Charley Redmond, who got his "athletic" start here in Pacific college, has been elected as captain of the University of Oregon's track team and assistant manager of the 'Varsity foot ball eleven. Prof. Rollin Kirk's school near Carlton has closed, and Rollin has been visiting the county seat schools, and those of Dayton, with a view to pointers on his work next year as principal of the public school of Newberg.

Mr. Manning is one of the soliciting committee and says that they are meeting with good success. If everlasting rustling will establish a factory Newberg is sure to have one.—Transcript.

Some farmers say they think it will require a good deal of work to grow beets. Well don't it require work, and hard work, to carry on any kind of labor on a farm, and is it not a fact that our grain farmers have been doing lots of hard work, impoverishing their land and getting almost nothing in return. Beet growing and dairying absolutely promise better returns for the farmers around Newberg than anything else in sight. Dr. Andrew H. Diven, a former practitioner of Newport, Lincoln county, has been in town for several days canvassing for subscribers for a circulating library for which he is agent. He has secured eighteen names and the first installment of books has arrived, and been placed in the Willmette Valley telephone office, where the library will be under the care of Miss Lida Wilson. The books will be changed every three months.

Mrs. E. P. O'Brien, sister of Prof. J. H. and Miss Mellie Douglas, is here on leave of absence from the hospital service of the Philippines, and will visit with relatives until about the middle of July before returning to Manila. Her extended observation of the customs and life of the islands, has given her a knowledge of affairs in our new possessions, which makes her a very entertaining and instructive talker on the subject. Mrs. Mary Hampton, wife of Milton Hampton, died at her home on Meridian street on last Friday morning at eight o'clock. The deceased had been a sufferer from stomach trouble for two years and the end had been watched for by the family for several days. The funeral was held on Saturday evening at Friends church and was conducted by Rev. Levi D. Barr, the pastor. Mrs. Hampton was an earnest, devoted Christian woman and a loyal member of Friends church. In her death she leaves a husband, three daughters living in Newberg, Mrs. E. P. and Mrs. H. C. Dixon and Mrs. A. Clark respectively, a daughter, Mrs. T. W. Hester, living in Illinois, a daughter living in Iowa, and one son, Edgar Hampton, who lives in Seattle.

College President Elected. Immediately after President Newlin tendered his resignation, the board of managers of Pacific College set about to make a canvass among college men with a view of finding the right man to fill the vacancy, and the announcement is now made that Prof. H. E. McGrew, of Oskaloosa, Iowa, has been elected to the presidency of the college. After having made a careful investigation of Prof. McGrew's record and his qualifications for the position, he was elected on May 28, and on last Tuesday he wired his acceptance, saying he would be here in July. Prof. McGrew is thirty-five years of age, is married and has one child. He is a graduate of Penn College, has had several years experience in academic and college teaching in the state of Iowa, but for the past two years or more has been doing pastoral work, he being an ordained minister in the Friends church. He is a man of pleasing appearance, of good address, full of push, and just now in the vigor of young manhood with every promise of a bright, successful career before him. In the city of Oskaloosa he has had large experience in Y. M. C. A. work and he will no doubt be appreciated in college Y. M. C. A. circles in Oregon. On the whole the board feels that a happy choice has been made and all the friends of the college are earnestly requested to redouble their efforts to fill up the ranks of the students with an array of young men and young women at the opening of the college in September.

A. T. Hill Interviewed. In a conversation with A. T. Hill, of LaGrande, who has been in town this week, he said he could not understand why the farmers here were so slow to contract acreage for beet growing. The valley in which LaGrande is situated he said is more than thirty miles long and sixteen miles wide and the land throughout this whole valley has increased in value at least one-third since the beet sugar factory was located there. To the population of the city has been added two thousand people and more are rapidly coming in now. One tract of land near by on which beets are being grown could have been bought before the factory came for \$30 per acre. The owner now has an offer of \$150 per acre for 250 acres of this land, made by the owners of the beet sugar factory, and the offer has been refused because the owner of

the land is making big money growing beets on this particular piece of land. Ab says further that farmers in Chehalis valley who are refusing to contract acreage and giving as an excuse that they want to sell their land are simply foolish for not taking hold of a proposition that is absolutely sure to create a market for their land at increased prices. Men of this class can really better afford to give away a part of their land rather than see this golden opportunity go by. Mr. Hill is very enthusiastic over what the beet sugar factory has done for LaGrande and he feels sure that a plant established here will do fully as much for Newberg. A friend of his who is in business in town is growing beets and last year after hiring all the work done he cleared \$30 per acre. Farmers around LaGrande are prosperous, the city continues to grow and all kinds of business are very active. He thinks if the farmers fail to come up with the necessary amount of acreage to secure the factory at Newberg it will be the financial mistake of their lives.

Beet Sugar Contracts. The reports of the solicitors made to the board of directors Saturday evening shows new contracts taken up to that time as given below. The report, however, is not complete, as one of the solicitors did not get into the board meeting. His report will be included in that of next week.
