

Eczema

How it reddens the skin, itches, oozes, dries and scales!

Some people call it tetter, milk crust or salt rheum.

The suffering from it is sometimes intense; local applications are resorted to by the patient, but cannot cure.

It proceeds from humors inherited or acquired and persists until these have been removed.

Hood's Sarsaparilla

positively removes them, has radically and permanently cured the worst cases, and is without an equal for all cutaneous eruptions.

Hood's Pills are the best cathartic. Price 25 cents.

Loss of Life Comparatively Small.

Vessels have been storm tossed for days on the Pacific coast, but there are few reports of loss of life, and most of the battered ships have managed to make port.

Oregon's Seal Bounty Law.

Under Oregon's seal bounty law passed by the legislature in 1899, at least 50,000 seals of wild animals have been presented to the county courts of this state, and seal bounty warrants to the amount of \$100,000 have been issued.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional medicine. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; blue cases out of the ear caused by catarrh, which is nothing but an inflamed condition of the membrane, is caused by an inflamed condition of the mucous lining of the Eustachian tube. We will give one Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A Fish That Weighed a Ton.

At Arenella, near Palermo, they have just caught a very rare fish indeed. The have agreed to call it the "tub fish." It was three yards long, two yards deep, weighed a ton and had a skin tougher than a coelomonger's donkey, since hammers couldn't break it. Ferraveranza says that few people see the "tub fish" in a life time.

LOTS OF FAKE HISTORIES.

Book Writers Have a Mania for Accusations of Retentions Works.

"If I ever get to Congress," said a man in a book store yesterday, "I am going to introduce a bill for the suppression of fake historians. It will provide that any person caught playing their craft shall be sentenced to six months, twice a year on the rock pile until they promise to be good." "What do you mean by fake historians?" asked another customer. "I thought there was more or less of it in all history, except, of course, historical novels."

WALL OF PREHISTORIC AGE.

Remarkable Construction Found in an Old Wall Extending from near Raymond in the southern portion of Hinds County to Brandywine, in the county of Claiborne, some forty miles to the southwest, and it is possible a full investigation will be made before any contracts for the stone work for the capitol is awarded.

The existence of this great wall has been known for many years, but all previous efforts to interest archaeologists and other scientists have proved futile, they having been misled by the idea of any such prehistoric wonder in the great valley of the Mississippi. But the wall is there beyond all question, and so accustomed have the inhabitants of the vicinity become to its presence that their curiosity has become dulled, and they have long since ceased to wonder as to its origin.

As stated, the old wall is traceable for some forty miles—but not without numerous breaks caused by the washings and the accumulations of ages burying long stretches below the surface of the surrounding country, but once the general direction is fixed the explorers has little trouble in finding where it next crops above the surface. The average height of the wall above ground is only three or four feet in the best exposed places, but here is no telling how deeply imbedded are the bottom layers. In some level stretches where the entire top of the wall is still above the surface, it is from ten to forty feet wide and as solid as it could have been when first laid. The stones average six feet long, three feet wide and two feet thick, and are estimated to weigh from two to three tons. They are roughly but accurately squared and dressed and imbedded in as fine an article of cement as any masonry of the present century need ever want to see. So tightly and firmly are the great stones joined together that it requires considerable exertion with pick and crowbar to loosen them from their ancient beds.

It is understood here that a party of archaeologists and other scientists are preparing to visit Mississippi for the purpose of exploring the old wall.

COURTESY IN ONE'S HOME.

Observe Society's Rules and Children Will Never Be Ill at Ease.

Growth of Population in Germany.

The growth of Germany since the war with France is the most remarkable phenomenon of modern Europe. Since the treaty of peace was signed in 1871 Germany has not extended her territory by a single acre on the continent of Europe if we except the acquisition of Heligoland, but she has increased her population by 16,000,000. The Germans numbered 40,000,000 in 1871; they number 56,000,000 now, and yet, although there are so many more mouths to feed, the Germans are better fed, better clothed, and in every way more prosperous than they were then. This is attributed largely to the fact that for twenty years Germany devoted herself to improving the elementary education of her people.

Unmarried Men and Women.

Taking the Australian colonies in the aggregate, there are only seventy-five unmarried females for every one hundred unmarried males. In New South Wales alone, according to the last census, there are nearly 100,000 more unmarried males than unmarried females; in Victoria the excess is upwards of 75,000; in Queensland it is almost 57,000; in Southern Australia, 17,000; in Western Australia, 9,000; in Tasmania about the same; and in New Zealand, a little less than 44,000.

When the Hair Falls Out

accompanied by mucous patches in the mouth, eruptions on the skin, sore throat, copper colored spots, swollen glands, aching muscles, rapid headway, and far worse symptoms will follow unless the blood is promptly and effectually cleansed of this violent disease.

S. S. S. is the only safe and infallible cure for this disease, the only antidote for this specific poison. It cures the worst cases thoroughly and permanently.

In the fall of 1897 I contracted Blood Poison. I tried three doctors, but did me no good. I was getting worse all the time; my hair came out, ulcers appeared in my throat and mouth, my body was almost covered with copper colored spots and offensive sores. I suffered severely from rheumatic pains in my shoulders and arms. My blood had become so poisonous that I was unable to understand my sufferings. I had about all I could bear of ever being well again when I decided to try S. S. S., but must confess I had little faith left in any medicine. After taking the third bottle I noticed a change in my condition. The sores were truly encouraging, and I determined to give S. S. S. a thorough trial. From that time on the improvement was truly surprising, and I was soon free from the disease completely under control; the ulcers and sores healed and I was soon free from the disease of the disorder. I have been strong and healthy ever since.
