An Invitation to Women

All the world knows of the wonderful cures which have been made by Lydia E. Pinkham's Vegetable Compound, yet some women do not realize that all that is claimed for it is absolutely true.

If all suffering women could be made to believe that Mrs. Pinkham can do all she says she can, their suffering would be at an end, for they would at once profit by her advice and be cured.

There is no more puzzling thing than that women will suffer great pain month after month when every woman knows of some woman whom Mrs. Pinkham has helped, as the letters from grateful women are constantly being published at their own request.

The same derangements which make painful or irregular periods with dull backaches and headaches, and dragging-down sensations, presently develop into those serious inflammations of the feminine organs which completely wreck health.

Mrs. Pinkham invites women to write freely and confidentially to her about their health and get the benefit of her great experience with the sufferings of women. No living person can advise you so well. No remedy in the world has the magnificent record of Lydia E. Pinkham's Vegetable Compound for absolute cures of female ills. Mrs. Pinkham's address is Lynn, Mass.

Three Letters from One Woman, Showing how She Sought Mrs. Pinkham's Aid, and was cured of Suppression of the Menses and Inflammation of the Ovaries.

"DEAR MRS. PINKHAM—I have been in bed a year. Doctors say I have female weakness. I have a bad discharge and much soreness across my ovaries, bearing-down pains and have not menstruated for a year. Doctors say the menses will never appear again. Hope to hear from you."—MRS. J. F. BROWN, Holton, Kans., April 1, 1898.

"DEAR MRS. PINKHAM—I received your letter. I have taken one bottle and a half of your Vegetable Compound, and used two packages of your Wash, and feel stronger and better. I can walk a few steps, but could not before taking your Compound. I still have the discharge and am sore across the ovaries, but not so bad. Every one thinks I look better since taking your Vegetable Compound."—MRS. J. F. BROWN, Holton, Kans., Aug. 13, 1898.

"DEAR MRS. PINKHAM—I think it is my duty to let you know the good that Lydia E. Pinkham's Compound has done me. After I took three bottles, menses appeared, and I began to feel stronger and all my pain was gone. Yours is the only medicine that ever helped me. I am able now to work around the house, something I did not expect to do again."—MRS. J. F. BROWN, Holton, Kans., Jan. 25, 1899.

Three More Letters from One Woman, Relating how She was Cured of Irregular Menstruation, Leucorrhœa and Backache.

"DEAR MRS. PINKHAM—I am suffering and need your aid. I have pains in both sides of the womb and a dragging sensation in the groin. Menstruation irregular and painful; have leucorrhœa, bearing-down pains, soreness and swelling of the abdomen, headache, backache; nervousness, and can neither eat nor sleep."—MRS. CARRIE PHILLIPS, Anna, Ill., July 19, 1897.

"DEAR MRS. PINKHAM—I want to thank you for what you have done for me. When I wrote to you I was a total wreck. Since taking your Vegetable Compound, Liver Pills and Sanative Wash, my nerves are stronger and more steady than ever before, and my backache and those terrible pains are gone. Before I took your medicine I weighed less than one hundred and thirty pounds. I now weigh one hundred and fifty-five pounds. Your medicine is a godsend to poor weak women. I would like to ask you why I cannot have a child. I have been married nearly three years."—MRS. CARRIE PHILLIPS, Anna, Ill., Dec. 1, 1897.

"DEAR MRS. PINKHAM—I did just as you advised me, and now I am the happy mother of a fine baby girl. I believe I never would have had her without your Vegetable Compound."—MRS. CARRIE PHILLIPS, Anna, Ill., Jan. 27, 1899.

Proof that Falling of the Womb is Overcome by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM—When I wrote to you some time ago, I had been suffering from falling of the womb for many years without obtaining relief. Was obliged to wear a bandage all the time; also had bad headache and backache, felt tired and worn out. After taking six bottles of Lydia E. Pinkham's Vegetable Compound and four boxes of Liver Pills, I discarded my bandage and have not had to wear it since. I am entirely cured."—MRS. J. P. TROUTMAN, Box 44, Hamilton, Ohio.

"DEAR MRS. PINKHAM—For nearly two years I was unable to work. I was very weak and could not stand on my feet but a few minutes at a time. The doctors said I had falling and inflammation of the womb. I began to use Lydia E. Pinkham's Vegetable Compound, and after using five bottles I feel like a new woman."—MRS. P. N. BLAKE, Confluence, W. Va.

At a request of the legislative committee of the Ohio Federation of Labor a bill has been introduced in the Ohio legislature providing for equal wages for men and women.

FARMING FOR ALASKA

Grains, Flax, Clover and Vegetables Thrive Surprisingly—Also Goats, Sheep and Cattle.

One of the important reports which has just been submitted to congress by the secretary of agriculture and ordered to be printed deals with the agricultural investigations in Alaska. It is important because it brings out some facts in regard to the agricultural capabilities of our vast Northern territory, which will astonish those who have regarded it as a useless ice box, which at most, was valuable only for the goid it might contain or for the fur and fish it yields.

These investigations, as far as they have gone, indicate that it has latent capabilities which, when developed, may sustain a large population and make it a prosperous state. And why not? The little country of Finland, which lies between Sweden and Russia in the same latitude and is less than one-fourth the size of Alaska, has a population of 2,500,000 and exports both grain and livestock, as well as vast quantities of dairy products. The author of the report, Professor C. C. Georgeson, who has charge of the investigations, brought to Washington 11 varieties of spring wheat, a dozen varieties each of barley and oates, and also rye, buckwheat and flax, all of which had matured at the experiment stations at Sitka and Kenai, in the Kenai peninsula. The report states that red clover lived through the winter at Sitka, made a luxuriant growth and matured seed, and that vetches and other forage plants did equally as well. All of the common hardy vegetables were grown to perfection, some cauliflower at Kenai measuring 14 inches across the head.

A statement by the superintendent of the Alaska Commercial Company in regard to his company's experience with livestock at Kadiak is of more than passing interest, because it reveals possibilities in the stock industry which are bound to be of much importance in the future development of the country. The company has for many years kept cattle, sheep and Angora goats on some of the small islands near the town of Kadiak. On one of these islands it was not found necessary to feed or shelter the cattle at all, winter or summer. Year in and year out they lived in the open and were maintained solely by the native grasses, which are abundant in all of Southwestern Alaska. The herd increased yearly about 75 per cent of the breeding cows. A flock of Angora goats increased 60 per cent annually and gave very good results in mohair. A flock of sheep has been kept for the past 16 years on pasture, the year around. The increase was something over 60 per cent, and the clip averaged about five pounds of wool per head yearly. There seems to be no doubt that animal husbandry can be successfully prosecuted in different parts of Alaska.

Land for agricultural experiment stations has been reserved at three places in the coast region; namely, at Sitka, Kadiak and Cook Inlet, and development work was begun the past season at Sitka and Kenai. A headquarters building was erected and partially completed at Sitka. It is to contain offices, laboratory, library and quarters for the person in charge. Most of the scientific work will be done at Sitka.

The stations are equipped with work oxen and all the tools necessary for pioneer farming. The report enumerates also the lines of experimentation which are of chief interest to that country. They include those which relate to the improvement of the soil, the selection and improvement of small grains, experiments with vegetables, the introduction of fruits and experiments relating to the various branches of livestock industry.

Northwest Notes.

An opera house to cost $12,500 and to have a seating capacity of 1,000, is to be erected at Albany, Or., this year.

Mrs. Jane Kees, who died near Lebanon, Or., left an estate valued at about $120,000, mostly in money. She left no children, and the money goes to her brothers and sisters.

The hoisting engine at the government works at Bandon, Or., was crushed to smithereens. A big blast was set off, and a rock weighing 25 tons fell on the engine, fairly pulverizing it.

Fairhaven, Wash., claims to have not only the largest salmon cannery in the world, but also the largest shingle mill, and the daily capacity of the latter is now being increased from 500,000 to 700,000.

A. C. Pettys, ex county assessor of Morrow county, Or., who has a fine farm and orchard three miles east of lone, is of the opinion that the late frost injured the peach crop. His trees were nearly in bloom when the frost came. He also states that the codlin moth was doing a great deal of injury to his orchard.

Pendleton, Or., will have a Chinese voter at the June election by the name of Eng Chung, who was born in San Francisco. He is well educated and reads and writes the English language as well as the average American, and to hear him talk without seeing him it would be impossible to say that he was not an American.

A 16-year old boy has been arrested in Spokane charged with bicycle stealing. He confessed that he had stolen nine of the ten wheels reported stolen in February.

The average wages paid in the lumber and shingle mills of Washington is about $2.78 per day. The lowest wages paid is for firemen, who receive $1.75 per day. The highest are received by head sawyer and bookkeepers, their compensation being $4 per day.

The Northern Pacific taxes in Walla Walla county were $2,234.96, and the money has been paid.

The Daniels creek railroad, to be built by the North Bend Mill Company, to tap a body of over 3,000 acres of timber land which the company recently came into possession of, is now an assumed fact, says the Marshfield, Or., Sun. All of the important right of way has been secured, and the first length of road to be built will be six miles. The road is to be broad gauge, and the engines and rolling stock have been ordered from the East.

SPRING TRADE RETARDED.

Underlying Business Conditions Are Highly Satisfactory.

Bradstreet's says: Stormy weather has retarded the development of spring trade at many markets, interrupting telegraph and railway communication and nearly checking the movement of merchandise. In prices, aggressive strength is still the feature of the cotton and cotton goods market, while retail lines remain steady. Food products, however, have weakened, and some raw materials, like wool and hide are quotable lower. Railway returns continue to reflect large gains over a year ago, though, as pointed out last week, comparisons from now on will be with better conditions in transportation matters than a year ago, and phenomenal gains are less likely of attainment.

That underlying business conditions are in a high degree healthful will be gathered from the fact that business failures for February are at a minimum as regards the number for that month, and liabilities, only slightly exceeding those of the same month a year ago, have shrunk to a phenomenally low percentage.

Wheat (including flour) shipments for the week aggregate 3,863,387 bushels, against 3,660,850 bushels last week, 5,815,585 bushels in the corresponding week of 1899, 3,252,003 bushels in 1898, 2,075,435 bushels in 1897, and 1,407,379 bushels in 1896.

Failures in the United States for the month of February number 745, with aggregate liabilities of $9,995,464, a decrease of 3.5 per cent in number from February a year ago. Liabilities are 3 per cent heavier, but assets are considerably smaller than in the same period a year ago. Failures for the week number 173, against 168 last week, 170 in the week a year ago, 232 in 1898, 262 in 1897, and 270 in 1896.

Killing Locusts by Inoculation.

Dr. Alexander Edington, a distinguished graduate of Edinburgh university, now director of the Bacteriological institute at Grahamstown, South Africa, has cultivated a fungus which, when administered in a liquid form to locusts, produces a fatal disease, rapidly destroying the pests in enormous swarms. Three great swarms of locusts ravaging the fields were recently entirely destroyed in this manner within a week.

A SIGNIFICANT LETTER.

New York City, Feb. 15, 1900.

My Dear Carlton:—I know it will please you to learn that my homeward journey from San Francisco was more than pleasant. One striking feature that added very much to my comfort was the dining car service on the Rio Grande Western and the Denver & Rio Grande. This is the finest service of this description I have ever seen anywhere, either in this country or abroad; the food and cooking was all that could be desired, and at very moderate prices. If you happen to know the Rio Grande Western people, I wish you would say to them that it will afford me the greatest pleasure at all times to bear testimony anywhere to the above facts.

Very truly yours,
(Signed) J. ADDISON BAKER, 2nd.

A Bag Full of Breath.

The "pneumatopher," an Austrian invention for enabling miners, firemen etc., to breathe when surrounded by after damp, smoke or noxious fumes of any kind, consists of an air tight rubber bag containing a steel bottle of pure oxygen at a pressure of 100 liters, and a metal protected glass bottle containing a 25 per cent solution of caustic soda. The oxygen can be admitted by a hand screw into the bag and drawn into the mouth through a rubber tube, the nose being closed by a clip. The turn of another handscrew breaks the glass bottle, allowing the caustic soda to flow out and be absorbed by a knitted network in the bag to absorb the carbonic acid exhaled, allowing the oxygen to be rebreathed, the apparatus being capable of furnishing oxygen enough to last from thirty to ninety minutes, as has been attested by numerous experiments.

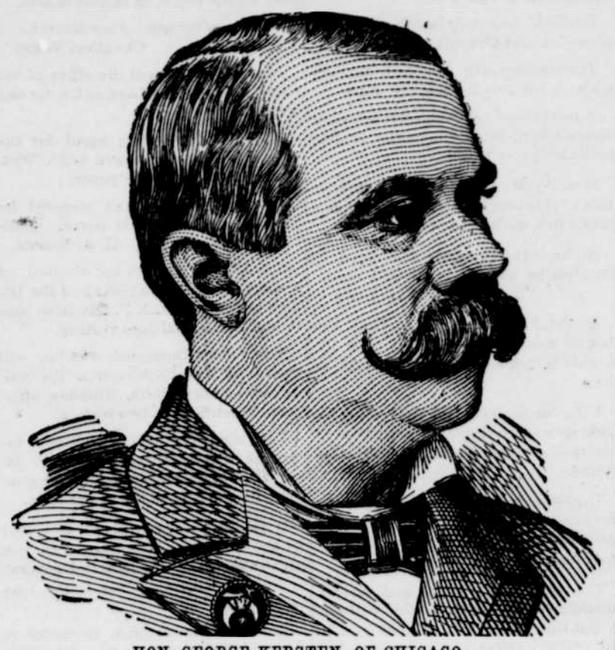
A NOTED JUDGE SAVED BY PERUNA.

Had Catarrh Nine Years---All Doctors Failed.



HON. GEORGE KERSTEN, OF CHICAGO.

Hon. George Kersten, a well-known Justice of the Peace, of Chicago says:

"I was afflicted with catarrh for nine years. My catarrh was located chiefly in my head. I tried many remedies without avail. I applied to several doctors, but they were not able to cure me. I learned of the remedy, Peruna, through the daily newspapers. After taking the remedy for 18 weeks I was entirely cured. I consider my cure permanent, as it has been two and a half years since I was cured."

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent. Peruna is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. Peruna not only cures catarrh, but prevents it.

All families should provide themselves with a copy of Dr. Hartman's free book entitled "Winter Catarrh." This book consists of seven lectures on catarrh and la grippe delivered at The Hartman Sanitarium. It contains the latest information on the treatment of catarrh diseases. AN APPEAL TO HUMANITY GENERALLY

We need your assistance in announcing to the world the GREATEST REMEDY that Science has ever produced, and you need our assistance to secure relief for yourself and friends through SWANSON'S "5 DROPS."

A REMEDY SUPREME As surely as the American Navy has conquered and will conquer all that opposes it, so will "5 DROPS" unfailingly conquer all diseases like Rheumatism, Sciatica, Neuralgia, Lumbago, Catarrh of all kinds, ASTHMA, Dyspepsia, Backache, Sleeplessness, Nervousness, Heart Weakness, Toothache, Earache, Creeping Numbness, Bronchitis, Liver and Kidney Troubles, etc., etc., or any disease for which we recommend it. "5 DROPS" is the name and the dose. "5 DROPS" is perfectly harmless. It does not contain Salicylate of Soda nor Opiates in any form. The Child can use it as well as the Adult.

5 DROPS [TRADE MARK]

Read carefully what Mr. L. R. Smith, of El Dorado Springs, Mo., writes us under date of Nov. 27, 1899, also Martan Bowers, of Caraghar, Ohio, under date of Dec. 16th, 1899:

Neuralgia: RHEUMATISM

I do not know how to express how wonderful I think your "5 DROPS" medicine is. I was suffering intensely with NEURALGIA and thought for a month that I would have to die. One day a lady called to see me and brought me an advertisement of your "5 DROPS." I resolved to try it and sent for a sample bottle. Have been taking it for three weeks and have not had an attack of suffering since I took the first dose. I believe it has saved my life. This statement is positively true. I shall also take pleasure in recommending your "5 DROPS" for the cure of NEURALGIA. L. R. SMITH.

El Dorado Springs, Mo., Nov. 27, 1899.

Your "5 DROPS" came to hand on the 11th of last month and was glad to receive it for I was suffering at the time with untold agonies. The first dose helped me out of my pain on short notice. Bless the name of God for it. It will do all you say it will, and more too. I had severe pains all over my body, when night came I could not sleep. The worst pain was in my left leg. I could not put my foot to the floor without suffering great pain. Have used four different kinds of medicine for RHEUMATISM and got no relief until I got your "5 DROPS," which gave me immediate relief as above stated.

MARTAN BOWERS, Box 83, Caraghar, Ohio. Dec. 16, 1899.

30 DAYS to enable sufferers to give "5 DROPS" at least a trial, we will send a sample bottle, prepaid by mail for 25c. A sample bottle will convince you. Also, large bottles (300 doses) $1.00, 6 bottles for $5. Sold by us and agents. AGENTS WANTED in New Territory. Don't wait! Write now!
