A box of big Jarley persimmons on display at Charley Wilsons grocery has caused a good many questions to be asked by customers. They have very little resemblance to the old North Carolina persimmon and consequently a colored brother or a "pessum" would hardly take them for the real thing.

Jo Bowman arrived home from Douglas, Alaska, on Monday evening where he has been for the past two years working in the big Treadwell mines. He says they froze him out and he concluded to come back and winter in Oregon.

The Newberg people who are in Douglas are well and getting on nicely. Jo is in good health and looks as though the north country and hard work had agreed with him.

Work having been practically suspended at the brick factory for the winter, Dr. Aaron Mills, one of the burners, has moved to his farm above Dundee where he will spend the winter pruning his orchard and chasing the hens for high priced eggs.

Mrs. F. A. Elliott received a letter from her sister, Mrs. A. T. Hill a few days ago written from Carthage, Indiana, where she is visiting with her father, Rev. James P. Price formerly pastor of the Friends church in Newberg.

She arrived at the home of her father unannounced, as she had not written she was going, and the surprise was genuine as well as complete and very pleasant. She will remain for some time and A. T. will probably follow her for a short visit after the holidays.

The college football team has been receiving some good practice through the organization of the town team, and has been much strengthened thereby. On last Friday evening the teams played a practice game which, to the surprise of many, resulted in a victory for the college boys with a score of 5-0.

On Monday evening however, another game was played and the score reversed. These games will doubtless strengthen the college team for the work against McMinnville college for which the boys realize they need all the help they can get.

Henry and Arthur Austin came out from Little Nastucca the first of the week where they have been operating their salmon fishery at Stella Falls. The fishing season has closed and they are now out for the winter. The run of salmon was rather light but they sold to men who hauled out to the valley and sold out at retail, and did fairly well.

They found the roads in the mountains rather heavy though they say they are much better through the Indian reservation since this has been made a public road and worked by the county. On this road they have had only an inch of snow while on the North Yamhill road the snow is two feet deep. Henry will winter with his family across the river in Marion county.

There were a couple of surprises in mercantile circles the first of the week. C. H. Fleming, who has been with R. Jacobson & Co. several years, took a clerkship with the McMinnville Grange & Farmers Co., and he was succeeded at Jacobson's by P. M. Flynn, who some time ago severed his former mercantile relations on account of ill health.—Reporter.

Asa Pim and daughter, of Ohio, arrived here Saturday night and are visiting north of town with their cousin N. G. Kirk and family. Mr. Pim was clerk of Ohio Yearly meeting of Friends church for years and is now out here in search of health. And as to the daughter—well its not health exactly that brings her to Oregon, and we will explain more fully next week.

Miss Mabel Edwards very pleasantly entertained about a dozen of her friends at her home Saturday evening. The evening was supposed to furnish a lesson in modesty, the use of the personal pronoun "I" being forbidden, but human nature proved too strong for any satisfactory results. Unique games were indulged in and the evening was a very pleasant one to all concerned.

N. C. Christenson and Andy Johnson have been doing some pretty close figuring lately on a proposition to put up a first-class grist mill of a hundred barrel a day capacity on the railroad, but for the present they have decided to let the matter rest until some other business matters can be adjusted. In connection with this proposition Mr. Christenson made a partial canvass of the town to see what could be done in the way of running an electric light plant with the mill engine. He met with considerable encouragement but did not follow it up closely enough to determine just what could be done in the way of securing subscribers. It is generally conceded that it will require about two hundred lights to make a plant pay.

From the College. Interesting remarks were heard on Tuesday morning from visitors to the to the Quarterly Meeting. The teachers have been very considerate of the students the last few days, so that we will all have something to be thankful for.

Accident to Miles Reece. Mrs. Lon S. Hill received word a few days ago from Los Angeles, California, that her father, Miles Reece was the victim of an accident which caused the loss of the right foot. The many friends of Mr. Reece here will be pained on learning this news and the Graphic is sure he and his family will have the sympathy of all who read this. The Los Angeles Express of November 19 says of the accident: Miles Reece of Covina, while attempting to alight from the Santa Fe overland train as it pulled out of the station at 10 o'clock Sunday morning, missed his footing and fell in such a manner that his right foot reached across the rail and was horribly crushed and mangled by the wheels of the rear coach. A number of people were at the station and saw the accident and the injured man was taken at once to the Pasadena hospital. Dr. F. F. Rowland was called, and he, together with Drs. Smerk, Lockwood and Bolton, finding immediate amputation imperative, severed the member about four inches above the ankle. Reece suffered no further injury except a slight bruise over his right eye. He retained consciousness and suffered but little from the effects of the shock. He will be kept at the hospital until the wound heals so far that he may be sent to his home in Covina.

Mr. Reece came to Pasadena this morning for the purpose of meeting his mother, who was expected to arrive from the East on the overland. He boarded the first section of the train when it came in, went through it, but failed to find her. As he came to the rear end the train started on, and, finding the rear door locked, he went to the forward end of the coach to get off. At this time the train was moving rapidly, and as he swung off, instead of letting go the handrail he held to it and was jerked under the train, when his foot was caught instantly by the rear wheels.

The crippled man is 52 years of age and is a carpenter by trade. He is a widower and has three children. Dr. Rowland sent a message to Reece's people in Covina informing them of the accident, and late last evening the mother, and late last evening the mother, for whom he was looking, and his sister came to the hospital. His mother had left the train at a station near home instead of coming on to Pasadena.

A Village Blacksmith Saved His Little Son's Life. Mrs. H. H. Black, the well known village blacksmith at Grahamsville, Sullivan Co., N. Y., says: "Our little son five years old, has always been subject to croup, and so bad have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by C. F. Moore & Co. druggist.
