Mrs. L. L. Votaw and boys and Miss Louise Cutts returned home Tuesday evening from their outing at Seaside.

Marvin and Callie Blair are out at Henry Austins ranch in Tillamook County this week on a fishing expedition.

The Christian Endeavorers were very successful with their ice cream supper Tuesday evening, clearing eighteen or twenty dollars.

Mr. and Mrs. E. H. Woodward and son Herman left Saturday morning for a short outing at Seaside returning Tuesday evening.

A. P. Oliver has been having the harness shop opposite the postoffice painted a healthy red. Roe Ramsey is applying the brush.

After an extended period of faithful service, Woodard Charles has quit the Graphic office and is now ranching out north of town with his brother Luther.

Mrs. William Park and two children of Portland visited in town over Sunday with T. B. Cummings' family with whom they used to be good friends in Newton, Kansas.

Wm. Hendershott of Portland was in town last Friday, feeling the pulse of the hop growers hereabout. A good hop crop never fails to bring Wm.'s genial face around.

Ira Wakefield has purchased the E. Houck property in the southwest part of town and will move to it in a few days. Mr. and Mrs. Houck will move to Portland, we understand, to live with their daughter.

Pres. McGrew and C. J. Edwards drove over to Scotts Mills last week and attended Friends Quarterly Meeting over Sunday. They went on a trip up into the big timber Monday and returned home Tuesday.

Rollin and Carrol Kirk have rented the Marriage property, across the street from Dr. Clara Davidson's, for their home in town this winter. The house is to be painted up, re-papered, thoroughly overgone, until it will look like a new place.

More inquiries have been made for College catalogues this year than ever before, and if this is any indication the attendance this year will be good. Young people in this community have unusual educational opportunities, and many who are not interested sufficiently to take advantage of them are not aware of the serious handicap which they are placing against themselves. If they are not careful the realization will come too late.

A gentleman from Eastern Oregon who was down here a few days ago, says that part of the state is strong for McKinley. The great difference in the price of wool between the Cleveland and McKinley administrations has opened the eyes of the sheep raisers, and he says that many old Missourians, who have never voted anything but the democratic ticket in their whole lives, will cast their first republican vote for McKinley. They have no trouble in determining the paramount issue.

Arthur Holson came down from Hepper last week where he had been teaching for some time and raising sheep on the side. He says he went to see the Minor herd of short horns, of which N. C. Maris has charge, and says it is in fine condition. He spoke especially of the \$1700 cow lately imported from the East, and says she is a beauty, being far ahead of her best photographs. This aristocratic animal, along with the rest of the herd will be down to the state fair next month and will come up against the famous Lyall cattle.

A Springbrook crowd of Coasters which got in last week, has something of a fish story to tell on the slightest provocation. Justin Haworth was fishing one day, and hooked a big gamey fellow who managed to break the line and get away with it. Two days after, Axim Newby and L. M. Carey were fishing near the same place, and after a long and exciting struggle, finally succeeded in landing a fifteen pound cat-fish. When they cut him open for practical use, they found the identical line lost by Mr. Haworth, together with a peculiarly disabled crab which one of the party had caught and thrown back two days before. Stranger things have happened, but this is the best fish story reported this season thus far.

Moore's dandruff cure or no pay. Fresh vegetables at Wilson's grocery. Moore's corn remover or your money back.

The best of fresh and salt meats the market affords will be found at the Newberg Meat Market. The highest prices paid for butcher's stock. Mrs. Elsie Peters and children arrived here last Friday evening from Mapleton, Minnesota, and are at Mrs. Peters' parents, Mr. and Mrs. J. C. McCreas.

With a clubbing rate of only \$2 a year for the Graphic and the Oregonian you get all the news, both local and general, at a very low figure. Now is the time to subscribe. E. S. Craven says he cut one hundred tons of red clover from twentytwo acres this season and the same piece is now making a third growth sufficient for good fall pasture. This has been a splendid clover season.

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by C. F. Moore & Co.

Wm. Manning received the old sword from the East the other day which Mrs. Manning's father, lately deceased, used as a commissioned officer in the Civil war. It will become a highly treasured family heirloom.

Mr. Nelson Sykes, the new book keeper for the Chas. K. Spaulding Logging Company, is so well pleased with his position and the town in general that he speaks of sending back to his home in Michigan and having his parents come out and make their home here.

Prof. D. M. Metzger and wife of LaFayette visited out northwest of town Wednesday with Mrs. Metzger's sister Mrs. W. W. Nelson. Prof. Metzger has been a teacher in the LaFayette seminary, and since that institution has been consolidated with LaCreole academy, he is still a member of the faculty, and they will soon move to Dallas, their new field of work.

Mrs. H. L. Christenson received word from her father, Wm. Wilks, who lives over in Tillamook County, the other day saying that he had not recovered from a fall which he had several weeks ago, and in all probability would never walk again. This comes as sad news not only to his daughter who thought he was getting along nicely, but to the many friends which he made while visiting here. Mrs. Wilks is also in poor health.

A meeting of the pastors of the town was held Wednesday afternoon to discuss the matter of organizing an anti-saloon league. It was decided that on Sunday, September 2, the pastors should preach on the subject of temperance in all the city pulpits, and that in the near future, following that date a union meeting should be held for permanent organization of the league and adoption of constitution. This is a very worthy movement and we hope to see it successfully organized in Newberg.

Some misunderstanding has arisen in regard to the graving of the streets by property owners, and the street committee of the city council wish us to make the following statement. Property owners who wish to do their own graving, may have that privilege, but all such must, by eight o'clock Monday evening, August 27th, sign bonds prepared by the committee, that they will do their own graving, as required by the council. At that time the council will let the contract for graving all the frontage not already graveled or covered by the signed bonds.

C. B. Lafollet of this city has made money out of one cow by furnishing milk for the cheese factory. His returns for the milk for the month are \$3.10, besides all the milk a family of five and a young calf could use. If the factory hadn't been here his wife would have made butter of the surplus, for which he spent \$2.10, leaving him a net profit of \$1.00 and the extra work of making the butter.—Sheridan Sun.

The same results can be obtained by a patronage of our creamery. It is doing business on a small scale but it is enough such that makes a success of our new enterprises. The result is a profit to both patron and creamery. Let the small farmers in this community take note.

Mayor Maloney went back to Newberg on Tuesday to continue the work of surveying that town, and relocating lines. It is understood that Newberg has a twofold purpose in this work. They are laying the foundation for a big city, to follow the establishment of the beet sugar factory, and incidentally expect to have a couple of expensive bridges on the outskirts unloaded from the shoulders of the town. They can accomplish the first, and perhaps both. Three of her principal streets have been widened from 60 to 80 feet. First street, which is the principal one, has now attained that width, the work of moving back the early erected frame buildings having been progressing for some time. There is evidence of public spirit in this. Imagine yourself giving ten feet off the front of your business lot solely for the public good and the looks of the town. Newberg will always deserve a beet sugar factory for her enterprise. If she doesn't get it, there will be few leader towns anywhere.—Reporter.

The Reporter is wrong in giving the impression that the improvements are being made preparatory to a big city, on the strength of the beet sugar factory proposition. The work being done consists in locating corners, straightening streets etc, which should have been done years ago, and which came up now in connection with the graving being done. It was simply a matter of business necessity, city or no city. And we want it understood right now that the life of Newberg does not depend on any beet sugar factory. If it comes our development will be the more swift and certain. If not, we will still develop, and will only approach nearer the present level of other Yamhill towns. That's how "deader" we will be. Right now, with the only pressed brick plant in the state, with the largest lumber mill in this section of the country, with a canning and packing house in course of preparation, with a successful creamery in operation, with a large flouring mill, a brick factory, two tile mills, an ax handle factory and other smaller concerns "too numerous to mention," Newberg has more manufacturing industries than any town in the county. Newberg is not inactively waiting for the factory, nor, incidentally for "the completion of the Yamhill locks." If we don't get the factory we will get something else. Mark that. Its a weak brand of enterprise that only spurts for some one great end, and failing in that, subsides into that "quiet" spirit of peace and tranquillity which broods over some Yamhill towns. The Reporter is loyal to Newberg alright, but rather underestimates the staying qualities of the "enterprise and public spirit" which it compliments in us.

During the Civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer with it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by C. F. Moore & Co.

Take Notice. Beginning Monday, August 27, the postoffice will close at 7:45 P. M. instead of 8 o'clock as heretofore. E. H. WOODWARD, P. M.

Prevented A Tragedy. Timely information given Mrs. Geo. Long of New Straitsville, Ohio, saved two lives. A frightful cough had long kept her awake every night. Such cures are positive proof of its power to cure all throat, chest and lung troubles. Only 50c and \$1. Guaranteed. Trial bottles free at C. F. Moore & Co.'s drugstore.
