GIVEN HIS PASSPORTS

Russia Sends the Chinese Minister Home.

The Chinese Invasion of the Amur Province Is Equivalent to a Declaration of War Against Russia.

New York, July 21 .- A dispatch to the Journal and Advertiser from Lon-

The Chinese inavsion of the Amur province is equivalent to a declaration of war against Russia, which, construenvoy at St. Petersburg his passports today and requested him to leave the country, along with the members of his mission.

The importance of this Chinese declaration of war against Russia, and of this bold invasion of Russian territory, lies in the fact as the matter no stands, that it virtually releases the czar from his obligations to the foreign powers to act in concert with them in China. He is placed thereby in a position to act independently, not only with reference to the defense of his dominions against the Chinese invasion, but also as regards the carrying of war into the enemy's country and an eventual march upon Pekin.

Should a Russian army, proceeding from Siberia, reach Pekin and capture it before the allies could get to it from the Pacific coast, the czar would be the American authorities in Manila able to dictate terms to China independently of the other powers, and without any regard to their wishes, vir-

The British and German govern ments, alarmed at the idea of this eventuality, have today decided to abandon the policy which they have pursued until now and to declare wat hard by the little Anglican mission, upon the Chinese government, thus placing themselves in line with Russia expected to follow suit immediately.

France has, indeed, already issued, today, a decree forbidding the sale of arms or war material of any kind to the Chinese, while Germany has already prohibited the Chinese envoy at government except through the German all belongings, removed his boys from the schools and cancelled all his engagements, so as to be ready for im-

perial Chinese army, which has invaded Siberia with orders to drive all strangled slowly. Molten lead was five other corps, one of which is engaged in destroying the Russian ratifrom the northern porton of the empire; another is to occupy the roads beween Pekin and Sham Hai Kawn; yet another is to concentrate at Nanking, while columns are being directed in hot haste to Tien Tsin, to the bodrers of Corea and to the neighborhood of

AUTHOR OF IT ALL.

Li Hung Chang Looked Upon as Orig-

London, July 21 .- The Shanghai correspondent of the Daily Express says: "Intense indignation is felt here at the honors in Hong Kong that have been accorded to Li Hung Chang, who DIPLOMATIC RELATIONS SEVERED inator of the whole fiendish anti-foreign

"A Chinese merchant who has just arrived from Pekin gives horrible details of the massacre. He says he saw European women hauled into the street by shricking Boxers, who stripped them and hacked them to pleces. Their dissevered limbs were tossed to the crowd and carred off with howls of triumph. Some were already dead, haiving been shot by foreign civilians. He says he saw Chinese soldiers carrying the bodies of white children aloft on their spears while their companions shot at the bodies. He gives other details too horrible to be particularized

"It seems that the Boxer leaders had organized a plan, including the offering of rewards and rich loot, for the annihilation of Europeans throughout China, and that Prince Tuan's soldiers have been emphasizing the opportunity the soldiers have had of seizing the bodies of white women."

TORTURED BY BOXERS.

The Terrible Fate of One of the First

San Francisco, July 21 .- A Chronicle special from Victoria, B. C., says: Advices received from North China contain particulars of the awful torture inflicted on the Rev. H. V. Norman, who, with Rev. C. Robinson, was among the first of the American missionaries to become victims of the Boxers. A correspondent writing from who had arrived there gathered from Chinese ghastly details of the torture

inflicted on Norman. It seems that he fell into the hands of Li, the head man of a little town where he and Robinson had their headquarters. In a quarrel between Boxers and France, and the United States is and Christians, the converts had driven off the Boxers from the mission and Li

After his capture by the rioters, from whom Li took the captive, the Berlin from communicating with his missionary was stripped by the retinue of Li and a collar of iron fastened to foreign office, and is preparing to give his neck. A short chain was attached him his passports. Here in London, and he was tethered to a stake. The the Chinese minister has already packed Chinese men, women and children then poked sharp sticks into his flesh and sank down, weak with the loss of blood and half crazed by the awful torture, and was nuclear to a submediate departure.

In addition to the corps of the Imand half crazed by the awful torture,
and was unable to get upon his knees Amur province of the czar, there are he writhed in agony, he was stabbed to death. His body was cut to pieces.

Robnson, the other mssionary, was road in Manchuria and in driving all slaugthered without being so long in the foreigners, especially the Russians, agony. He was cut down by a mob and hacked to peces almost instantly. A number of the mission converts were slaughtered. Some were asked to re cant and those who did so to save their lives were saddled and bridled and forced to crawl to the temple idols.

THE HOT SPELL

estimated to have under arms at the Caused Seventy Deaths at New York

New York, July 20 .- The weather today caused or contributed toward the death of more than 70 permany more stricken ones are in the hospitals, and some of them will succumb before the night is over. More babies and little children, and the are now about 40 bodies of the little ones lying at the morgue at Bellevue. This was the third day of the spell of intense heat. Late tonight the temperature moderated. Early this mornthe hospitals were busy. On the towns and forts and inviting the latter streets the temperature ranged from 93 to open fire upon them, news may be to 105, and the official report from th was 94 deg. shortly before 5 o'clock

tonight. suicide made while the subject was crazed with the heat. Many little children are badly hurt by falls from fire escapes, on to which they had crawled for relief from the oppressive weather.

Transports Sail. ACCURATE SAMPLING

Considered Essential to Accurate Assaying.

A PRACTICAL MINER'S VIEWS

Protests Against the Use of Assay Cor tificates as Documentary Evidence.

"Accurate sampling is qute as essential as accurate assaying, for if the sample does not truly represent the lot, or mass, from which it was taken, the subsequent assays will be valueless. The assayer or chemist will usually receive the samples already prepared, but as he will occasionally be called upon to take his own sample a knowledge of the art of sampling is essen-

In the Northwest a majority of the samples brought to an assayer are taken by the prospector, or other interested party, and as the assay certificates are often used as the documentary evdence of the value of the property, the assayer should be very careful to state on the face of such certficates exactly from whence he obtained the sample on which the assay was made. If an assayer samples the ore him-

self, he owes it to his client so to state, as it doubles the value of the certificate. If he did not take the sample himself he should place the responsi-bility of the sample where it belongs, by stating who did take it. Without some one known vouching for the ore of the sample, assay certificates should carry no weight as documents. This can best be accomplished by the astually establishing himself as master Tien Tsin on July 7, says some refugees tificate blank is worded to cover the desired points, telling the whole story and protecting him from any after talk.

I must protest, also, against the habit of certain assayers in filling in the value of the ore on the assay certifi- this section of the country has demandcate, as they do, at the price of the ed all the improvements of latter-day ance on the part of the assayer as to the value of the ore here, and often ticular. Not only are the wishesof vowed vengeance. This he took in a horrible manner when Norman was thrown into his hands.

After his capture by the rioters have seen, this summer, assay certificates upon which the copper of 5 per cent ore was figured out at 18 cents. equal to \$18 per ton, whereas no smelter could afford to pay more than about

one-third that price. A good practical rule to use in figuring out approximate values of a sul-

copper the ore contains. Allow 40 cents for every per cent of

Allow 50 cents for every Allow \$20 for every the ore conatins. These values are for ore delivered on

the line of railway. The prospector has to sample his own claim and wishes to know the ruth. Naturally, I ask how he is to do it, and the following remarks are for his benefit, not for the professional: In sampling a lead, if the vein is so that it will all have to go for treat-

ment, a section of uniform thickness right across the whole face of the lead hould be taken for ore samples. Another, and quite as satisfactory ethod, is to sample all the rock that comes out of the prospect, or sample the dump, if there is any, by cutting

channels through it on the same principle as in sampling a ledge. ampling that there is liable to be a great difference between the dump and the fine ore, and consequently a due regard must be had to getting the proper proportion of each.

Hand-picked samples are never relible, and should always be avoided. Experienced mining men frequently take hand samples of particular classe of the ore in a mine, have these assayed and often from these results they estimate what grade of ore they are mining. This may be correctly done, and it is wonderful how close to correct assays experienced men can "guess; but it is uncertain at the best, and dangerous for inexperenced persons to attempt to be guided by such estim-

Assays cannot be averaged, un one knows the actual weight of the material represented by each assay, and only then by a long calculation, too long to describe here, except briefly. In nine cases out of ten when the 'average assay of a mine" is spoken of, it is incorrect and is usually obtained by adding up a number of separate asbers of such assays. It s quite correct to take an average sample, have that assayed, and call it the average assay; but this is seldom done. The correct average assay may be obtained by multiplying the weight of each lot of the product of such multiplication and divide this sum by the sum of the weights of the various lots of the ore. The quotient of such division will be 'the only correct average assay'' obtain-

spanese Government Gives Its Cheer

Washington, July 23.—As was anticipated, the Japanese government has given its cheerful assent to the application of the United States government for permission to land troops and military supplies at Nagasaki in transit t Taku, China. This privilege was de-sired in order that the Pacific transports plying between San Francisco and Manila should not deviate from the regular route, but that the troops and stock carried by them and intended for service in China might be transferred at Nagasaki to other vessels of the transport service and taken direct to Taku. The Japanese authorities not only have agreed to the proposed use of Nagasaki, but they also have assured the United States government that they will facilitate the movement of Ameri-can troops and supplies as much as possible. The quartermaster's department of the army has provided three large transports of the Philippine service for use on the line between Nagasaki and Taku, and it is expected in this way to expedite the movement of troops to China.

The state department has issued the following bulletin: "The secretary of state received this

morning a dispatch from Consul Fowler at Che Foo, dated midnight, July 19, saying a Shanghai paper of the 16th said all foreigners were murdered. Fowler wired the governor demanding the truth. The governor replied that his courier left Pekin on the 11th, and all then were safe, but Pekin, east city, had been carried by the rebels, with the intent to kill."

IMPROVED TOURIST SLEEPERS

of Middle Classes.

In response to the demands of the times the O. R. & N. and its connections are placing in operation a much better grade of tourist sleepers for Pacific Coast service than at any previous time. The largely increased traffic to metal in marketable shape delivered in transportation, and in consideration of New York. It shows a gross ignor- this the railroads are establishing a service which is excellent in every parsplendidly cared for. There was a time when a tourist sleeper appealed to a limited number of people who were traveling on the "cheap" order, in every meaning of the term. Now. however, there has been a radical change. With the better tourist sleepers in operation the class of passengers has been improved, and one may now

greatly reduced rate. Daily, on the O. R. & N. east-bound late to give an order. exact counterpart of the first-class

sleepers. One noticeable feature of the new tourist cars is the absence of a smoking apartment. The new cars being built y the Pullman Company are not pro vided with smoking apartments. This new departure has been taken because of the fact that most through trains are provided with composite cars, which provide a smoker for the sleep-

ing car passengers.

Spokane, Wash., July 23 .- Fire this afternoon destroyed the large lumber plant of the Holland-Horr Mill Company and caused a loss of \$50,000; in surance, \$13,000. It also destroyed the Crescent shingle mill; loss, \$2,000; insurance, \$1,000. A spark from the engine of the Holland-Horr mill was carried into a dust bin. The dust exploded and in a minute flames were sweeping through the mill. Two workmen were knocked down by the explosion and burned about the face and hands. In an incredibly brief period vards and soon acres of seasoned lumper were aflame. It was the hottest inflagration since the great fire of

SHIP CUT IN TWAIN

Cunard Liner Campania Collided With a Bark.

THE SAILER SANK IMMEDIATELY

of Her Crew Were Drowned-Damaged.

London, July 24 .- A dense fog hung ever the Irish channel yesterday morn ing, and the Cunard line steamer Campania, en route from New York for Embleton, bound for New Zealand, amidships, cutting her in twain. The Embleton sank immediately. Seven of the crew were rescued, but it is be lieved the other 11 members of the ship's company, including the captain, were drowned. The Campania had her bows stove in, but arrived safely at Liverpool, five and a half hours late.

The Campania had a parrow escape rom serious disaster. The fog had delayed her passage since Friday noon, and a tender went out from Queenstown four miles, as Captain Walker would not take the liner near shore. At Tuskar light, the fog was becoming denser every moment. When the Campania was about 30 miles northeast of the light a phantom ship rose suddenly. without warning, directly across her bows. Thirty seconds later the phan-tom had become a solid sailing vessel, into which the liner crashed, her steel forefoot going through the Embleton like the clean cut of a sword, and dividing her just abaft the mainmast. The forward half sank instantly. The stern swung viciously round, and the mast and yards for a moment tore at the Campania. A lump of wreckage came down on her decks. Then the stern of the bark also disappeared, and the face of the sea was littered with splintered timbers, boxes, barrels, the upper works and lighter cargo, the deck houses and such things. Then there

was nothing. From the instant when the phantom came into view from the bridge of the Campania until the last vestige of the vessel vanished some 60 or 80 seconds had elapsed.

According to the Embleton's survivors, for nearly half an hour before the collision, the captain and first officer were below at breakfast, and, although the fog whistle of a large steamer could be heard every minute, the bark never shifted her course, the helmsman re-ceiving no order. When, at 8:25 A. has been improved, and one may now M., the second officer, to use his own travel upon them and enjoy all the phrase, "heard the ruch of a steamer's privileges of a first-class sleeper at a bows," he shouted down to the captain, who rushed on deck, but he was too

latest improved tourist sleepers, a steam. The captain, first officer and model of beauty and hansome appoint-ments. The new cars are almost an were instantly reversed, and the belm put hard down. No precaution was omitted. Some of her passengers h even grambled at what they called superfluous caution. After the crash and the sudden cries, the boats were quickly gotten out. There were no signs of panic; the crew was everywhere at their scations; the bulkhe

were closed and everything possible Some of the Campania's plates were ent by the collision; her forepeak filled with water; her foretopmast was broken short of and her steel rigging

torn and twisted. The passengers held a meeting, adopted resolutions of thanks to the captain and crew, and subscribed £700 for the relief of the survivors and the families of the lost.

Eighth Infantry for China.

New York, July 24.—Two com-panies of the Eighth United States infantry moved off the transport McClellan this afternoon and started for For-Snelling, Minn. Other members of the regiment are en route from Cubs, and, after the recruiting of the organization to its full limit, it will be sent to China. The men have been in Cuba 18 months, but they looked to be in 89. Three firemen were overcome fine condition. About 2,500 persons y the intenes heat and smoke, but 10- were at the docks to meet the soldiers. and the Young Men's Christian Association proivded coffee and other refreshents. The other eight companies of the regiment were delayed by a storm

> Cleared the Track and Saved Lives. Three Lakes, Wis., July 24 .- A laborer early to day removed a pile of ties from the Northwestern tracks, that had been placed there during the night, just in time to prevent the passenger train due here at 4:30 A. M., trom striking them. He also removed a number of rocks from a bridge a short distance away. His actions probably saved the lives of 30 members of a local club, who were on the train.

Engalfed in a Lava Flow. Yokohmaa, Jujly 23 .- Mount Azu adjacent districts.
