Clara Kopp Wrote for Mrs. Pinkham's Advice and Tells what it did for Her.

"DEAR MRS. PINKHAM—I have seen so many letters from ladies who were cured by Lydia E. Pinkham's remedies that I thought I would ask your advice in regard to my condition.

I have been doctoring for four years and have taken different patent medicines, but received very little benefit. I am troubled with backache, in fact my whole body aches, stomach feels sore, by spells get short of breath and am very nervous. Menstruation is very irregular with severe bearing down pains, cramps and backache. I hope to hear from you at once."

CLARA KOPP, Rockport, Ind., Sept. 27, 1898.

"I think it is my duty to write a letter to you in regard to what Lydia E. Pinkham's Vegetable Compound did for me. I wrote you some time ago, describing my symptoms and asking your advice, which you very kindly gave. I am now healthy and cannot begin to praise your remedy enough. I would say to all suffering women, 'Take Mrs. Pinkham's advice, for a woman best understands a woman's sufferings, and Mrs. Pinkham, from her vast experience in treating female ills, can give you advice that you can get from no other source.'"

The ordnance received the name Swamp Angel from its peculiar location.

MINES AND MINING

Americans Are Not Satisfied With the Alaska-Canadian Survey—Loss Good Territory.

Skagway, Alaska, July 30.—The work of delimiting the provisional boundary in the disputed Alaska-Canadian territory having been completed in that part crossing the Dalton trail and touching the Porcupine district, the Americans in the district find that they have lost a large part of what they believed was rightfully American territory. The survey has been run and the monuments set within the last few weeks by O. H. Tittman, of Washington, D. C., and W. F. King, of Ottawa, and assistants, who have simply followed instructions as set forth in the modus vivendi agreed to provisionally some months ago by Secretary Hay, on the part of the United States, and the British representatives, after the adjournment of the joint high commission.

The survey and demarcation of the line leaves nearly one-half of the Porcupine gold mines in the British territory, and it has been the general opinion for a long time that the mines—in fact, the entire Porcupine district—was on the American side. Much of the Dalton trail road leading to Porcupine city now lies within Canadian territory also; that is, is on the Canadian side of the iron monuments set on the provisional line.

The American miners in the Porcupine having watched the development of the work of delimiting and marking the boundary, were so aroused over the result of so much mining district being left on the British side that they were not long in addressing a protest to President McKinley. Copies of the protest have been sent to the chambers of commerce of Seattle, Skagway, San Francisco and Portland, with a request for co-operation.

The commission will be in the vicinity of Skagway a month, delimiting the provisional line on White Pass and Chilkoot Pass. The Porcupine placer mine, it is estimated, will yield \$250,000 this year. Work of sluicing, hydraulic and other kinds of mining is carried on in the district.

Placer Mine Excitement. Juneau has a full fledged placer mine excitement, according to advices brought from the north by the steamer Rosalie. When the vessel sailed from the north July 18, a stampede was on to a new placer diggings on Glacier bay, about 150 miles distant. Some doubt existed as to the placers really being new discoveries. Not a few believe they had been the diggings found and operated many years ago by the Russians. In any event the finds are most promising. It is claimed for them that an experienced miner can make considerably more than wages. Fully 200 people, it is estimated, had gone from Juneau alone to the scene of the new diggings. The bars in the mouth of Glacier bay all are said to contain gold.

Advices From Nome. Advices from Nome received by the Alaska Commercial Company at San Francisco state that up to July 19 there had been 19 cases of smallpox in the camp, only one being reported since July 5. St. Michael has established a strict quarantine against Nome.

According to the records of the custom-house, 114 vessels have entered Nome and 13,437 passengers have landed, not including those who came down the Yukon river, nor those who landed from vessels which did not report to the customs officers.

It is estimated that from 6,000 to 10,000 persons will winter at Nome.

Little Mines Picking Up. The Phoenix mine in Greenwood Gulch, one-half mile above the Golden Eagle, and opposite the Don Juan, near Sumpster, Or., is being operated by C. N. Chatham and William Sanders, who have a two years' lease from the owners, C. M. Berry, D. L. Choate, L. M. Barnett and C. M. Collier. The mine has been idle for nearly four years, and the 5-stamp mill and concentrator put in by O. B. Hardy are a wreck. The mill was run only a short time, owing to bad management, and though the property could have been sold for \$75,000, it was allowed to stand idle, the owners failing to agree on the method of operating. There is several hundred feet of tunnels, but these will not be used, the new operators preferring to sink and follow the ore. The ore is of two grades, one carrying black oxide of copper and the other running well in free gold.

"Rattlesnake" Jones is the name of a Boise man who engages in capturing the reptiles and sending them to the Chinese. The Celestials take each rattlesnake and put it into a bottle of whisky and let it stand for two years. What remains of the snake is then removed and the balance is left stand until it clarifies, which process requires five years. The liquid is then a sovereign cure for rheumatism, says the Boise Statesman. The Chinese claim that it will cure the most violent case. It takes seven years in all to make the preparation ready for use.

KEYNOTE OF THE TRADE.

The Improved Crop Conditions are the Great Factors.

Bradstreet's says: improved crop conditions furnish the keynote of the trade and price movement. As a result of them nearly all staple agricultural products are lower in price, and at the same time a perceptible livening up of demand for fall delivery is noted in the West, Northwest and South. The beginning of fall trade is consequently more clearly visible in the sections mentioned, while at the East the markets are slow to experience this improvement and are consequently reasonably dull. Bank clearings as yet fail to reflect any perceptible improvement in distribution, and railway earnings, though of large volume, are, owing to comparisons being made with exceptionally good results last year, showing less notable increases both in gross and net returns.

Hog products have gone lower with corn, as has also wheat, in which continued liquidation has been noted, with the result of inducing partial returns of the export inquiry banished from the markets by the recent heavy rise.

Iron and steel prices are evidently scraping the bottom, if reports from leading centers of cost of raw material and wages are correct. Soft coal is going abroad too, a cargo leaving for London shortly.

Tin is cornered locally and higher on the week, while copper is finer. An encouraging feature of the wool market is the rather better inquiry for wool at Boston, but manufacturing will not apparently do much until the light weight season opens.

Wheat, including flour shipments, for the week, aggregate 3,029,311 bushels against 2,829,910 bushels last week. Business failures for the week number 202 against 221 last week.

Canadian failures for the week number 26 as compared with 19 in this week a year ago.

LITERARY LITTLEBITS

Joshua Flynt, the well-known explorer of trap life, has collaborated with Alfred Hodder in the preparation of a book entitled "The Under World."

Paola Lombroso, who has just published a book on the "Problem of Happiness," is a daughter of Prof. Lombroso, the criminal anthropologist. Miss Lombroso disagrees entirely with the views of her father.

Andrew Lang asserts that novels are almost if not altogether the only form of literature that is remunerative now; nevertheless, he thinks that a new Froude, Macaulay or Tennyson would even now find readers.

Albert White Verse, the new editor of the transformed Criticism, has written several stories of Arctic life and adventure, some of which will soon appear in book form, under the title of "The Laughter of the Sphinx."

Anne E. Holdsworth, who makes a specialty of pathetic and tragic stories, has depicted invalid life in the German Alps, in a novel called "The Valley of the Great Shadow." It follows the motif of "Ships that Pass in the Night."

It is reported that an American paper once contained this announcement: "Mr. Browning has declined to furnish us with a poem in exchange for a thousand dollars. We find ourselves more than ever unable to understand Mr. Browning."

Herbert Spencer has completed his autobiography, but it is not to be published until after his death. It is probably not all serious and philosophical, for among the author's possessions is an excellent sense of humor, and he tells a good story and loves to hear one.

Among the autograph manuscripts to be disposed of in the forthcoming sale of the Peel library are four pages from Dr. Johnson's memorandum book, containing prayers, meditations and resolutions. "My resolutions are: To conquer scruples. To read the Bible this year. To try and rise more early. To study divinity. To live methodically. To oppose idleness. To frequent divine worship."

Inability of the attesting witnesses to a will to remember the facts stated in the attestation clause is held, in re Thompson (Ill.) 45 L. R. 682, to be insufficient to prevent the probate of the will, if the signatures of testator and the witnesses are proved and there is nothing to disprove the recitals in the attestation clause.

Right of the legislature to authorize taxation for the purpose of making gifts or paying gratuities to private individuals is denied in Bush vs. board of supervisors of Orange County (N. Y.), 45 L. R. A. 656, in case of an attempt to raise money by taxation to be paid to drafted men for services in the civil war or for commutation money paid by them.

A subcontractor who has agreed with the contractor to carry mails in accordance with a contract between the United States and the contractor, in which the latter assumes liability to any person aggrieved by his default, is held, in Lawton vs. Chilton (Wis.), 45 L. R. A. 616, to have no liability upon the contract to a postal employe for personal injuries caused by the subcontractor's negligence, though a liability in tort may exist.

Extent of the territorial limits of a municipality being a matter of legislative discretion which is not subject to judicial revision, it is held, in Kimball vs. Grantsville City (Utah), 45 L. R. A. 628, overruling a prior decision, that the collection of taxes on property within the city limits cannot be restrained on the ground that the property was outside the range of municipal benefits and therefore not subject to municipal taxation.

Served Him Right. He carefully prepared the small garden plot, while his wife, deeply interested in his labor, stood watching him. After he had put in the seeds and smoothed over the bed, his wife took his arm to accompany him to the house, and on the way she asked: "When will the seeds come up, John?"

Laying his hand caressingly on her shoulder, the smart man said: "I don't expect them to come up at all, my dear."

"You don't?" she exclaimed. "Then why have you gone to all that trouble?"

With a smile that springs from superior knowledge, he answered: "The seeds won't come up, but the plants and flowers will, by and by."

Yet he was wrong; for his neighbor's hens got into his garden, and the seeds did come up—Collier's Weekly.

Passing of the Old Maid. The old maid of the past—sour, scandal-loving, sharp of temper and of features—is now almost an unknown quantity. The unmarried woman of today who has passed her twenties is cheery, active, busy, and useful. Generally she is in business or has some special art, profession or accomplishment to which she devotes herself. Anyway, she is not idle. She finds many things to employ her hands and brains. She has little time for gossip and less inclination. Culture and occupation have broadened her nature and given her charity and wisdom.—Macon Telegraph.

A Gift Witness. A female witness, possessed of a rich brogue, was on the stand in Judge Donovan's court the other day. Her tongue moved so rapidly in the narration of her story that her words were quite unintelligible. Finally the court interrupted: "Hold on! Not so fast! Not so fast! This man [pointing to the court stenographer] can write about 300 words a minute, but you are going at the rate of 400. Give him a chance to catch up."

"Arrah, why don't you get a good man, Judge? What does yez kape a slow skate fur, at all?" was the ready retort.—Detroit Free Press.

The Fitness of Things.

"See, the sheriff is asleep," said the first convict. "Let us jump from the train."

"No, we cannot jump now," objected the second convict. "The train is not yet running 60 miles an hour."

This shows that even the criminal classes read the newspapers, and have an idea of the propriety of conforming to conventionalities.

God Is There. Try to realize God's presence; the realizing it ever so little has a wonderfully soothing and calming influence on the heart. Say secretly: "The Lord is in His holy temple (His temple of the inner man); keep silence, O my heart, before Him." The mind wants steady many times a day.

World to End This Year. This is the recent decision of one of the societies of the world, and while there are few people who believe this prediction, there are thousands of others who not only believe, but know that Hostetter's Stomach Bitters will cure dyspepsia, indigestion, constipation or liver and kidney troubles. A trial will certainly convince.

No More Cannon Ball Pills. Science has retired the pill. A toothsome, fragrant, medicated tablet fits the need of the modern—Cascarets Candy Cathartic. Druggists, 10c, 25c, 50c.

"And now, children," said the teacher, who had been talking about the utility of fortifications, "can any of you tell me what is a buttress?" "Please, ma'am," cried little Willie, snapping his fingers, "it's a nanny goat!"

The recent fad for perfumed beds has gained great popularity. The perfuming is managed by spreading a cotton pad, thoroughly saturated, beneath the lower sheet. By this one's bed can be made to seem stuffed with roses or violets.

"So there," said Mrs. Henpeck, concluding her remarks, "A word to the wise is sufficient." "Yes, my dear," replied Henpeck, "and to the average married man a word in edge-wise is sufficient."

"Gracious! That's a disreputable looking umbrella you are carrying." "Yes; if I were Marky I'd be ashamed to own such a thing." "O! It's his, eh?" "Yes, I borrowed it from him about a year ago."

"No, he hasn't proposed yet!" sighed Genevieve. We suggested that the fellow doubtless knew when he was well off. "No, I suspect the trouble is he doesn't know when I'm well off; the way papa is plunging into pork!" said the beautiful girl, with a sad smile. Ah, love was indeed a great mystery.

Magnetic Character. While there is any iron of true manliness in the soul of man, he must feel the magnetic attraction of the character of Jesus. But let that true metal be eaten out by the corroding acids of worldliness, or rusted out by the acids of careless self-indulgence, and there will be a power of response in the poor clay of man's completed earthenness. Therefore it is that Christ takes the hammer and the fire that we may be rid of the clay, not robbed of the iron, and, putting His own power in us, would make us in our measure magnets like himself.
