Dr. H. J. Littlefield returned home Monday evening from his extended Alaskan cruise on the United States revenue cutter Perry. He looks much better than when he left, having improved rapidly since about the first of July, gaining nearly twenty pounds in weight. He returned somewhat sooner than he had expected, but admits that he got homesick and had to come. He resigned his position at Sitka, where he was fortunate in securing another physician to take his place.

The great temperance worker Francis Murphy, who for a quarter of a century has been on the public platform, spoke in the Friends church here to a fine audience Tuesday evening. Like many other popular lecturers, Mr. Murphy did not centralize his fire in any great extent but he made some telling points. It was a pleasure to listen to him as he was entirely free from political cant and put the question where it belongs—on a moral basis. This has probably been the source of the man's great power, as he naturally attracts, where others repel. He found his work on the belief that the root of the evil is in the individual appetite, and that the proper place for temperance efforts is in the man and not in the saloon. Mr. Murphy, full of the real thing in the way of Irish wit, is a royal entertainer. He is also rich in the strain of old Irish oratory, and knows how to use it effectively. One of the finest things ever heard in Newberg was the tribute which Mr. Murphy, near the close of his lecture, paid to Abraham Lincoln.

They met Wednesday and decided to act as the petition requested, provided sufficient interest is taken by the city and county. It was decided to set the time for September 27, 28 and 29. Suggestions and advice are wanted. One leading farmer suggests a barbecue for one day, and offers to give a sheep. Products from each precinct exhibited under a large street tent; one pretty young lady candidate for queen from each precinct to be voted for, the winner to receive a gold watch; steamboat excursion to the locks for one day; carnival parade and ball game; these are suggestions. Committees will be appointed soon and duly announced.—Reporter.

We understand that Z. T. Davis has sold his Dundee fruit orchard to Mr. Prince, the Eastern capitalist who already owns two hundred and fifty acres of prune orchard adjoining, for the neat sum of eighty thousand dollars. This is a little bit the biggest thing in the way of a real estate deal that Yamhill has seen—and that in the grubby end, too.

Warren Robertson, Edmund Robinson and W. H. Mears were called to Vancouver, Washington, last Saturday as witnesses in a land contest case in which Mrs. M. C. Rutan, of Newberg is interested. Two women as parties to a land contest can make a very interesting trial, so it is said.

Through a lady who has just returned to San Francisco from China where she went through the memorable siege of Tien Tsin, Mrs. Van Leavitt has heard from her brother Bert Hoover and wife, who with the other Americans were penned up in that city. Some idea of how desperate the situation was is given in the fact that the lady in question says that Mrs. Hoover with rifle and cartridge belt was almost continually on the firing line, and kept her post, doing her duty as faithfully as a regular, and probably as efficiently as she had the reputation of being the best lady athlete which ever graduated at Stanford University. After the immediate danger was over she devoted herself to the care of the wounded.

To Clean and Polish a Piano. In cleaning and polishing a piano go over the woodwork with a cloth wet with paraffine oil, being generous with the oil where the woodwork is very much soiled. Let this remain two or three hours: this is to soften the dirt. Then wash with soap and water a soft cloth, being careful not to let any water touch the works inside the piano. Use a good white or a Castile soap. Wipe dry with a soft cloth and polish with soft old linen or chamois leather.—September Ladies Home Journal.
