The Christian Endeavorers held a very pleasant social in the basement of the Friends Church last Friday night, one of the principal features of which was the trimming of the ladies' bonnets by the gentlemen, the different displays of millinery being worn by the fair possessors to the bountiful spread of refreshments which followed. From the standpoint of artistic display an Easter Millinery opening in comparison would appear decidedly prosaic.

J. S. Rees who spent several weeks visiting in Illinois, Indiana and Missouri arrived here last Saturday evening and has been spending the week calling on his friends about town. He visited Verrillon Grove, Illinois, where he was brought up and after an absence of thirty years he did not meet a man on the streets that he could recognize at sight. Jim will probably go to Hot Lake and work at carpentering during the spring and summer.

Early Sunday morning Reuben Hodson, who has long been in feeble health, died at his home on Wynooki street. The funeral services were conducted at the Friends church Monday afternoon by the pastor and were quite largely attended. The deceased was born in North Carolina in 1828, moving from there to Henry county, Indiana, and thence to Oregon, having resided in this locality about twelve years. He was a birthright member of Friends church, retaining his membership until 1870 when he united with the Wesleyan Methodists, with whom he continued in fellowship until his death.

Rev. F. C. Stannard, who has had charge of the college boarding hall this year, has resigned his position to accept the pastorate of the Baptist church at Newberg. He moved with his family to that city on Wednesday. Another steward will be obtained soon. Rev. Stannard is well liked at Newberg and has one of the best Baptist churches in the valley.—Reporter.

Rev. Stannard is beginning his work here very successfully we understand and is making a good impression among us. They are occupying the Terrell property just south of J. T. Smith's.

It has been many a day since a better lecture has been heard in Newberg than that given Tuesday evening by Dr. Wise of Portland on "The Meaning and Mission of Judaism." Presenting a type of perfect young manhood, his earnest words are given peculiar emphasis. In speaking for his religion he dwelt forcibly upon the high standard of virtue held by the Jews, their generosity to the poor, and the peculiar sanctity of the Jewish home, without which the identity of Israel would have never been kept. Dr. Wise deplored the spirit of intolerance which would always refer to his people as "Christ killers" but pleaded eloquently for that toleration which with all our individual beliefs, unites us to perform better our common mission of service to God and fellow-man. The speaker made an excellent impression upon his hearers and the wish is no doubt general that he may visit Newberg again.

"An Interesting Parallel" is proving a deadly boomerang.

The patient public has listened to a certain orator one, two, three years—conscious of the lapse of time.

A malignant case of plagiarism has been developed against the editor of the Reporter. This man has been found guilty of this awful crime and will consequently be handicapped for life. In last week's Reporter four words were "taken bodily" from a well known hymn. Eloquence of expression is easily obtained by parroting off the thoughts of others for one's own, but this very fault is the substance of an unwritten law governing such articles. We realize it is a great temptation to fill in the hard places with "lifted" expressions, but—"YIELDING IS SIN."

We are all waiting submissively for Mr. Wallace's next oratorical production. It will certainly be a masterpiece such as human ears in the annals of all history have never listened to before, (or after) for he must use no word that mortal man has ever uttered before, he must choose for his subject something yet to come, he must compose in solitude lest he draw an inspiration from the world—and then with that "marvelous voice," piercing, resonating and voluminous—can we wonder that a sigh for a balm in Gilead reaches a long suffering public?

The Passion Play.

A stereotypical reproduction of the Passion Play is to be given next Tuesday evening in the Friends church, and as some of our citizens do not understand the nature of the evening's entertainment, or do not even know clearly what the Passion Play is, we give here a short explanation.

The Passion Play itself is a dramatic reproduction of Passion Week or the last week of Christ's life in and around Jerusalem, ending with his crucifixion, the resurrection and the ascension also being represented however. In a little mountain village in the province of Bavaria, Southern Germany, there lives a plain peasant folk, which, every ten years, chooses characters from among themselves, and act out those closing scenes of the life of Christ. This is what has made the unpretentious little village of Oberammergau world famous. The inhabitants are a deeply religious people and in their simple, homely lives, they endeavor above all else to live in the spirit of passion week so that in the great Play they may be able to portray spiritually as well as otherwise the events of the great week in the world's history. Visitors from all over the world come to this little village once in ten years to see the remarkable reproduction, the latest one being given last summer.

The Play is divided into three parts, aside from the introduction. Part I, covers the period from Christ's entry into Jerusalem to the betrayal; Part II, from the arraignment before Annas to the scourging and the release of Barabbas; Part III, from the journey to the cross to the ascension. In the various scenes accompanying prototypes are also given, taken from the Old Testament. It is only the few at best who can have the privilege of seeing this grand Passion Play, but photographic views have been taken, and adapted to stereopticon use, so that all can enjoy the treat at home indirectly. This is what Newberg has an opportunity of seeing reproduced next Tuesday evening.

Rolling Mill Consumption. Seven out of every ten men who work in rolling mills, iron foundries and glass factories die of consumption. You know how early in life these men pass away. The usual symptom is a lingering, persistent cough—sometimes short and hacking, sometimes hard and dry. The patient grows weaker and thinner day by day. Health eventually collapses. The trouble comes from intense heat, and the constant inhaling of the fine particles of dust and iron that fill the air. These particles, under a microscope, show rounded, sharp edges, which tear and mutilate the delicate lining of the throat and lungs. Perforated areas are thus formed, and here it is that the germs of consumption find a place to feed and multiply. Acker's English Remedy was discovered in England, and is the only cure in the world for Rolling Mill Consumption. It binds up the sores, strengthens the mucous membrane of the breathing organs, permanently stops the cough, builds up the constitution and imparts vigor to the whole system. It makes clear eyes of it restores you nothing, one little dose, restores. Try it. What it has done for many others it will also do for you and your loved ones.
