Chas. Davidson went down to the city to attend carnival last week and struck a job in a restaurant along with his old cronies Ed Cantonwine. He was fast catching on when his mother, thinking that there was a better place for Charles than among the allurements of the metropolis, went down and accompanied him home Saturday evening.

Dr. J. Burt Moore of Coquille, who has recently joined his wife who has been visiting relatives across the river beyond Champco for some time, came over to Newberg last week and has since been visiting relatives and calling on old friends in town. He says that by an occasional vacation he manages to keep up in health, which statement, from his appearance, no one will seriously question.

A gentleman named McNair, from Sitka, Alaska, with whom Dr. Littlefield became acquainted while up there, was in town last week looking for a location for opening up a drug store. After a survey of conditions here he was very favorably inclined toward Newberg, but like "others" his location here will depend largely upon the coming of the best sugar factory, and in that case we expect to see him here later.

As we go to press we learn that Prof. C. W. Kantner, the talented young musician of Salem, has been secured as musical director of Pacific College for the coming year. Prof. Kantner has a wide reputation both as a musician and composer, and he will make the music department of the college exceptionally strong. He is expected to be present at the opening Wednesday morning and will favor the audience with some selections.

W. H. Galland who recently bought out the Star bakery is rapidly making a new place of his purchase. He has cleaned it up, made some neat additions inside and is rapidly preparing to take care of the custom he solicits. He now has fresh bread on hand every day and makes a specialty of making fine taffy. He is opening up a good business and deserves a share of the patronage.

A gentleman named Atkinson, of Portland, rode up on his bicycle Wednesday to get a job in one of the fruit dryers about Newberg. He was exhibiting a bicycle carrier which he had invented, which is the best thing of the kind we have yet seen. He says he has been at work for three years perfecting it, but now that he has finally made a success of it, bicycle dealers are quickly taking hold of it and he has a sure thing.

Of all the manufacturers and patentees, Mr. W. K. Allen appears to have the greatest confidence in his machines. Not only is he selling rights to a great many fruit growers, but is investing his own money and all the capital he can command in erecting large evaporators throughout the Northwest, so he will have under his own immediate control facilities for turning out several carloads of dried fruit every day.-Pacific Farmer.

A Portland man in town one day this week was asking about the sugar factory, and said a man had remarked to him a day before that it was no go, but that he had replied, "Not much; that a town that has the snap and energy Newberg displayed is bound to get what it goes after or something as good." He furthermore stated that the factory would make Newberg one of if not the very best town in the Willamette Valley for its size. Nothing advertises a town so much as a reputation for "rustle."

Leon Kenworthy came down to Portland on an excursion train from Hantsville, Washington, last week, avowedly to attend the carnival, and came up to Newberg to Sunday with old friends. As a little innocent inquiry developed the fact however that he didn't attend the street fair at all, we fear that Leon was dodging the "paramount issue" of his sojourn. He returned the first of the week to Seattle where he entered the Washington State University for a two years law course.

Harry, the youngest child of Mr. and Mrs. G. O. Worden of Troutdale, who were visiting relatives in town, died Saturday morning after a week's illness, spinal meningitis being the trouble. The funeral took place from Jas. Hammetts Sunday afternoon, interment being made in the Newberg cemetery. Mr. and Mrs. Worden and children returned home Wednesday.

After spending several weeks here resting up and recuperating from over work, Dr. Woods Hutchinson of Des Moines, Iowa, has finally concluded to locate here permanently. During his stay here he has already made many friends who will gladly learn of his decision. Dr. Hutchinson has a finished medical education, having spent some years in Germany, and is a very thorough physician, and as prospects at present look favorably toward the need of an increase in the representation of the medical profession in Newberg, we are glad that he sees fit to remain with us.

Had he not happened being close at hand, O. K. Edwards would probably have lost their home by fire last Monday. He was heating some coal tar on the kitchen stove, preparatory to coating the roof, and while he was out, it boiled over, and blew out over the room like an explosive. O. K., who was just passing, rushed in and carried the kettle out of doors, a puff of the hot substance striking him in the face and making a bad burn. The interior of the kitchen was badly demolished, and will have to be repainted and repapered. A new carpet recently put on the floor was also ruined.

The formal opening of the new year of Pacific College will take place next Wednesday morning, September 19th, in the college chapel at 9 o'clock. While the public is always cordially invited to attend the opening of college, a special invitation is extended this year, considering that the school starts out under new management, and with several changes in the faculty. The exercises will be highly profitable, an inaugural address being delivered by Pres. H. E. McGrew, and short addresses from other members of the faculty will be given. The outlook for students for the new year is promising, and it is greatly to be desired that a good audience of friends and patrons of the college will be present Wednesday morning and signify their interest in the work. Everybody is invited.

Care of Thanks.
