The derangements of the female organism that breed all kinds of trouble and which ordinary practice does not cure, are the very things that give way promptly to Lydia E. Pinkham's Vegetable Compound.

Uterine and ovarian troubles, kidney troubles, ulcerations, tumors, unusual discharges, backaches and painful periods—these are the ills that hang on and wreck health and happiness and disposition.

Lydia E. Pinkham's Vegetable Compound

has a wonderful record of absolute cures of these troubles—a constant series of successes for thirty years. Thousands of women vouch for this. Their letters constantly appear in this paper.

## BRADSTREET'S REPORT.

Further subsidence of Demand and Prices. Bradstreet's says: A further subsidence of demand and leveling of prices is noted in several lines this week, this leveling being no doubt aided by the unsettling effect of the rather more than usually disturbed considerations in labor circles. Its net result is something approaching dullness in many channels of distribution, increased conservatism in the making of ventures and a disposition to digest business already arranged for before making new engagements. That the basic conditions of general business, such as the outlook for crops, the export demand and the increased purchasing power of the people at large, have not been much reduced, but, on the contrary, actually improved, seems evident from the advices received this week.

Business at wholesale is relatively quiet, which is not unusual at this period, but more than ordinarily marked attention is being concentrated upon retail demand, which is, of course, relied upon as a measure of progress of actual consumption.

Touching this public demand, it may be stated that relatively best reports come from the Pacific coast and from the Northwest.

Flour shipments this week are very large. Wheat, including flour, shipments for the week aggregate 4,537,022 bushels, against 3,863,863 bushels last week.

For the week failures number 153 in the United States, as compared with 182 last week.

Failures for April in the Dominion were fewer than in April a year ago, but liabilities were nearly 15 per cent heavier.

Another Fast Train. The Rio Grande Western Railway's "The Great Salt Lake Route," has resumed its fast train services to the East, making the run from Portland to Chicago in three days and a half. No layover is necessary, and only one change of cars is made. Those who desire it have the privilege, however, of a day-light stopover either at Salt Lake City or Denver. Three daily express trains are run, leaving Ogden, Utah, at 7:15 a. m., and 1:15 and 7 p. m. The morning train carries a through standard sleeper to Chicago, via the Burlington route, and the night train one via the Chicago, Rock Island & Pacific Railway. The tourist sleepers and chair cars run daily as formerly through from Portland to Denver. Twice a week tourist excursion cars are run through from Portland to Boston. All trips carry dining cars, making the train across the continent, via "The Great Salt Lake Route," most desirable. The Rio Grande Western Railway is the only road running through Salt Lake City, and with its connections—the Denver & Rio Grande and the Colorado Midland—takes the passenger through the famous Rocky mountain scenery of Colorado.

No Title for Thrones. Napoleon Bonaparte is quoted as saying to Dr. O'Meara at St. Helena: "If I was in England now, and the French nation was to offer me the throne again, I would not accept it, because if I was to do so I would be obliged to turn bourgeois (executioner). I would be obliged to cut off the heads of thousands to keep myself upon it, which would not be pleasant to me. Oceans of blood must be shed to keep me there. No, no; I have made enough of noise already in the world; perhaps more than any other man will make; perhaps too much. I am getting old, and only want retirement. What could I do in France? Alone, to set myself against all the powers of Europe. Madness!"—Century.

Electric flatirons are used exclusively in many large laundries; their advantages are apparent. The heat can always be controlled so as to keep the iron at the right temperature thus obviating the danger of spoiling a finished dress by smut from an iron heated by gas.

Poisonous snakes when with young are sluggish and retiring in their habits. The little ones are born with fangs and poison glands in full perfection, and are dangerous even before tasting food or water. The young are much more active than the adults and probably their poison is more virulent.

The injury to soil by flooding by a high tide is variously estimated to last from five to 20 years. A late investigation in Essex, England, showed that the soil was left with two per cent salt, mostly to the complete destruction of earthworms.

## How Much You Eat

Is not the question, but how much you digest, because food does good only when it is digested and assimilated, taken up by the blood and made into muscle, nerve, bone and tissue. Hood's Sarsaparilla restores to the stomach its powers of digestion. Then appetite is natural and healthy. Then dyspepsia is gone, and strength, elasticity and endurance return. "My mother had a very bad stomach trouble. She weighed only 111 pounds. After taking four bottles of Hood's Sarsaparilla she weighed 136 pounds. She took it again after the grip and one bottle got her up." Miss Ortiz McCook, 525 Lafayette Ave., Lebanon, Ind. Remember.

Decorations to Be Restored. The old question of restoring the traceries in the windows in the palace of the doges at Venice is again agitating artistic Italy. The exterior of the palace as it stands today was begun in the early part of the 13th century, and required 100 years for its completion. In 1577 fire destroyed all but the walls. Up to that time the windows were enriched with beautiful tracery.—N. Y. World.

How Polly Knew. A "befo'-de-war" matron was teaching one of the little darlings on her plantation how to spell. The primer she used was a pictorial one, and over each word was its accompanying picture, and Polly glibly spelled "o-x, o-x," and "b-o-x, b-o-x," etc. But the teacher thought she was making too rapid progress, so she put her hand over the picture and said: "Polly, what does o-x spell?" "Ox," answered Polly, nimbly. "How do you know that it spells ox, Polly?" "Seed his tail," replied the apt Polly.—Argonaut.

Fancy and Fact. Jane—When I was a girl I used to want to run away from home and be a stern and haughty governess to a lot of wild children who had a handsome brother. Matha—Is that so? "Yes; and now I can't even make my two-year-old infant mind a word I say."—Indianapolis Journal.

Suppressed Emotion. Sniff—Skopple's wife is the bravest and coolest person I ever saw. Shawe—Ah! She looks like a very ordinary woman. Sniff—I know it; but I visited there while her baby was cutting his first tooth. You may not believe it, but at the time nothing in that woman's conduct would lead anyone to suspect that anything unusual was going on!—Puck.

The Small-Minded Man. "Well," said the small minded man, "I have found out another woman's age." "How did you do it?" asked the listener. "Why, I asked her suddenly how many years it was since 1873." "But how did you find out her age?" "She figured it up by subtracting five from 32 before she thought."—Indianapolis Press.
