Tad Hoover, once a student of the old academy here, came up on the train last Friday evening and visited until the next morning with his sister Mrs. Van Leavitt. He finishes the mining course in Stanford University this year, and was on his way back there from a short professional trip up into the mining district of Washington.

We are in receipt of neat little weekly paper, the Moravian Herald, published at Moravia, Iowa, the editor and publisher of which is Rob Howard, whom many Newberg people remember. The bicyclists of Newberg are arranging to improve the bicycle paths running to that city by graveling and rolling them. This will make the paths solid and firm so that they can be used by wheelmen in the winter to as good advantage as in the summer. Bicyclists in Dayton and vicinity should join hands with Newberg, and make a No. 1 path, which can be extended from each end to connect with paths leading from Portland to Salem, making a continuous first class path from the metropolis to the capital. The beautiful scenery along the route would attract many bicyclists from abroad, who are visiting in the metropolis and at the capital to take a ride over the route, and the path would be the means of advertising this section. As near by as Salem and Portland are to this, the garden spot of Oregon, many people in those cities have little knowledge of the beautiful and productive region near where they live.—Dayton Herald.

The town will be alive with the usual Christmas festivities Monday evening, and our citizens will not lack for places of entertainment. The Friends, Baptist and Methodist Sunday schools will all have Christmas tree exercises, when good music and literary programs will be rendered.

William Allen arrived home from Elberton, Washington, on Wednesday where he has been for nearly five months erecting fruit evaporators and operating them during the season. The rains interfered very much with drying and consequently the output of his evaporators was considerably short of what it would have been if the weather had been more favorable. He has nine cars of Italian prunes still unsold and will probably return after the holidays to close up the business.

W. H. MORRIS.

"About five years ago I was troubled with catarrh of the lower bowel," says C. T. Chisholm, 494 Dearborn, Ave., Chicago, and although I consulted several eminent physicians who prescribed for me, I found their remedies failed to in any way relieve me, and the trouble almost became chronic. After suffering several months, I one day concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and I beg to assure you that I was most agreeably surprised to find after taking two doses of the remedy that I was completely relieved of the disease that had cost me so much trouble and annoyance. I am thankful to say that I have not suffered from it since." For Sale by C. F. Moore & Co., druggist.
