In buying up cows lately J. S. Baker says he has found more of them in the country than he has ever seen before. Farmers have been saving their heifers for the past two or three years and nearly every one he met had one or more to sell. Good cows are good property to own.

A very pretty home wedding was solemnized on Wednesday, January 16, at the home of Mr. and Mrs. James Lawrence, in which their daughter Mary A. was united in marriage to Alex Aitken of Portland. Rev. As an object lesson on the financial conditions of the people we refer our readers to the annual statement of the Bank of Newberg given elsewhere. For a town of 1300 inhabitants, and without any large manufacturing concerns, a deposit of over sixty thousand dollars in one of the two banks, reads much as if prosperity might be turned loose in our midst. Bank deposits are generally considered pretty reliable sign boards.

The regular meeting of the anti-saloon league was held in the Friends church Tuesday evening when good addresses were made by Rev. Barr and Rev. Launer. The trend of the sentiment expressed was that there is no reasonable doubt that quantities of liquor are being sold in this town and that the Christian and so-called temperance people are largely to blame for it because of their passive attitude; that there are too many "invalids" in this town and that if it got out how many prescriptions were being written and filled to keep some people in good health, Newberg would have the reputation of a very sickly place; that force is being mustered, and sentiment increased in favor of a saloon, and lastly but not least that the people of Newberg should work as hard against the un-licensed as the licensed saloon.

For sale by C. F. Moore & Co. druggists.

J. S. Baker left here on Thursday morning with a car load of dairy cows for a point on the Sound half way between Tacoma and Seattle. He drove to Portland and intended to ship from there. The cows were bought here and there among the farmers and Mr. Baker said he would sell them out on his arrival at his destination if he found a satisfactory market, and if he fails in this, he intends to milk them.

Water may be a common, 13 months affair with us, but there is always a great deal of interest manifested just the same when the old Willamette gets on her periodical spree. As a result of the recent rains and melting snow the river rose steadily and swiftly until it came within about ten feet of the mark reached in the memorable flood of 1890. The water was running over the point at old Wynooki landing Wednesday, the fourth time it has done so, Reube Everest says, since 1847. The flood reached its highest about Wednesday evening, when there was a steady and continual stream of visitors to the river. The water began to recede yesterday morning.

The city election held Monday resulted in the following vote by wards. First ward—Mayor, G. C. Carl, 38; Treasurer, S. M. Calkins, 40; Recorder, Joseph Wilson, 32; Ore Price, 10; Councilman, Wm. Stratton, 35. Second ward—Mayor, Carl, 58; Treasurer, Calkins, 57; Recorder, Wilson, 35; Ore Price, 25; Councilman, C. K. Spaulding, 59. Third ward—Mayor, Carl, 58; Treasurer, Calkins, 52; Recorder, Wilson, 11; Ore Price, 49. Councilman for short term, Seth Mills 53; for long term, W. W. Hollingsworth 27; T. B. Duncan 33. This vote elected Price recorder over Wilson, the republican nominee by six votes, the other nominees being elected with the exception of one councilman in third ward. When G. C. Carl, nominee for mayor stepped up to vote, a surprise was sprung in the discovery that he had not lived within the corporate limits long enough to enjoy that privilege. This of course prevents his serving as mayor, at present at least, and the council will have to fill the vacancy.

The youngest daughter of Mr. and Mrs. W. N. Sutton was taken sick the first of the week and on Tuesday the doctor pronounced a case of diphtheria, and had Mr. Suttons quarantined. The other little girls, with the Harris girls who have been making their home there, have dropped out of school for the present and are with their grandmother, Mrs. Townsend.

The annual meeting of the stockholders of the Chehalis Valley Bank was held last Monday in the bank parlors. The cashier presented his annual statement of the transactions of the bank for the past twelve months up to Dec. 31, which showed a very gratifying increase in business over that of any other year, and also that the financial condition of the institution was in every respect satisfactory to the patrons and officers. No change is made in the list of directors for the coming year.

From the College.

The Crescent literary society is arranging for an entertainment to be given soon in the college chapel.

The beautiful sunshine that should be a blessing to all, quite turned the heads of some people, and recitations were forgotten, all work suspended and a general good time indulged in.

The people from canyon hall give very pleasing accounts of Miss Macy's abilities to rule them. But far more proficient is she in the culinary department. Long ago we heard of Mary who had a little Lamb; and now we hear of Miss Macy who has a little market basket.

A college string band has been organized with the following as musicians: Prof. Kelsey, mandolin; Owen Maris, banjo; Carrie Turner and Orlando Heacock, violins; Mrs. Douglas and Dwight Coulson, guitars; Nervis Wright, organist. This aggregation gives promise of great musical ability, having already acquired all that could be asked of one of the essentials—volume.

The faculty, the faculty; why they are quite in demand now-a-days; that is their picture are. Every noon some aspiring picture taker arranges them in artistic style; and then—well it does not always spoil the instrument. No solution has been given for the picture problem, but it is known, that certain students are furnishing Puck with comic cartoons. Wonder where they get their subjects?!

The college Y. M. C. A. gave a social in the library Saturday evening to the boys of the college and alumni. Various games such as crokinole, miniature base ball, and a revised edition of drop the hankerchief were indulged in, interspersed with story telling. Emmer Newby gave an account of his recent trip to California. All enjoyed themselves immensely and unanimously voted in favor of another such occasion in the near future. We move to amend however, by asking in the young ladies next time. The evening closed with three cheers and a tiger for old P. C.

Brought Good Fortune.

A small item in his own paper lately brought amazing good fortune to editor Chris. Keltner, of the Saginaw (Mich.) Post and Zeitung. He and his family had the Grip in its worst form. Their doctor did them no good. Then he read that Dr. King's New Discovery for Consumption, Coughs and Colds was a guaranteed cure for La Grippe and all Throat and Lung troubles; tried it and says: "Three bottles cured the whole family. No other medicine on earth equals it." Only 50 cents and \$1 at C. F. Moore and Co. Trial bottles free.

The locks are under twenty feet of water and the banks are undermining on both sides of the river in a serious manner. A gang of men have been busy for a week or two filling in the holes that have washed out, putting in stone and sacks of sand in the whirlpools. There will be work there for a crew of men and teams all summer while if they had been located in the proper place on the falls it would take but little expense to keep them in repair.
