E. D. Elwood, formerly of Newberg, and two other gentlemen were the successful Nimrods. A too wide circulation of the kodak picture is likely to result in a stampede of our local sportsmen in the direction of the place where such hunting is possible.

On Wednesday, Marshal Woods took up Guy Young, a lad of about 14 years of age, on a charge of stealing a watch and ten dollars from the old gentleman McCully who lives out west of town. The boy acknowledged that he took the watch, but claimed that other boys were implicated in taking the money. He was arrested and bound over to appear at the next circuit court. For a boy of his age it would seem that a binding over to the state reform school would be more in order.

"About five years ago I was troubled with catarrh of the lower bowel," says C. T. Chisholm, 484 Dearborn Ave., Chicago, and although I consulted several eminent physicians who prescribed for me, I found their remedies failed to in any way relieve me, and the trouble almost became chronic. After suffering several months, I one day concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and I beg to assure you that I was most agreeably surprised to find after taking two doses of the remedy that I was completely relieved of the disease that had cost me so much trouble and annoyance. I am thankful today that I have not suffered from it since." For Sale by C. F. Moore & Co., druggist.

Acting on the advice of the city water committee, and F. H. Story, who were appointed to investigate the matter, the city council will at once prepare for the erection of a new and larger reservoir on the hill north of town near the old one, the plans and specifications of which will be presented at the next council meeting. The excavating will be done this winter, and the reservoir put in next season.

Calkins, assistant foreman, Drew Price secretary, and C. F. Butler treasurer. The boys are looking forward to giving an entertainment soon to raise necessary funds for their work, and expect the people to do the proper thing in supporting them in the good cause.

Thanksgiving Football.
In a hard fought battle, our college boys met defeat at the hand of McMinnville on Thanksgiving, by a score of 17 to 6. The score does not tell all the story however. It was a game of boys against men, the home team out-weighting our boys by about 12 pounds to the man. As is always the case when Newberg and McMinnville come together, the game was a fierce one, and the score was not bad considering that it was Newberg's second team which played, though probably about as good as the college could put out. More than this every "boy" in the Newberg team was a bonafide student in spirit, as well as on paper and had not entered college merely for a short course in football for special emergency. We may be over suspicious, but out of 50 students, in McMinnville college, with over half of them ladies, it seems a little singular that a football team of such "manly" proportions could be selected. Our suspicions in this respect were supported by an unguarded remark by one of McMinnville's own citizens who failed to recognize their own team as that of the college.

As to the treatment of our boys by the McMinnville team we have no complaint to make. As to the public in general we cannot say so much. We are not "sore" over defeat, as our boys played heroically, and lost fairly. We cheerfully yield to our rivals the joy of the first victory. Away back in the dim past we too won our first laurels and can sympathize with them. But the treatment which our boys received at the hands of some of McMinnville's citizens was a disgrace to the fair name of Yamhill. They seemed not to know any such thing as fair play. When Mac had the ball, a word would clear the field. When Newberg had it, the spectators crowded around, intercepted our plays, hooted and yelled to keep our boys from hearing their signals, and desirably talked back at the referee who requested fair play. In an instance or two they went as far as to bodily intercept one of our players. We dislike to say these things, and are sorry there is ground for it. But if McMinnville will send a team here to strive in friendly contest, Newberg will try to set her an example in the way of treating visitors.

From the College.
The result of the football game would doubtless seem very discouraging, but when we come to consider that the opposing team was made up of the heaviest and strongest men McMinnville college could gather in, given their tuition free, and plenty of time to practice, is it any wonder they beat us?

Prof. Douglas did not attend to her classes on Tuesday on account of the sickness of her son Bruce.

As examination time draws near, the students, who during the term did not realize the fact that they must make a grade, are now awakening to it. As a consequence they are burning the midnight oil—and sleeping during the day.

The boys are arranging for a basketball team and they will soon be doing active work in the gymnasium.

The different classes are busily at work planning for recitals. It has been arranged by the faculty that those of each class, who are to go into the oratorical, shall recite publicly in the chapel on such mornings as will be indicated later.
