the door being completely torn to pieces. The safe however contained no money. Several bolts of dry goods were taken from a shelf and used to deaden the sound of the explosion, and several dollars hid under the shelf, remained undiscovered. The burglars entered Miller's store by carefully removing a panel of the back door. They proceeded as at Porter's, and succeeded in breaking the combination alright, but evidently the double door of the safe perplexed them, till they thought it was time to go. All of the valuable jewelry and considerable money was deposited in the safe and next morning Mr. Miller said that had the burglars been successful he would have had to pick out for the mines. The stormy night was very propitious for such work, and the wonder is that no loss ensued. Nobody seems to know anything about the identity of the pillagers, and what's worse, nobody seems to care to try to apprehend the robbers.

The last lecture of the course which is being given by Pres. Newlin at the college will be delivered on next Thursday evening on the subject, "Swarthmore and the Jordans." All the lectures have been intensely interesting, but special attention is called to this, which will be of peculiar interest to a Newberg audience, as dealing with the rise of Quakerism in England in general, and with the lives and work of George Fox and William Penn in particular. This lecture should call forth a large audience.

Dr. A. Mills' babe fell in front of an open fireplace a few days ago and was slightly burned on the top of the head. Mrs. Mills left the little one setting in front of the fire while she stepped into another room but on hearing the child topple over she rushed in and found it with its head between the dog irons. The hair was singed and the skin blistered but the results were not serious.

If no hitch was made—no that don't sound right for the hitch was the thing itself. Probably it would be better to say that if the program as announced was carried out, Miss Dora C. Altematt was married at her home near Albany on Thursday. The name of the groom the Graphic is unable to give. The bride has many friends in Newberg, she having taught music in Pacific College for two years.

Will Vestal met with quite a severe accident at the sawmill last Saturday which will put him on the shelf for some time as far as work is concerned. He was working in removing timber from the big saw, when Henry Schneider, who was occupied near him jammed a piece of timber against Will's hand, badly mangleing one finger. Of course Henry didn't "go to" but he will probably be more careful next time.

The Salem district Epworth League convention will be held here in the M. E. church, March 2-4 inclusive. It is expected that about one hundred delegates will be present, and the Newberg Leaguers are busy engaged in preparing for their entertainment while here. "After doctors failed to cure me of pneumonia I used One Minute Cough Cure and three bottles of it cured me. It is also the best remedy on earth for whooping cough. It cured my grandchildren of the worst cases," writes Jan. Berry, Loganton, Pa. It is the only harmless remedy that gives immediate results. Cures coughs, colds, croup and throat and lung troubles. It prevents consumption. Children always like it. Mothers endorse it. C. F. Moore & Co.

Jesse Edwards returned Tuesday evening from his Eastern Oregon tour, having visited Sumpter, Baker City, Pendleton and LaGrande. He found Sumpter still on the boom, and some quite substantial building being done, though there are not so many in there now as a short time ago. He is inclined to think, however, that the Sumpter reports are overdone, for, though the mines are alright, the place is too near Baker City to make a very substantial city. Both in Baker City and Pendleton, Mr. Edwards contracted for the sale of consignments of the company's pressed brick. He has good assurance also of furnishing brick for the new Scriber bank building of LaGrande.

Of candidates for county offices there seems to be no dearth. In fact they are too numerous to mention without some recompense. Announcements of candidates of all parties who want to reach the voters will be inserted in the Graphic from the present time up to the date of holding conventions at \$2.50 each.

The Village Improvement Club is in search of a woman to name as a candidate for school director. If the club has a woman to name for this office who is better qualified to fill it than any man who is available well and good, but it the idea is simply to find some one who wears petticoats instead of trousers, convincing argument to sustain the proposed change will be found wanting.

The Southern Pacific depot had a pretty close call one day last week. H. R. Satchell the agent was just leaving the building for a trip down town when he discovered a fire in the ceiling which had caught from the flue. It was getting under pretty fair headway and no doubt would have made a pretty blaze had the agent got away without making the discovery. Let'er go next time Mr. Satchell and then we may be able to get a building more in keeping with the demands of the station.

John F. Watts, attorney was in town a few days ago interviewing Gene Hoskins regarding a conversation the latter had with one of the jurymen in the McDaniel murder trial named Masten. McDaniel's attorneys are trying to work up a charge of perjury against Masten and it looks like they might succeed, judging from what Mr. Hoskins says he and others have made affidavits to. One of the statements is to the effect that Masten on being discharged at Goble where he had a job in a sawmill, remarked that he did not care, for he would return to Portland, get on the jury in the McDaniel trial and hang him. And yet on the stand he testified that he had not read the papers and did not know anything about the case.

H. A. Forcist, of Newberg, is one among the comparatively few men now living who were eye witnesses to the stirring scenes enacted about Springfield, Illinois, during the period of the memorable political campaign between Abraham Lincoln and Stephen A. Douglas, when history was being made so rapidly. Mr. Forcist lived near Springfield when a lad and passed the Lincoln residence many times. He was present in the city on the day of the great debate when twenty-five thousand people gathered to hear the great orators and hurrah for the respective candidates. In the evening, through boyish curiosity he attended the reception tendered to Douglas and saw many admiring country women join their babies along the line of the procession to be kissed by the "future president." Lincoln's friends, who were not to be outdone, marched about into the public square and mounted him on a huge pile of drygoods boxes for a speech. When he had uttered only a few sentences the boxes toppled over and down came the heap with Abe floundering around among the loose boxes, and this scene closed the memorable day which now is a matter of history.
