

Woman's Kidney Troubles

Why trifle with health when the easiest and surest help is the best known medicine in the world?

Lydia E. Pinkham's Vegetable Compound

is known everywhere and thousands of women have been cured of serious kidney derangements by it.

Mrs. Pinkham's methods have the endorsement of the mayor, the postmaster and others of her own city.

Her medicine has the endorsement of an unnumbered multitude of grateful women whose letters are constantly printed in this paper. Every woman should read these letters.

Mrs. Pinkham advises suffering women free of charge. Her address is Lynn, Mass.

During the year ended May 31 the home circulation of the Chicago public library was 1,749,775 volumes, which the Chicago papers say, exceeds the record anywhere else in the world.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a running ear, which is usually attended with itching of the ear, which when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; this can be done by the use of our Catarrh Cure, which is nothing but an inflamed condition of the mucous lining of the ear. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by this method. Send for circulars free.

A young girl in Missouri was taken to an insane asylum the other day suffering from the remarkable delusion that she is compelled to sit on a red hot stove and peel potatoes. She has been working in a hotel kitchen.

Mothers will find Mrs. Winslow's Soothing Syrup the most reliable remedy for their children during the teething period.

Good roads will be appreciated in the winter. At this season all may be well, but when the roads are muddy the time lost in hauling and a few loads will be much greater in value than the amount of taxes necessary to make good roads. This fact becomes painfully apparent when the farmer must use four horses to draw only half a ton over roads that could be put in such condition as to permit of a heavy wagon and a ton load to be drawn by two horses.

Rheumatism

Rheumatic pains are the cries of protesting and distressed tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison, and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Keil, of 207 Ninth Street, N. E., Washington, D. C., writes as follows: "Months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was intense and I became completely prostrated. The attack was unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having five treatments with times without receiving the slightest benefit, I decided to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided to try it in despair, however, to give the medicine a trial, and after I had taken a few bottles I was able to get about on crutches, and very soon thereafter had no use for them at all. S. S. S. has cured me sound and well. All the rheumatic pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

S. S. S. the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to rheumatic habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

PISO'S CURE FOR CONSUMPTION

BRADSTREET'S REPORTS.

Heavy Trading and a Large Gain in Raw Cotton.

Bradstreet says: Expanding demand at advancing prices in many lines of trade finds its chief exemplar in the market for raw cotton, which has witnessed the greatest excitement, heaviest trading and largest gain in price for at least a decade. Rarely, if ever, in the history of the trade, as conducted on modern lines, has the interest displayed in the product been greater, and the manufacturing interests of the world find the situation a perplexing one, while the prospects of large profits to producers are stimulating all lines of Southern trade. In American cotton markets the situation, from being a buyers' market a short time ago, is now reversed, and sellers are in a position to dictate terms. So suddenly has the outlook, as viewed by the trade generally, changed that manufacturers are unable or unwilling to define their exact position, or, if they accept new business, do so on a distinct basis of cost of new supplies. Maximum cotton-crop estimates of past year are apparently panic-stricken, and predict famine stocks for the end of the year, even with reduced crop.

Most food prices are either firm or higher on the better, wheat being advanced on better export demand and bad weather at the Northwest, proved by the lower grade of much of the receipts. Wool is still rather weak, and the demand for spring-weight men's wear goods is still disappointing.

Hardware is in good demand, and a good fall business is likely. Wheat, including flour, shipments for the week aggregate 4,665,982 bushels, against 3,378,100 bushels last week. Business failures in the United States for the week number 267, as against 154 last week.

Refuse to Be Civilized.

China is often alluded to as a benighted region, but there is one little kingdom, the Hermit kingdom of Corea, that is entitled to the palm of darkness as far as civilization and modern progress goes. The trouble with China is that the people will not adopt systems of the foreigners, while Corea, it seems, cannot. Missionaries and others have been endeavoring to instruct the Coreans in the use of American tools, but, with all the labor involved, they prefer to do the work as their forefathers did.

Developed by Cultivation.

All garden vegetables are merely types improved by long cultivation of wild species. The wild cabbage is common enough in places by the sea, but is of no use for food in its wild state. Indeed, it will take a botanist to tell that it was a cabbage at all. Scotland owes the cabbage to Cromwell's soldiers. The cauliflower is but a cultivated improvement on the cabbage. It was brought to perfection in Cyprus and was very little known until about a century ago. The parsnip is another native of this country. You may find it along almost any hedge-row, but it is small and intensely bitter in its wild state.

What are Humors?

They are vitiated or morbid fluids causing the veins and affecting the tissues. They are commonly due to defective digestion but sometimes inherited. In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor and general debility. How are they expelled? By Hood's Sarsaparilla. Which also builds up the system that has suffered from them. It is the best of all medicines for all humors.

Depreciation of Money.

In 1873 a silver dollar was worth one dollar and six-tenths in gold, and in 1896 forty-five cents. Money may depreciate but there is one standard medicine, which has not changed in half a century, and that is Hood's Sarsaparilla. It always has been the one remedy for indigestion, dyspepsia or kidney troubles. The earliest authenticated sea fight is said to have been that between the Corinthians and the Coreans, in which the former conquered—66 B. C.

The storage and keeping of apples is a matter of great importance where there is a large crop. The main point is to keep them cool. It is warm, not cool, that injures them. Some one who has tried it states that apples can be kept in water at a few degrees above the freezing temperature. The majority of growers pack them in barrels and store them in a cool cellar, first picking out every imperfect specimen.

Righteousness Versus Rights.

The golden rule is not a "bill of rights." Rather does it represent the will to do right. In all the teaching of Christ the word "rights" finds no place; but the word "right" or "righteousness" occurs with exceeding frequency. True, no man ever did so much as Jesus to secure the rights of every member of the human race. Woman's rights, children's rights, the rights of servants and masters, the rights of the poor and the weak and the ignorant, all have found an increasingly clear recognition and respect with the spread of the gospel. Yet this has come about by the persistent inculcation of the principle of right and the equally persistent restraining of the spirit which demands "my rights."

French Style of Starting Foot Races.

In an American sprinting race the starter orders the runners on their marks, then tells them to "get ready," then calls out "set" and a couple of seconds later fires the pistol. At the Paris races the starter ordered the men on their marks, called out "attention" and fired the pistol so soon afterward that the Americans could not get into a crouching position. After the first heat or two the Americans were always set by the time attention was called and started at the word instead of pistol, thus gaining a yard or two.

A Much-Married Centenarian Turk.

In the village of Bozra a Turk named Ismail, aged 120 years, is in such good health that he frequently walks to Bartin, six hours distant, to sell eggs, for he is a poultry dealer. He has had 34 wives, the last of whom he married only a few days ago. The bride is 80 years his junior, and the marriage was celebrated with much solemnity to the sound of drums and files and of volleys from firearms. The whole village was on foot. The wedding procession included all the male progeny of the patriarch bridegroom, consisting of 140 sons, grandsons and great-grandsons. The number of his female progeny is not stated.
