So far, prospects seem very encouraging for a good attendance at Pacific college next year. Seth Mills reports many prospective students from about Scotts Mills, Rosedale and Marion, where he was last week, and the number of calls for catalogues here indicates that the home attendance will also be large.

We are in receipt of a regular Sunday leaset or calendar of the First Congregational church of San Jose, California, at the top of which appears "Rev. Geo. T. Tolson, acting pastor" with study and office hours following. We are glad to see the ability of a Pacific College boy so soon receive worthy recognition.

On Monday evening the Telegram in a piece headed "Portland Boy in a Filipino Ambuscade" told of the narrow escape of Walter Stratton, well known in Newberg, who is a government teamster in the Philippine Islands. He was driving one of the two escort wagons which was bringing back to headquarters a regimental band which had been away assisting in decoration exercises. Just about sunset they came into a Filipino ambuscade and in the sharp noise which followed three Americans were killed. Walter wrote "My wagon was filled with bullet holes. One of my wheel wheels was shot down in the harness while I was still on the wagon. The bullets came too thick for me and I tell you it was no laughing matter." When he wrote he was just out of the hospital after a case of malarial fever and intended to start home on the steamer leaving the first of next month.

President Newlin delivered his farewell sermon in Newberg on the evening of the 8th, from the text, "Why seek ye the living among the dead." This is a very suggestive text for a man who is going away, but it certainly cannot apply to Newberg, with the prospect of a beet sugar factory.—Reporter.

All who intend engaging in sugar beet culture next year would do well to send their boys to find employment in the beet fields at LaGrande this summer. Boys can do the necessary labor of hoeing and weeding, and the knowledge of such work would not come amiss. Lack of such knowledge handicapped the beet growers of Union county the first year of their experience in beet growing.—Reporter.
Sam Cummings, from near McMinnville, drove down here Tuesday for a load of brick to be used in building a furnace for a fruit dryer. Along last spring when prospects looked decidedly dubious for a fruit crop he took the risk and rented an orchard between McMinnville and Carlton, and now finds that he will have about fifteen hundred bushels of prunes. He is now preparing to take care of his crop by building an evaporator.

G. M. Perkins of LaFayette has in his possession the ball which was used in the first match game of base ball ever played in this county. The game was a return match between Oregon City and LaFayette, Ed Fellows a former citizen of this place being the pitcher for Oregon City. This was before the day of curves and shoots, and the ball was pitched instead of being thrown, and resulted in a victory for LaFayette; the score being 40 to 18. The LaFayette nine was: J. J. Hembree c; J. A. Huston p; F. Ewing ss; I. N. Hembree 1b; C. T. Belcher 2b; R. P. Bird 3b; P. P. Gates lf; J. W. Baker cf; M. Martin rf.—Telephone-Register.

President McGrew Arrives.

Prof. H. E. McGrew, the new president of Pacific College, arrived here from Iowa on Friday evening of last week and has been putting in the time getting acquainted with the people and making preparations for the work before him. On Sunday morning he preached an excellent sermon at Friends church which was well received at the time and many words of commendation have been spoken of the discourse during the week. President McGrew is a new man to the people of Newberg, he never having met but very few of our people previous to his coming, but he is making a very favorable impression and the opinion prevails that the right man has been selected to succeed President Newlin. Mrs. McGrew and little daughter are visiting with relatives at Boise, Idaho, but will come on in a few days.

"In His Own Country."
Rev. H. E. McGrew and wife spent Sunday with the former's mother in LaGrande, returning here Tuesday evening on the mixed train. The members of his congregation had prepared a farewell social for him in the church on that evening and it was largely attended. Quite a neat purse of money was raised there and presented to Rev. McGrew as a parting testimonial of their love and good will.
On Wednesday morning Rev. and Mrs. McGrew took the flyer for their new home in Newberg, Oregon, and about half the people in town were down to the train to bid them farewell. We were sorry to see them go, but wish them success in their new field of labor. And in saying this we but voice the sentiment of the community. No one in Earham has more friends than Rev. McGrew, and he deserves them all. He was an earnest worker, and the imprint of his presence here will remain for many years. In all that he undertook and in all that he accomplished he was ably seconded by his faithful wife.—Earham, Iowa, Echo.

A Yamhiller Home from Cape Nome.
Thos. H. Rogers is at home from Nome again, and from his talk can appreciate fully the words "There's no place like home." He arrived by Monday evening's train, and was warmly welcomed by his many friends, a salute of 37 guns (firecrackers) being fired in his honor. Two months ago he left with other parties, full of hope expecting to come back in the fall loaded down with the precious metal. He has been out about \$500 and has dust in a cartridge shell aggregating 75 cents. Besides being out \$499.25 he has lost 25 pounds in flesh and 90 cents worth of skin off the left side of his face by being thrown around the side of the vessel in a rough sea. He reported all of the Yamhill boys in the best of health when he left, and says that most of them will be at home again as soon as they shall have made enough to pay their transportation down. According to Mr. Rogers' idea, Nome falls far short of the place it was being represented. He was ashore fifteen days, eight of which he spent in prospecting. Three of them, with the aid of a rocker took out 90 cents in 1 1/2 days, which was unsatisfactory, and he quit. There is very little gold on the beach and but few good claims. Everything was "way up" in price, though they were undergoing a gradual decline—wages with other things. Morals are thrown to the wind and a person of sensitive nature is shocked at every turn. The transportation companies have the drop on those up there, having put the fare up to \$125 and \$150, which will work a hardship on many. Tommy is mighty glad to get home, and we are pleased to see him.—Transcript.

A Card to the Public.
During my mother's illness I took pills off some cows and take this method to let the owners know where to find them. I want to say that if people only knew what sick and nervous people suffer from the changing of the cow bells, the last one would soon disappear, for I think there are few, if any, families in Newberg who desire to annoy their neighbors. After suffering for five months from this nuisance (and this is not the first time) we feel that as a family, we have a right to express an opinion on the subject. H. M. WILLIAMS.
