Edwin Hatch received a telegram from Forest Grove Saturday bringing the intelligence, that on that morning his mother was found dead in bed at her home in the above named town. The circumstances surrounding Mrs. Hatch's death have so far proved a profound mystery. Later—the coroner's jury, after a long session behind closed doors brought in a verdict that Mrs. Hatch died of chronic heart disease.

F. X. McAtee of the Hotel Newberg reports quite an increase in the number of people inquiring for land since the beet sugar factory is almost an assured fact, and thinks the hotel business as every other business will gradually improve from this time on. For some time previous to his opening the hotel, the traveling men gave this town a wide berth on account of a lack of accommodations, but since Mr. McAtee yielded to the requests of both traveling and local business men and opened up in good style, the tide of "commercial immigration" is strongly in Newberg's favor, much to her advantage. The hotel also uses a great deal of home produce which would otherwise have to seek other markets. Mr. McAtee should receive the support and encouragement of the people, as the more the patronage, the better the house.

A follower of Measles—In many instances a persistent cough follows an attack of measles. In speaking of this Mr. Walter B. Beel, editor of the Elkin (N. C.) Times, says: "Three weeks ago I had an attack of measles which left me with a bad cough. I took several doses of Chamberlain's Cough Remedy and the cough has entirely disappeared. I consider Chamberlain's medicines the best on the market." For sale by C. F. Moore & Co., druggists.

Pres. Newlin received an interesting letter the other day from Edwin Hatch's father, Ex-senator Hatch, who is revenue officer at St. Michael, Alaska. He thinks the home of his present adoption is a dreary, lonesome one, and the fact that the letter was dated February 27, indicates the extent of removal from civilization. He says even a glimpse of civilization would be a much desired pleasure, and that the longing to "go below" is almost irresistible. He indicates that there are great money making opportunities there, but the sacrifice is too great. There are about two hundred laboring men employed there, almost all slaves, and all are bitterly dissatisfied. Mr. Hatch also says there are continual "stampedes" most of which are humbugs. On the whole the letter did not infuse into us any germs of the Cape Nome fever.

Two brothers, John Watson, of Albert Lea, and D. H. Watson, of Dodge Center, Minnesota, respectively, who are old acquaintances of Rev. Jos. Hall, spent a few days here the first of the week looking at the country. They are out looking for a location and indicated that they would probably return.

Solicitors for the acreage for the beet sugar factory have been appointed and are now at work. Wm. Manning takes the territory east of town and including the Middleton and Sherwood district. R. B. Linville north of town, Al Clark west and northwest, D. H. Turner the Dundee district, while H. Cooper has the territory across the river in Marion county. The success or failure of the undertaking is now largely in the hands of the farmers. If they want to secure a good thing when it is offered to them, now is their opportunity.

The much anticipated entertainment of the Junta Literary Society will be given in the college chapel to-morrow evening. This is the first year of the new societies' existence and this is its first public entertainment. It has a very worthy object, which is the starting of a fund with which to buy a piano for the college chapel, which has long been needed, hence a small admission fee of fifteen cents will be charged. The young society has some excellent material in it. A great deal of preparation has been made, and a good audience should be out to hear the young folks.

An Epidemic of Whooping Cough. Last winter during an epidemic of whooping cough my children contracted the disease having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for group and naturally turned to it at that time and found it relieved the cough and affected a complete cure.—John E. Clifford, proprietor Norwood House, Norwood, N. Y. This remedy is for sale by C. E. Moore & Co., druggists.

A Card. On Tuesday May 1st the stock holders of Union Mercantile Co. met in annual session for the purpose of re-organizing for the coming year. The same directors were elected as have served for past year and the executive officers chosen are F. A. Morris, president; L. D. McArdle, vice-president and M. Billings, secretary.

The company has had under advisement the subject of making a change in location and the lines of goods heretofore handled, and decided some time ago to transfer all their interests to Portland where we have had a store for past five months. It is simply a plain business proposition of doing business in the way to make the most dollars and cents and while we feel perfectly well satisfied with our share of trade which the good people of Newberg and vicinity have given us we are assured that our best interests will be advanced by making the above change.

We do not expect to move any of the goods now in the store but to change same into money right here—to do this we will name lower prices than have ever been made to push them out at once. This sale will not last long and first come first waited upon.

We would kindly ask those owing us bills large or small to call at store and settle.

Our new location will be 229 Morrison St., Portland, Or.
