Many of the Graphic subscribers are coming in and taking advantage of our offer for next year. There are many others who ought to do likewise before the first of the year. Don't wait until the time expires, but settle up and renew at the new rate of one dollar for next year.

Mr. Roy Antrim, who teaches in the Chas. Larkin district between here and Dayton, attended Friends church here Sunday and visited with E. C. Armstrong and family out west of town. Mr. Antrim was a member of the Second Oregon, and was wounded while serving in the Philippines.

Some ambitious stripping of McMinnville college wasted a lot of midnight oil and took up considerably over a column of the Transcript's valuable space, which otherwise might have been devoted to more "Stanley school lesson," in laboriously replying to what the Graphic said of that football game. From the way the poor chap agonizes, the shoe must be pinching terribly. To drown his troubles and relieve his mental stress he might more profitably direct his efforts toward organizing a team to come up against Newberg's football eleven.

Prof. Edwin Morrison received a telegram Sunday morning informing him of the death of his father at the old home in Bloomington, Indiana. He was 76 years of age and during his whole life was a member of Friends church. He was held in high esteem by his fellow members as was evidenced by the fact that for many years he held the position of clerk and for fifty years was treasurer of his home meeting. He was also a member of the board of trustees of Bloomington Academy for many years in which position he did good service.

Mrs. Wm. McLaughlin's father and brother Harvey Lambert of Waverly, Washington, came down last week and visited over Sunday, when they left to visit relatives in the vicinity of Dayton.

Mr. and Mrs. Allen Smith arrived home last Friday from their extended visit at Alton, Kansas. Mrs. Smith's aged mother and her brother Will Pickering returned with them and will probably make their home here.

Mrs. H. L. Christenson and her brother Chas. Wilks came out from Tillamook the first of the week where they had gone to see their sick father, whom they left very low. They found the road over the mountains almost impassable.

Miss Grace V. Bonner gave an orationary entertainment Tuesday evening, under the auspices of the Baptist ladies aid society, which was fairly well attended. General selections were rendered, the exhibition of ventriloquism being probably most appreciated.

Rev. L. D. Barr drove over to Scotts Mills Monday and officiated in the marriage of a Scotts Mills young lady to a gentleman from Portland, the wedding being quite an elaborate one. He returned Tuesday and remembered the Graphic with a sample of wedding cake.

We don't wish the young man who made his appearance at the home of Dr. and Mrs. E. P. Dixon, November 28, to think the Graphic is prejudiced against him because it failed to herald his arrival. The unintentional slight seems not to have worried him however, as he is thriving famously and waxing strong.

Clarence and Oran Edwards are finishing up a new brick kiln down at the factory this week, to be used as a testing kiln. Considering the cost of shipping so much of their clay from the Willamina clay banks, they are going to make a series of tests of clay nearer home, and for this purpose have built the new kiln. It will hold six or seven hundred bricks.

Mrs. F. W. Redmond of McMinnville, died on Dec. 8th of cancer. Deceased was a native of Yamhill county, and a daughter of the late Jephtha Garrison whose donation claim is the present site of Whiteson.

Go and see those pictures displayed by Prof. Douglas at the old Byers' Studio. He is ready for the Christmas trade. Every effort will be made to please you. Send your orders in plenty of time to avoid the Christmas rush.

Oh! don't—throw away your money on bric-a-brac that will be gone, some in twenty-four hours, some in two days and some in a week, but get one of those beautiful ties at Hodson Bros., and make a present that will make the heart merry 365 days in the year.

The town boys have been making diligent effort to secure a football game here for Christmas, but up to date have had little promise of success. They were most anxious to secure a game with McMinnville but the county seat sports displayed a manifest reluctance to coming up against the real thing and modestly declined. Astoria was also tried with no better success.

A distressing accident occurred in upper Happy Valley northwest of McMinnville on Sunday. Joseph Draper and his son were sitting on a pile of 16 foot boards, one on each end. The boy was handling a new shot gun, which was accidentally discharged, the load striking the father in the face, tearing out one eye and badly shattering the face from chin to forehead. Recovery is doubtful.

On last Friday afternoon Guy Young and Morris and Ralph Heacock were arraigned before Justice Wright, the former for stealing a watch and the latter for the theft of ten dollars in money, all from the tent of Jas. McCully. Ore Price appeared for the prosecution and Clarence Butt for the defence. The former plead guilty and was bound over to appear at the next term of circuit court, while the Heacock boys established their innocence by an alibi and were discharged.

Loyal citizens should turn out at the mass meeting to-night to be held at Crater's hall and help consider the best interests of Newberg and vicinity. The fact that the majestic smoke stack does not loom up over a beet sugar factory down on the river bank should not dissuade our citizens from hammering away toward the development of the industries of Newberg and surrounding country. We have the natural advantages and the spirit of "get there," and there is no reason why Newberg should not become all we want it to be,—the best town in the valley.

For Better Bicycle Paths. A movement is on foot for graveling the bicycle paths within a radius of four or five miles from Newberg. Inquiries have been made at Portland, and the cost of surfacing, graveling and rolling the paths there, found to be only about \$10 per mile.

Although the county beds are under water, gravel can be brought to the landing by scow or ferry boat, and the plan proposed is to ask wheelmen, merchants and others interested, to subscribe small sums for the purchase of the gravel and grading of the paths and then try to get the farmers living along

the paths to contribute by hauling the gravel from the river.

As the bicycle tax law has been declared unconstitutional and this opinion is extremely likely to be upheld by the Supreme Court, wheelmen ought to have little hesitation in contributing at least the amount of the tax toward this project. Merchants will find any change which makes access to the City, during winter easier, beneficial to trade. Indeed many of them have already expressed their willingness to assist in the scheme. If the improvement can be made, it will be a great convenience to all parties concerned, as many of the farmers now own wheels, and even those who do not will appreciate clean dry sidewalks to walk into town on during the winter. If every one will contribute a moderate amount of either money, material or labor, the scheme can easily be made a success.

W. H. MORRIS.

"About five years ago I was troubled with catarrh of the lower bowel," says C. T. Chisholm, 484 Dearborne Ave., Chicago, and although I consulted several eminent physicians who prescribed for me, I found their remedies failed in any way to relieve me, and the trouble almost became chronic. After suffering several months, I one day concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and I beg to assure you that I was most agreeably surprised to find after taking two doses of the remedy that I was completely relieved of the disease that had cost me so much trouble and annoyance. I am thankful to say that I have not suffered from it since." For Sale by C. F. Moore & Co., druggist.
