While J. H. Bowerman was superintending the spraying of his prune orchard last Saturday he had another attack of paralysis and was carried to the house in an insensible condition. He has since rallied so that he is able to talk some but he realizes that his stay on earth is likely to be very short.

Rev. W. E. Slizer, W. Canon, N. Y., writes, "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodol Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat. C. F. Moore & Co.

Mrs. Calvin Zimmerman, Milesburg, Pa., says, "As a speedy cure for coughs, colds, croup and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take. I heartily recommend it to mothers." It is the only harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption. C. F. Moore & Co.

A good natured political campaign has been on in North Newberg precinct during the past week in which J. G. Hadley and J. L. Hoskins are the interested parties. Both of them are candidates for the office of county recorder and as they both reside in this precinct they decided some days ago to leave the choice, as to which one of them should present his name to the republican county convention, to a vote of the republicans of the precinct on next Saturday afternoon. This will insure a large attendance at the primary.

The friends of Ethel Roberts will be glad to know that the case, wherein she was charged with killing a valuable shepherd dog belonging to the Sliton boys, was thrown out of court last Monday as there was no evidence to sustain the charge. Like many another foolish boy he invested in a revolver about the time the dog was killed and this act was no doubt largely what got him into trouble.

C. J. Edwards arrived home from Columbus, Ohio the first of the week where he spent the fall and winter terms in the Ohio State University as a student in the clay workers department. He visited some of the largest pressed brick plants in the United States before coming home, and altogether, he thinks the winter's work has been one which will prove to be of great benefit to him in his work in the brick factory here at home.

Mr. and Mrs. Fred Groff arrived home from Salt Lake City the first of the week. Mrs. Groff found that the climate of Utah agreed with her and returned with her health very much improved, but Mr. Groff was taken down with inflammatory rheumatism and hurried home by the advice of his physician. Their son Sam who was at one time a resident of Newberg came through with them but left for home on Thursday.

The primary college debate for the purpose of choosing the college team to meet Monmouth will be held in the chapel next Friday evening. The public is invited to attend. The question as debated will be: Resolved, that the street railroads, electric light plants, and water works of our cities should be owned and operated by the municipal governments. The boys have been divided as follows for the debate. Affirmative, Kirk, Wolf and Kenworthy. Negative, Pickett, Deach and Burrows.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. Meakie, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by C. F. Moore & Co.

THE BEET SUGAR ENTERPRISE.

A DEFINITE PROPOSITION IS BEFORE THE PEOPLE FOR THE LOCATION OF A FACTORY HERE.

A Big Mass Meeting to be Held Here Next Monday, at 10 a. m.

By this time the word has gone throughout all the land unto all the people that Newberg's prospects of having a sugar beet factory have come to a strictly business proposition. This project is of vital interest to a much wider territory than Newberg and immediate vicinity. It means a great deal to the farmers within a radius of thirty miles, who would have a ready market for all the beets they could raise, at good prices. In view of this general interest which is being taken, a mass meeting has been arranged to take place here on next Monday at 10 a. m., when the question will be thoroughly discussed from the farmer's standpoint particularly. This is expected to be one of the largest gatherings of the kind Newberg has ever seen, as a large attendance is expected from all over this county, and from Marion, Polk and Washington counties. Everybody in any degree interested in the development of this section of country should be in attendance.

In consideration of the fact that many who live away from here and do not get the Graphic, will be interested in knowing the details of the question, a full account of the whole subject is here given, and an extra edition printed. With careful and comprehensive view of the status of affairs and of the spirit manifested by the citizens of Newberg. After having once apparently quieted down, the beet sugar factory excitement was again raised to a fever heat by the arrival in Newberg of the accredited agent of the capital to be invested. The agent for the German capitalists, Dr. Korn, of Dayton, O., who has been expected for several weeks arrived in town Tuesday, March 20, and was taken in hand by some of Newberg's representative citizens and driven all over the surrounding country. Dr. Korn was accompanied by Mr. Zeitfuchs, of Portland, who was here a few months ago, and by Mr. Case, civil engineer, of the same city as Dr. Korn. On Tuesday evening an enthusiastic meeting was held in Armory hall when Dr. Korn in behalf of the capital he represented, made Newberg a definite proposition. He asked the location of fifty acres of land for the location of the factory, and a contract for five thousand sugar beet acreage. The question was then directed to him: "If these conditions are met, will the sugar factory be located at Newberg?" "Yes, sir," was the immediate answer. The agent explained that he had investigated carefully the whole Willamette valley and was thoroughly convinced that Newberg presented by far the best natural advantages for such a manufacturing establishment. He furthermore stated that he was aware of the adverse opinion of Prof. Shaw of the State Agricultural College, in reference to the practicality of best sugar culture in the Willamette valley, but said it would not hold; that there were many different varieties of beets, and among them some which matured in one hundred days and that by planting the latter, the crop could be dug by the middle of August, before the Fall rains set in.

Dr. Korn said he would give the people of Newberg until July 1 to meet the required conditions, and that if they did so, work would be begun on the new factory by August 1. This statement elicited great enthusiasm, and stirring speeches were made by Hon. George C. Sears and Hon. Clarence Butt. Dr. Korn was very liberal in his views in reference to the starting of the proposed industry, and gave the farmers much good advice. He said he was strongly wedded to the idea of diversified farming, and that it was the salvation of the American farmer. He does not wish the farmers to stop all lines of agriculture to raise beets, but to raise them with other farm products. He emphasized the fact that the beet-sugar industry goes hand in hand with the rapidly growing dairy industry.

Another large and enthusiastic meeting of our citizens was held Thursday evening, March 22 in Armory hall, to set on foot definite arrangements for meeting the conditions by which Newberg may secure the \$500,000 beet sugar factory. The meeting was called to order by Jesse Edwards, who stated that the object was to effect a permanent organization for the development of Newberg's resources in general and the beet sugar industry in particular. Temporary officers were elected with Jesse Edwards as president and Moses Votaw as secretary.

Mr. Edwards then suggested a general plan of procedure, to the effect that the citizens of Newberg organize and incorporate a company for the development of the interests of this locality, it being understood that the beet sugar factory was the subject of supreme importance. After some discussion and explanation this plan was adopted unanimously and by motion the capital stock of this company was placed at five hundred dollars.

The money to be realized from this stock is to be used exclusively for pushing the beet-sugar proposition in every way, such as soliciting for acreage, and for advertising purposes, and is simply an immediate fund for beginning the agitation. The price of the shares was fixed by motion at \$1 each. The stock books were opened, and over two hundred and fifty dollars was subscribed on the spot, which, being over half the incorporated stock, entitles the company to immediate incorporation. For the so-

liciting of further stock a committee of five was appointed, composed of T. B. Cummings, W. S. Parker, W. H. Nelson, J. C. Sawyer and Dr. E. P. Dixon. A committee composed of C. K. Spaulding, Hon. Clarence Butt and Moses Votaw was appointed to sign the articles of incorporation and file them according to law. A committee on constitution and by-laws was appointed, consisting of E. H. Woodward, Hon. Clarence Butt and F. A. Morris. The name decided upon for the new organization was "The Newberg Development Company."

Considering the fact that so many other localities are taking an interest in the proposed industry for this place, and have signified a desire to help make it go, it was decided that a mass meeting be held here Monday, April 2, at 10 a. m., to which a general invitation be extended. This meeting will be widely advertised and it is expected that there will be a large attendance from all parts of the surrounding country within a radius of 25 miles. A committee on advertising and general arrangements for the mass meeting was appointed, consisting of W. C. Woodward, F. H. Storey, L. S. Hill, O. K. Edwards and S. M. Calkins.

The citizens of Newberg met in the Armory Saturday night and effected permanent organization of "The Newberg Development Company."

The Committee on Incorporation reported that the articles of incorporation had been made out, sworn to and filed according to law. The Committee on Soliciting Stock reported that nearly four hundred shares had been subscribed. The names of the stockholders were read and it was ascertained that enough of the shareholders were present to make the meeting a legal one, with authority to transact business.

The temporary organization was then retired and the meeting was given over to the control of the permanent organization, with Hon. Clarence Butt, of the Committee of Incorporation in the chair. The committee appointed for that purpose reported a draft of a constitution and by-laws, which was taken up and adopted section by section. It provided for the election of nine directors, as the executive body of the company, to be elected at the regular semi-annual meetings of the stockholders. The officers of the company, president, vice-president, secretary and treasurer, are to be elected by the directors, the first two from among themselves, but with the privilege of electing the treasurer and secretary from among the stockholders.

The meeting then proceeded with the election of directors, which resulted in the following named persons being elected: Jesse Edwards, Clarence Butt, F. H. Storey, B. C. Miles, F. A. Morris, George C. Sears, Moses Votaw, C. K. Spaulding and W. C. Kruger.

After the stockholders meeting adjourned the directors met and elected officers as follows: Jesse Edwards, president; W. C. Kruger, vice-president; F. A. Morris, secretary; Moses Votaw, treasurer. More capable or representative men could not have been chosen as directors of this important association and they can be depended on to look diligently after the interests of this community, along all lines of progress and development.
