

A best sugar plant to cost \$80,000 belongs to sound quite metropolitan.

Make way for Newberg, and give us room. We are going to have that best sugar factory.

Cal Cooper's "Campaign" is on deck with a cartoon, executed by his sixteen year old son, on every page. It is little but promises to be mighty.

At least one of the Utopian visions of Bellamy's "Looking Backward" is about to be realized, as an Ohio pastor is arranging to dispense his Sunday sermons to his indolent audience by telephone. This may be satisfactory to some but not to the pastor surely, until he perfects some scheme for phoning in the morning contribution.

"Hands off" should be the signal slogan in the direction of the second congressional district in general and Portland politicians in particular, in regard to the first district congressional nomination. This is our affair, and ours alone. We have managed and can manage such matters as pertain to our own interests without ringing in any dirty city politics from the direction of our metropolises.

Most of the gold democrats are quite willing to come home if the past will only be forgotten.—Democrat.

Right there is the thorn. "The past" is synonymous with "free silver," and Bryan doesn't dare "forget" that fallacy for fear of the populists. And the gold democrats won't come back until the past is forgotten. Bryan's attitude will necessarily be a rather strained one, to say the least.

With a carefully selected ticket in the field, the Polk county republicans will sweep the field at the coming June election. The place to begin the good work is at the precinct primaries. Let none but good, straight-out republicans be chosen as delegates—men who will help to select candidates with special care as to their fitness for the offices to which they aspire and their reliability as citizens. If this care is exercised in the selection of a ticket, the party will elect every officer from state senator to road supervisor.—Polk County Observer.

The above has the proper ring and applies equally well to Yamhill. What the people demand is a strong, clean ticket, made up of men chosen for their integrity and ability, rather than for a "staid lot" with any class which savours strongly of "ring politics."

Some republican seer has contributed a maxim to the political wisdom of the age, which, from the great truth it expresses, is entitled to a place in history. The maxim is to the effect that the democrat party can always be depended on to do the wrong thing just at the right time. The soundness of this saying has again been demonstrated by the fact that when the two great political parties of the country came to approach another political campaign the democratic party voluntarily chose to approach the theory of expansion and to declare in favor of bringing home forever the flag which our boys have planted on the islands of the Southern sea.—Plaindealer.

We declare in favor of the above alright, but perfect candor compels us to remark that the strange actions of some republican congressmen in regard to the Porto Rican policy would indicate that they are determined to add an unpleasant amendment to said maxim.

The Albany convention has done its work well. Mr. Tongue is a man who will represent the intelligence of Oregon, who understands its needs and its resources, and who has the energy and ability to make its influence what it should be in the national House of Representatives. No man in Oregon has expounded the principles or upheld the faithfulness of the republican party more faithfully or more cogently than has Mr. Tongue. He understands the essential principles of the money question, and no telegram from Washington would be needed to furnish assurance that the platform of the 84. Local convention will be his platform. From a party standpoint his nomination is peculiarly gratifying, as his withdrawal from the senatorial fight last winter, after the caucus had declared for Senator Dolph was prompt, in good spirit, and so far as appeared, conscientiously adhered to.—Oregonian, April 8, 1896.

Whatever may have "got into" the Oregonian of late, the people of the first district were in full accord with the above expressed sentiment when given, and what is more they are more fully convinced of its truth at the present time. His record in congress since the publication of the above is the best argument in favor of the re-nomination and re-election of Mr. Tongue.

EDITORIAL COMMENT.

The official guide to the City of Topeka is being sold this week under the guise of a map of the Holy Land.

Everything that happens for the benefit of the country during a republican administration is explained by the democrats to be a "coincidence."

The alleged search for Goebel's murderer is in reality a display of partisan spunk and venom. It is in line with the revolution going on in Kentucky under a monstrous law that works nothing but wrong and demoralization.

Mr. Sheldon discovers in his Topeka experience that "there is quite a rush around a daily newspaper office, and

the editor has to decide things quickly." Should the editor decide wrong, as has been known to happen, the sense of disturbance is still more marked.—Globe-Democrat.

Mrs. Dewey, it is said, has put her foot down that her husband shall be president whether he wants to or not. Doesn't the gallant admiral sometimes wish that he was back in Manila Bay again, with Spanish shells flying around him—and having a quiet life?—Oregon City Enterprise.

The conviction of a fellow citizen of the serious crime of rape should make every young man whose ways are not as circumspect as they should be pause and consider before he gets into the clutches of the law. Many a young man just as guilty has escaped. There is only one rule of life good enough for any man. Keep your character clean.—Albany Democrat.

It is sincerely to be hoped that the alleged "reform" forces, the free silverites, the anti-expansionists, the Bryanites and the calamity howlers, will pool their issues in the approaching campaign, will fuse and stand up and proclaim their doctrines, if they have any, so that voters can decide intelligently whether or not they want to turn the country over to these malcontents.—Albany Herald.

It is said the officials and employees of the United States Indian training school at Chemawa disbursed on Friday in this city \$12,000. This is growing to be an important institution, and yearly of more benefit to Salem. The appropriation bill for the next fiscal year of students next year, and the number will probably reach 550, or possibly 600, as the cost of keeping here is lower than the average of institutions of this kind throughout the country.—Statesman.

There is no lack of interest in the subject of developing the dairy industry in Oregon at the present time. There is talk of establishing creameries at almost every town in Oregon which is not already provided with one. The final success of the creameries which will be established will hinge much upon the thoroughness with which a campaign of educational work on dairy lines is carried on. Careful and intelligent study of the problems connected with dairying is an absolute necessity to permanent success.—Rural Northwest.

The hardest job that Colonel Bryan will have to explain in a few days, when he reaches Oregon, will be to tell why conditions are not as he prophesied three years ago they would be in case of his defeat at the polls. It will prove even more difficult than that wheat and silver proposition of his. Now that prosperity strikes have taken the place of calamity croakings, Colonel Bryan will be at a loss to hold the ears of those who no longer find him interesting.—Ashland Tidings.

In the three years President McKinley has been in office he has been most earnest all the time to advance the interests of his country. We have heard complaints and cavil. The complainants we can throw aside. They are weaklings, nothing but anaemic men, who would like to be traitors, but who have not got the red blood to make the complaint good. President McKinley has upheld the national interests at home and our honor abroad.—Governor Roosevelt, of New York.

Mississippi has adopted an anti-lynch law that will cause the deposition from office of any sheriff who negligently allows a mob to take a prisoner from his charge; and allows damages to be recovered from members of the mob by the relatives of any person who is lynched by such members. This law avoids the objection raised against the Ohio anti-lynch law, which law permitted damages to be recovered from the county wherein a lynching took place. On account of that provision the law was declared unconstitutional.—Statesman.

Washington Correspondence.

Washington, March 15, 1900. It is getting to be spring, but this region has no comparison with the beautiful valleys and hills of Oregon, where the flowers have been blooming for a month and spring has made progress. We had a blizzard a few days ago that left the world frozen and snow bound. For that, the early lilies and bloom are coming timidly to life and the buds are swelling, so we shall have spring soon.

Mr. Hermann has returned from New York, where he was invited to address the West Side Republican Club at a grand banquet where four hundred prominent men sat down and he and Governor Roosevelt were the orators of the evening. Speaking of orators; it is one feature of Mr. Tongue's success as a congressman, that he is listened to when he addresses the house, which makes him personally more attractive.

Congress has been grinding away at Puerto Rico bill and talking about the Philippines. Nothing suits the democracy; they would be in opposition whatever happened. The effort to create capital for the presidential campaign absorbs all their energies and covers all questions. All our congressmen are busy as bees in a tar barrel and are trying to accomplish whatever is possible for Oregon. Mr. Tongue says there is nothing important within his province, but he is always hard at work. He is doing all in his power to help the first district.

I find that four pension bills introduced by Senator McBride have passed

the Senate since this month came in. S. B. 344, grants a pension of \$3 a month to Mrs. Nancy A. Dowell, widow of B. F. Dowell, passing the Senate March 3. S. B. 358, granting a pension of \$12 a month to Wm. P. Arble, a Mexican war veteran, passed the Senate same date. S. B. 347, granting a pension of \$20 a month to Mrs. Margaret McKay, widow of Dr. Wm. McKay, also passed March 3rd. This is a measure that will gratify all the friends of "Billy McKay" as we loved to call him in the old time. S. B. 342, granting a pension of \$12 a month to Mrs. Eleanor McDevitt, passed the Senate March 3.

The Senate has also adopted the following amendments offered by Senator McBride to the Indian appropriation bill: For purchase and construction of one portable saw-mill for the Klamath Agency, Oregon, three thousand dollars. For improvements for water works and sewerage system, Klamath Agency, Oregon, three thousand three hundred dollars. For construction of one barn, Klamath Agency, Oregon, one thousand forty-three dollars. For lighting system, Klamath Agency, Oregon, three thousand dollars. For the erection and completion of a brick dormitory for the Indian School, Salem, Oregon, twenty thousand dollars.

This last item deserves more than ordinary mention. The Indian School at Chemawa (near Salem) has grown to be the greatest of the Indian schools on the Pacific Coast. From the first Senator McBride has devoted himself to give this school character and make it the equal of the Carlisle school, at the East, that has such a reputation. In this he has been cordially assisted by Mr. Tongue, who has taken equal interest to build up this Indian institution of learning to be a means of elevating that race.

Senator McBride appeared personally before the committee of Indian affairs to urge the need of all the amendments he had presented. When Mr. McBride's term commenced the school at Chemawa had accommodation for three hundred scholars; the erection of the girls dormitory asked for by the amendment will give capacity for five hundred, which is considerable increase in four years. This dormitory will be of brick, and fire proof, and is intended for girls exclusively. Every year the Senator has planned for some substantial improvement at Chemawa and the result of careful management shows that he has succeeded, with the constant aid of Mr. Tongue. As a result the Oregon Indian school has become one of the leading institutions of this kind in the United States. It has now sufficient accommodation for all present needs, and can anticipate future growth. What gives it prominence and advantage is, that the mild climate of Oregon and the special healthfulness of that location fits all that is desirable for such an institution.

A Word or Two About Picketed Feels. An infallible sign of extreme mental youth, ignorance of the world or rusticity is hung out whenever man or woman assumes the chronic role of doubting Thomas. There is nothing that comes easier than demolition; the force of gravity lends a hand at that commonplace business. Anarchy is the most elementary of all theories. Any man can cut down an ant hill with one shove of his foot, but only the ant can build it up again. The typical critic sits aloft a penny-a-liner Jove, frothing with words of contempt, forgetful of the sunny side of fair criticism in a painful (sometimes ludicrous) attempt to appear authoritative; often incapable himself, but ever ready to find mortals so. The dyspeptic holds honest praise to be poisonous honey, because his own alimentary canals refuse to work with sweets. The countryman, because he was cheated twenty years ago during his one metropolitan experience, looks with many suspicion upon everybody of a city cut. The callow mind in ignorance of life points a pistol at it for fear of being shot first. There is a difference between experienced caution and callow distrust; one is an elderly man with keen, kind eyes, the other a fat boy with a swelled head.—"The National Magazine" for March.

A Cross Clerk

Is a rarity. For the most part the young woman behind the counter is smiling and obliging, though her back hurts, her side pains, or her head throbs distractingly. The wonder is, not that a clerk is sometimes irritable, but that she so rarely shows irritation, when every nerve is vibrating and she hardly knows how to hold her head up.

The nervous condition, headache and weakness which are the results of irregularity or a diseased condition of the womanly organs, can be entirely cured by the use of Dr. Pierce's Favorite Prescription. It regulates the functions, stops encumbering drains, strengthens the nervous system and promotes the general health of the entire body.

Sick women are invited to consult Dr. Pierce by letter, free of charge. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Having used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' during the past year," writes Mrs. Mattie Long, of South Valley, Perry Co., Pa., "I can truthfully recommend the medicines for all female weaknesses. I was so nervous and discouraged, which I consider a great blessing for a woman. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home-treatment helped me wonderfully. Thanks to Dr. Pierce."

At a meeting of the school board on Friday evening last, it was decided to retain the principal of the school, Prof. S. S. The former corps of teachers was also hired for the next school year, as follows: Mrs. Elie Harris, Miss Maud Dunn and Miss Nellie Findlay. Mrs. Harris, of the primary department also had her salary raised \$5 per month making her salary now \$35 per month.—Dayton Herald.

4 Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this county. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking the first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hanneke & Co. of Shelby M. C. Trial bottle free at C. E. Smith's drug store. Regular size 50c. and \$1.00. Every bottle guaranteed.

Summons. In the Circuit Court of the State of Oregon for the County of Yamhill. Newberg Orchard Association, a private corporation Plaintiff

vs. J. T. Osborn, Defendant.

To J. T. Osborn, the above named defendant: In the name of the state of Oregon you are hereby required to appear and answer the complaint filed against you in the above entitled suit, on or before the 15th day of March, 1900, and if you fail to so appear and answer for want thereof the plaintiff will apply to said court for the relief demanded in the above complaint, and you shall be bound by the judgment of said court in the premises.

Witness my hand and seal of said court, this 15th day of March, 1900, at Newberg, Oregon, in the presence of the following Justices of the Peace: Geo. S. Nelson D. L. C., Sec. 2, T. P. S. R. West, William Meridian, of the North end of the 27.50 acre tract purchased by Geo. Christensen from W. S. Ladd and wife and S. Reed and wife, deed of which is recorded on Page 216 of Book "14" of the Records of Yamhill County, Oregon, more particularly described as follows: Beginning at the northwest corner of the tract of Geo. S. Nelson D. L. C., said corner being marked by a quart bottle, over which is a rock 1 x 1 1/2 ft. firmly planted in the ground, thence north 80 degrees 15' to the northeast corner of the aforesaid tract, C. Christensen tract; thence south along the east side and line of said Christensen tract 108.97 feet, thence west 162.44 feet to the west line of the Geo. S. Nelson D. L. C. tract; north along said line 168.27 feet to the place of beginning.

It is ordered that said complaint be read to the plaintiff and that the defendant pay said sums to plaintiff and accept the deed and release tendered with his complaint in this case, and in the event the same is not paid within thirty days from the date of entering judgment here in that the interest of defendant in the following described real property, to-wit: Being sixty acres in the Geo. S. Nelson D. L. C., Sec. 2, T. P. S. R. West, William Meridian, of the North end of the 27.50 acre tract purchased by Geo. Christensen from W. S. Ladd and wife and S.
