Dragged-Down Feeling

In the loins.

Nervousness, unrefreshing sleep, despondency.

It is time you were doing something.

The kidneys were anciently called the reins—in your case they are holding the reins and driving you into serious trouble.

Thousands of testimonials prove that

Hood's Sarsaparilla

a purely vegetable compound, acts with the most direct, beneficial effect on the kidneys. It contains the best and safest substances for correcting and toning these organs.

It thoroughly cleanses the blood and strengthens all the bodily functions.

Two Good Laws.

In Denmark the farmers are compelled by law to destroy all weeds on their premises, and in France a farmer may prosecute his neighbor for damages if the neighbor allows weeds to go to seed. It would save millions of dollars in this country if laws prevailed which prevented farmers from growing weeds to seed on their own as well as others' farms.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

Black Diamonds Valuable.

Black diamonds are comparatively rare and correspondingly high priced. They are three or four times as hard as the white ones and fire cannot harm them, however great the heat, but if a drop of water should touch them while heated they will explode, and leave nothing but a little heap of sand in their place.

CANCER

Sufferers from this horrible malady nearly always inherit it—not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs through several generations. This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer makes its appearance—or a swollen gland in the breast, or some other part of the body, gives the first warning.

To cure Cancer thoroughly and permanently all the poisonous virus must be eliminated from the blood—every vestage of it driven out. This S. S. S. does, and is the only medicine that can reach deep-seated, obstinate blood troubles like this. When all the poison has been forced out of the system the Cancer heals, and the disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows:

A small pimple came on my jaw about an inch below the ear on the left side of my face. It gave me no pain or inconvenience, and I should have forgotten about it had it not begun to inflame and itch; it would bleed a little, then scab over, but would not heal. This continued for some time, when my jaw began to swell, becoming very painful. The Cancer began to eat and spread, until it was as large as a half dollar, when I heard of S. S. S. and determined to give it a fair trial, and it was remarkable what a wonderful effect it had from the very beginning; the sore began to heal and after taking a few bottles disappeared entirely. This was two years ago; there are still no signs of the Cancer, and my general health continues good.—MRS. R. SHIRER, La Plata, Mo.

SSS is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Send for our free book on Cancer, containing valuable and interesting information about this disease, and write our physicians about your case. We make no charge for medical advice.

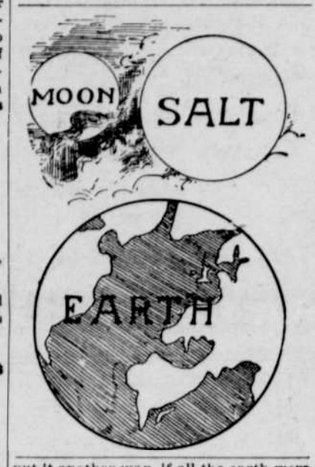
THE SALT IN THE SEA.

Nearly Three Times as Much Salt Water as There Is Dry Land.

Very few people realize what an immense amount of salt there is in and upon this earth of ours. In the first place there is nearly three times as much salt water as there is dry land. And the salt in it is an almost incredible quantity. Roughly speaking, salt is about one-thirteenth of the weight of sea water. Taking the 130 odd million square miles of the five oceans to average a mile and a half deep, we get something like 7,000,000 cubic miles of salt. If it were all taken out and spread over the land the six continents would be covered with the snowy powder to a depth of over 200 feet. Or, to



put it another way, if all the earth were salt water there would be enough of the flavoring principle in it to make two moons of solid salt nearly as large as our present satellite.

How did all this salt get into the five oceans? It is a big question and it has a wonderful answer—an answer that goes back to the beginning of things. When the earth was a half-cooled body all the water now upon it was floating above the hot surface in mighty clouds of steam. As the earth went on cooling its chemical processes set free vast masses of what the chemist knows as chloride of sodium, what we call common salt. This lay on the ground in a kind of frosty deposit. When the earth got cool enough the floating clouds came down in a deluge that may have lasted for ages, and, melting the salt deposits as they rolled over the ground in countless rivulets, swept it into the deepest hollows of the earth's surface and formed the salt seas. So the sea has always been salt.

But the salt in the sea is not all the salt there is in the world. There is a large quantity in the rocks and the soil, a fraction of which is carried year by year into the oceans by the rivers. Yet the ocean is not getting salter. This is because the sea creatures take up salt into the structure of their bones and shells, and when they die and leave these to lie upon the ocean bed the salt remains locked up, as it were. Nature is a famous accountant, and balances out her profit and loss to the uttermost penny.

"HEROINE OF INDIA" WEDDED.

Lieut. Col. of the Salvation Army Is the Bride of a Staff Captain.

Born of a well-to-do English family, educated for the stage, attracted to the Salvation Army by the opportunity to do good which its service offered, beautiful Alice Lewis has risen to the highest rank held by a woman in the American organization and now, as the wife of another officer who, like herself, is of staff rank, she will be able to do even abler work for the army than before.

MRS. JOHNSON.

Staff Captain John Johnson, who was married recently to Miss Lewis by Commander and Mrs. Booth-Tucker, is a hero among Gen. William Booth's soldiers, and he married a heroine. Miss Lewis spent a number of years in the Indian service of the army, being attached to the staff of the Booth-Tuckers there. She had many narrow escapes from being killed by natives, and won the soubriquet of "Heroine of India."

Her husband braved death in Africa, and on one occasion was only saved by his own ingenuity, having been condemned to death, when he brought stratagem to bear to secure release.

At the Other End.

A certain naval officer was very pompous and conceited when on duty.

One day, when he was officer of the watch, and he could not, as usual, find anything of consequence to grumble about, he attempted to vent his spite on one of the stokers of the vessel, who was in the engine-room, on duty.

Going to the speaking tube, the officer yelled:

"Is there a blithering idiot at the end of this tube?"

The reply came quick and startling:

"Not at this end, sir."

The feelings of the officer, as he turned away with a black frown, can be better imagined than described.—London Spare Moments.

Work and Worry

Wreck the Health of Many a Housewife—The Story of One Woman's Trials and How She Overcame Them.

From the Post, Columbia City, Ind.

The every day drudgery of the house wife is extremely wearing upon her sensitive and frail nature.

Many are prematurely broken down in health, their cherished hopes blasted, their home-life unhappy, because of the constant care and worry of housework.

That home is indeed fortunate in which the wife is in perfect health and able to do her own work, in fact such a home is a rarity.

Mrs. George Heaton, who lives near Columbia City, Ind., says:

"During the early part of the winter of 1896 we had a great deal of sickness in the family, and it being impossible to find a suitable girl to do my housework, I had to do considerable extra. My daughter and two sons were confined to their beds with the grip.

"I had a great many clothes to wash, and I did the washing in the summer kitchen, adjoining our regular one, without any fire. As a result I was attacked with sciatic rheumatism. At first I did not give much heed to it.

"It kept growing worse, however, and in the course of two or three months I was unable to do any work. By this time my daughter had recovered sufficiently to get along very well with the housework.

"One night my husband was gone from home over night on business, and, my daughter being overburdened with work, I concluded to milk the cows, which I did much against her wishes. My limbs were so badly affected that I could hardly get to the barnyard, and my hands and fingers were in such a condition that it was with great difficulty that I used them.

"I was worse than ever after this, and I was confined to my bed for more than ten weeks.

"It seemed that every muscle in my body pained me, and my condition was a critical one. The physican failed to benefit me, and I became discouraged.

"I was prevailed upon to try Dr Williams' Pink Pills for Pale People, which I did with wonderful results.

They began helping me at once, and when I had taken five boxes I was cured.

"My appetite is again good, lost flesh has been restored. I spent the summer in the best of health, and can now do as much work as ever. I have recommended Dr. Williams' Pink Pills for Pale People to a number of my neighbors, who are also using them with satisfactory results."

At druggists or direct from Dr. Williams Medicine Co., Schenectady, N. Y., 50 cents per box, or six boxes for $2.50.
