

KIDNEY TROUBLES OF WOMEN

Miss Frederick's Letters Show How She Relieved on Mrs. Pinkham and Was Cured.

"DEAR MRS. PINKHAM:—I have a yellow, muddy complexion, feel tired and have bearing down pains. Menstrues have not appeared for three months; sometimes am troubled with a white discharge. Also have kidney and bladder trouble.

I have been this way for a long time, and feel so miserable I thought I would write to you and see if you could do me any good."—Miss EDNA FREDERICK, Troy, Ohio, Aug. 6, 1899.

"DEAR MRS. PINKHAM:—I have used Lydia E. Pinkham's Vegetable Compound according to directions, and can say I have not felt so well for years as I do at present. Before taking your medicine a more miserable person you never saw. I could not eat or sleep, and did not care to talk with any one. Now I feel so well I cannot be grateful enough to you for what you have done for me."—Miss EDNA FREDERICK, Troy, Ohio, Sept. 10, 1899.

Backache Cured

"DEAR MRS. PINKHAM:—I write to thank you for the good Lydia E. Pinkham's Vegetable Compound has done me. It is the only medicine I have found that helped me. I doctored with one of the best physicians in the city of New York, but received no benefit. I had been ailing for about sixteen years, was so weak and nervous that I could hardly walk; had continued pain in my back and was troubled with leucorrhoea. Menstrues were irregular and painful. Words cannot express the benefit I have derived from the use of your medicine. I heartily recommend it to all suffering women."—Mrs. MARY BARSHINGER, Windsor, Pa.

Leaving No Sting

Our manner of doing a thing often counts for more than the thing itself. Some people have the gift of doing a gracious thing ungraciously. They seem to think it of small moment how they act, if they do the right thing. Their gifts are felt like a blow. Others refuse with a kindness that falls like a balm. The Italian who is asked for alms, unable to help, replies: "Pardon me, I am also a poor devil." That leaves no hurt, while the open hand of some others inflicts a sting. "God cares more for adverbs than for verbs," says an old writer. Do the right thing, but do it right, courteously, sympathetically.—S. S. Times.

Pro Bono Publico.

In all the history of modern warfare there have been no more picturesque sieges than those of the Anglo-Boer war which now seems about at an end. The picturesque side of the three famous sieges—Kimberley, Ladysmith and Mafeking—is brought out with telling effect by General Miles in an article contributed by him to this week's Collier's. Gen. Miles is a student of military science, who has also the faculty of presenting his subject in a popular and brilliant style.

A SENATOR'S LETTER.

Peruna as a Nerve and Catarrh Tonic the Talk of the World.

Hon. W. V. Sullivan, U. S. Senator from Mississippi. Hon. W. V. Sullivan, United States senator from Mississippi, in a letter recently written to Dr. Hartman from Oxford, Miss., says the following: "For some time I have been a sufferer from catarrh in its most incipient stage, so much so that I became alarmed as to my general health. But, hearing of Peruna as a good remedy, I gave it a fair trial and soon began to improve. Its effects were distinctly beneficial, removing the annoying symptoms, and was particularly good as a tonic. "I take pleasure in recommending your great national catarrh cure, Peruna, as the best I have ever tried." W. V. SULLIVAN."

Peruna cures catarrh wherever located. Peruna has no substitutes—no rival. Insist upon having Peruna. Address The Peruna Medicine Co., Columbus, O., for a free book on catarrh.

NEWS AND GOSSIP OF THE MINING WORLD

THE SLATE CREEK MINES

Eureka Group Sold to C. D. Lane of California.

Seattle, June 14.—News comes from Anaocotes that work will be resumed on a large scale on the Eureka group of mines in the Slate Creek mining camp, which now belong to C. D. Lane, a millionaire mining operator of California. The final transfer to Mr. Lane was effected in Anaocotes a few days ago. This is the property that some years ago was under bond to Colonel Hart for Montana parties. After spending upward of \$50,000 they allowed their bond to lapse, but the owners, having faith in their property, continued working it until about two years ago, when a bond was made to Mr. Lane. Almost ready for operation.

The property is nearly ready for operation. The tramway between the mine and the stamp mill must be finished. The mill has 10 stamps of 1,100 pounds each and is substantially constructed. The property has a saw and shingle mill and electric light plant. The stamp mill was completed last fall and found to work perfectly. It is the intention to put in a roasting furnace as soon as supplies can be shipped in this summer, to treat all ores on the ground, instead of shipping concentrates. People who know the property say that it will develop into a big mine.

TWO REPUBLIC MINES.

Active Work on the Quilp and on the Knob Hill.

Republic, June 14.—Work is active on the Quilp mine. The new machinery is giving satisfaction. Two drills are making about five feet per day. The compressed air hoist is working smoothly at the mine and good progress will now be made in getting out the ore for shipping. The shaft will be extended to the 300-foot level before cross cutting. The ledge encountered on this property has increased greater in width in proportion to depth obtained in sinking than any mine in the camp. In the tunnel it measured 26 feet, at the 50-foot level it was 50 feet wide, and at the 100-foot level it was between 90 and 100 feet in width. This is the largest body ore in the camp and it is hard and clean. At the 50-foot level there is 30 feet of ore that will average \$13 per ton. In the lower levels the values are higher somewhat. The new seven-drill compressor is in operation and the company will be in a position to ship 200 tons of ore a day for an indefinite period, if necessary. More men have been put to work stopping in the tunnel and each level. Thirty men are employed.

The survey has been completed for the steam tram to be constructed up the gulch, connecting the mines in the vicinity for shipping to the mills. The Quilp will furnish the new Republic mill with at least 100 tons a day. North of the Trade Road and east of the Ben Hur is the Knob Hill, a property supposed to be valuable. A cross cut tunnel has been extended in the hill 540 feet, where the ledge was struck, and the indications are now that they have a fine property. A shaft was sunk at the first where the vein was found in place and an average of values obtained of \$30 per ton at the 10-foot level. The tunnel level is 350 feet from the surface and there are now three feet of fine looking quartz that should run even higher than in the shaft. A drift north and south has been started on the ledge.

Good Washington Mine.

Spokane, June 14.—A contract has been let for sinking a 100-foot shaft on the Rebecca and running 125 feet of tunnel on the Rebecca extension. These claims are owned by Spokane and Cheney parties. About 500 tons of ore are already on the dump and it averages about \$45 to the ton. Some assays run as high as \$200, mostly copper. The Rebecca and Rebecca extension are located near the Columbia river, about 16 miles from Keller, Wash.

New Idaho Mining District.

Grangeville, Idaho, June 14.—A new mining district has been organized around Salmon river from this place, called the Crooks Corral district. The boundaries of the new district are as follows: Commencing at the head of Race creek, thence to Snake river, thence to the summit of the divide at the Larry Ott saddle (between Snake and Salmon rivers), thence along the divide to place of beginning.

Improving the Blue Jacket.

Cuprum, Idaho, June 14.—Hoisting machinery, pump and engine for the Blue Jacket mine have reached the property and will be rapidly installed. Several cars of ore are ready for hauling to the railroad for shipment to the Eastern smelter.

Gold Output This Year.

Nome—Probably \$15,000,000. Washington—Rough estimate, \$3,000,000. Klondike—Some say \$18,000,000. Others \$25,000,000. Oregon—Rapidly increasing and this year's output will reach close to \$5,000,000.

Klondike's Gold Output.

Victoria, B. C., June 14.—The first crowd of Klondikers this season arrived by the steamer Amur Saturday. They report that 200 miners have reached Skagway. Six steamers have passed up the river.

The gold output is estimated by Dawson papers at \$18,000,000. News is given of a stampede to the Koyukuk and to Sulphur creek, gravel being found in the old channel which goes 50 cents to the pan. A nugget weighing 77 ounces was found on Chee Chako.

Looking for Coal, Gas or Oil.

Port Angeles, Wash., June 14.—Arrangements have been completed by C. Van Sickle, of New York, to drill here for coal, gas or oil. He claims to represent Eastern capitalists who are willing to spend \$10,000 to determine whether coal or oil can be found in this vicinity.

More Pay for Coal Miners

Seattle, June 14.—Coal miners at Carbonado and Wilkeson mines, in this state, have been notified of a 10 per cent increase in wages. These mines employ 575 men.

WEEKLY TRADE REVIEW.

Wholesale Business of a Modest Character—Cereals Are Higher.

Bradstreet's says: New business at wholesale is of a between stations character, but warmer weather has offered a stimulus to retail business in some sections. Chief activity and most attention is, however, still concentrated on the price situation, and efforts to readjust quotations to meet current demand and supply conditions go forward steadily. The exception to the general downward trend of prices is that furnished by leading farm products, notably cereals, but here the moving cause is hardly so favorable, being the result of less satisfactory crop reports, particularly from the Northwest, and it is to be noted that advices from the Northwest, where the winter wheat yield promises to be very short, are also less favorable.

Corn crop advices remain favorable, as likewise do those of oats, but the grains and hog products have sympathized in the upward movement of wheat, which has at last broken from its lethargy and is again attracting speculative attention. Foreign crop advices, it might be added, are not flattering. The German rye crop promises to be very short; the same report comes regarding French wheat and English crop advices are not of the best.

Cotton is slightly weaker. Leather is dull and on the whole slightly weaker at Eastern markets. Mills engaged on women's wear-goods are fairly well employed. The outlook favors lower prices for the new spring weights. Surplus visible wheat supplies are decreasing rapidly, lending interest to current unfavorable crop reports.

An Exciting Run.

The following incident in Lord Wolseley's military career is recorded as having taken place when he was in his twenties, and had been in the British army three years. He speaks of it himself as the most exciting experience of his life. It was in Burma, and Wolseley was in charge of a small detachment. During the advance he had the bad luck to fall into a deep hole, and when he crawled out to find himself on the enemy's side. As he emerged he was met with such a shower of bullets that he slid back in short order. After a few minutes he came out again, and, amid a vigorous volley, ran for his life. He was nearly 300 yards from the British line, and was hit three times before he reached a place of safety.—Youth's Companion.

Wanted to Sell His Teeth.

The king of Bavaria was kept very short of money when he was a boy; in fact, the allowance for pocket money granted to him and his brother was only about two shillings a week. One day he heard some one say that sound teeth were salable, and off he went to a dentist and offered to have his own extracted for a monetary consideration. "I do not believe Pizzo's Cure for Consumption has an equal for coughs and colds,"—J. H. BOYER, Trinity Springs, Ind., Feb. 15, 1900.

No Salvation Army in Mexico.

The Salvation Army for the second time has failed to get a foothold in Mexico. Mexican laws forbid all religious processions in the streets of cities. Chicago tailors, who have been on strike for two months, have compromised and gone back to work.
