

# A Michigan Miracle.

MRS. HARRIET A. BEGOLE TELLS OF AN UNEXPECTED BLESSING.

Lost Her Voice and Did Not Speak Again for Nearly Thirteen Years—How Her Speech Was Restored.

The Ypsilanti Commercial, Ypsilanti, Mich.

Many things appear miraculous that are really the result of natural laws the workings of which can be accurately predicted. A striking example of this occurred in a prominent Michigan family recently, and in this case there can be no question as to the truthfulness of the narrative since it is attested by Mrs. Harriet Begole, of Ypsilanti, Mich., a sister-in-law of Mr. Joshua Begole, who was governor of Michigan in 1883-84. When interviewed Mrs. Begole said:

"In 1886 I suffered from a severe illness brought on by a hard cold. During this illness my voice left me and I did not speak again until a whisper for nearly 13 years.

"I was treated by five local physicians and afterward went to New York and consulted the leading specialists there. They diagnosed my case as partial paralysis, stating that the left side of my throat was entirely paralyzed and the right side partially so. I returned home utterly disheartened.

"For nearly eight years I had suffered from a severe stomach disorder until about a year ago I decided to try Dr. Williams' Pink Pills for Pale People for this trouble. I was much benefited by the first box and so was encouraged to persist in their use. My stomach trouble was relieved, my general health became greatly improved and to my surprise I regained control of my vocal organs. I have used five boxes of the pills and last November I spoke aloud for the first time in almost 13 years. I am now 71 years of age and have full control of my voice. I feel so grateful that I wish to make known to others the wonderful curative powers of Dr. Williams' Pink Pills for Pale People.

(Signed) MRS. HARRIET A. BEGOLE. Sworn to and subscribed before me this 19th day of May, 1899, at Ypsilanti, Mich.

JOHN P. KIRK, Notary Public, Washburn Co., Mich.

There is nothing surprising in this cure, remarkable as it is, to those who know that Dr. Williams' Pink Pills for Pale People are so compounded that they act simultaneously on the blood and cannot be excelled as a corrective or a disordered digestion as was proved in the above case. Their power in rebuilding wasted nerve tissue makes them invaluable in the treatment of partial paralysis. In this fact Mrs. Begole owes the restoration of her voice after years of useless but expensive treatment.

Dr. Williams' Pink Pills for Pale People contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of a gripe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People, are sold by all dealers or will be sent postpaid on receipt of price, 50 cents a box or six boxes for \$2.50, (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

Big Rains in California. Rains the past week or two have been so heavy in Southern California that business men are extremely happy. First big rain in years.

## Scrofula THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The patient who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of tentacles white swellings—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 125 Public Square, Nashville, Tenn., writes: "Ten years ago I fell and cut my forehead. From this wound the glands on the side of the neck were swollen and burst. Some of the best doctors and chemists attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

S.S.S. makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage. ## ONLY ONE LIKE IT EXTANT.

Omaha Man Greatly Prizes a Sixty-Dollar Bill He Owns.

The most unique piece of legal tender in the city, outside of the Byron Reed collection, is a \$60 bill, in the possession of A. K. Rhoades, 2832 Spaulding street, says the Omaha Bee. Mr. Rhoades brought the bill with him when he left Maine for the West in his early youth and it has been treasured among the family archives for forty-three years. It would probably have remained far from the public eye had it not been for the boast of a Spokane paper that a resident of that city possessed the only \$60 bill in existence. Mr. Rhoades wishes Omaha to have the credit of a similar possession.

The bill was issued during the first session of the Continental Congress in 1779, and is a document of peculiar appearance. The paper is of a faded yellow material and is coarse and heavy. It is cut almost square, four inches by three. The promise to pay is worded as follows: "The bearer is entitled to receive sixty Spanish milled dollars or an equal sum in gold or silver, according to a resolution of Congress of the 14th of January, 1779." At one side is an engraving of the earth, with the motto "Deus regnat, Exultet Terra" ("The Lord reigns, let the earth rejoice"). On the reverse of the bill are sketches of two leaves, resembling a mint leaf and a sprig of pine, with the printers' signature, "Hall & Sellers, 1779."

The Byron Reed collection contains an \$80 bill and several samples of continental currency of other denominations, but has no duplicate of Mr. Rhoades' treasure. Neither does the rich library on numismatics in the collection have anything to say regarding the history or value of the document. The bill bears every evidence of being genuine, however, and is undoubtedly worth far more than its face value.

Mr. Rhoades values the bit of paper very highly, both as a curio and as a keepsake, and has never made any effort to ascertain its commercial worth. Otto Flecht, of the Coeur d'Alene, is said to have been offered \$1,000 for his specimen paper, but preferred not to part with it. He submitted the currency to the Treasury Department and after an examination it was reported that the bill was legal; such an issue is known to have been made in the year mentioned. The official signature inscribed in ink is that of George Bond.

## LABOR NOTES

The Brotherhood of Locomotive Firemen gained 3,700 new members in the past year.

Laborers are so scarce in Switzerland that they have to be imported not only from Italy, but from Bohemia and Silesia.

The new United States census will show that nearly 1,000,000 females are employed in the factories of the United States.

Edison's plan to cheapen electric power by abolishing dynamos will throw hundreds of mechanics out of employment.

Fifty-two thousand five hundred dollars has been spent by the United Hatters' Union in the past two years in advertising its label.

The 100 local unions of the textile workers in the South are about to start a movement for a ten-hour day in all the Southern mills.

Judge Halloran, of Des Moines, Iowa, recently rendered a decision that a trades union is a pool or trust, and in violation of the laws of that State.

It is stated that 100,000,000 of the population of China, or one-fourth of the people, are connected with the various branches of raising and marketing tea.

The average daily compensation of the general officers of the various railroads in the United States is \$7.47 per day, while the average of the working employes is \$1.00.

Kansas City, Mo., is now the second flour-making city in the United States, having made 48,420 barrels in one day recently, and eclipsing all records except that of Minneapolis, Minn.

The Minneapolis flour mills in the past year surpassed all previous performances in the history of the city's great industry with an output of 14,000,000 barrels of flour. The mills used up between 62,000,000 and 65,000,000 bushels of wheat during the year.

The Baldwin Locomotive Works, Philadelphia, has received an order for twenty-two heavy freight locomotives for use on the Government railroads in New Zealand. The first American-made locomotive to be used in Ireland was shipped by the same company a few days ago.

Biggest of Toy Factories. The largest toy factory in the world is in New York, where playthings in tin are manufactured literally by the million. It stands five stories high, and turns out 1,007 distinct varieties in tin toys. No. 1 is a tin horse, No. 1,007 a tin menagerie. The output of circular tin whistles is 2,000,000 per annum. To make a tin horse twelve inches long takes a tin worker twelve hours. The children of different countries have different tastes, but tin soldiers are wanted all over the world, the military instinct being as universal in the nurseries as in the courts and cabinets of the world.

Phonographic Reminder. An ingenious Austrian inventor has just patented a speaking clock which he claims will be of the greatest value to persons of forgetful and irregular habits. It consists of a clock phonograph combination. In place of the usual striking attachment is a phonograph, which can be set to speak a sentence at any time desired, thus becoming an unfailing reminder to its owner of the duties of each successive hour.

Somehow, it always shocks people to see a woman smile while wearing mourning.

Every man works at a lot of schemes he knows there is nothing in.

LIEUTENANT PETERSON Says Peruna is the Finest Tonic and Invigorator He Ever Used.

Lieutenant Charles Peterson, Hook and Ladder Co. No. 21, writes the following letter to the Peruna Medicine Co., from 827 Belmont avenue, Chicago, Ill.:

"Last year I had a severe attack of a gripe which left me very weak, so that I was unable to perform my duties. Several of my friends advised me to build up on Peruna, and I found it by far the finest tonic and invigorator I had ever used. In two weeks I was strong and well, and if ever I am exposed to unusual hardship incident with my duties at fire, I take a dose or two of Peruna, and find that it keeps me in good health."

Army Worms May Come. Farmers in our extreme northwestern states have been greatly puzzled over the origin of fires occurring upon their prairies far remote from locomotive sparks in sections not visited by Indians and at seasons of the year when there were no hunters in the country. They have carefully traced back the progress of these fires until in each case they have found the flames proceeded from a point in the grass where lay a castaway beer bottle, itself the focal point of all the trouble. The spherical glass in the bottom had acted as a powerful concentrating prism and through this the sun's rays had fired the dry plain. Thus the traffic which corrupts politics endangers rural prosperity. On the whole what not some body rise up to tell us what class in the community the brewery does benefit and how?

## Fresh Views of Life.

Much might be said on the wisdom of taking a constantly fresh view of life. It is one of the moral uses of the night that it gives the world anew to us every morning, and of sleep that it makes life a daily re-creation. \* \* \* God is thus all the while presenting the cup of life afresh to our lips. Thus, after a night of peaceful sleep, we behold the world as new and fresh and wonderful as it was on the first morning of creation when God pronounced it "very good." And sleep itself is a divine alchemy that gives us ourselves with our primitive energy of body and mind.
