What will become of all of the fruit this year if crop conditions are favorable? Give the cannery a chance to answer the question.

A. C. Stanbrough, who has been principal of the school at Aurora for several years, has lately moved back to Newberg and will take charge of the home place north of town.

As an expanding agency for our town and vicinity a good cannery can't be beat. Our citizens should not let the proposition for such an enterprise filter away or go by default.

Mr. and Mrs. Woodard Charles of Portland, came up Saturday evening and made their first visit with the home folks, in the capacity of a family. They returned Tuesday morning.

The way in which a host of new wheels has been whizzing and whirring along the sidewalks the past few days has made life dizzy and uncertain for timid pedestrians. But there'll come a time, after May 1, when the bike fiends will be relegated to the middle of the road.

In the oratorical contest of the University of Washington at Seattle last Friday evening, Leon Kenworthy, who graduated here last year, took second honors and received a silver medal. By the way Leon is one of the first of the alumni to sign up a pledge for the payment of his share in lifting the debt from Pacific College.

F. J. Martin, formerly secretary of the Oregon Fire Relief Association, together with several gentlemen at Seattle have organized the Northwestern Mutual Fire Relief Association, with headquarters at Seattle. A. L. Piper is president and Mr. Martin secretary. Mr. Martin went to Seattle yesterday morning.—Telephone-Register.

Al Towler who moved down from Touchet, Washington, last week is very enthusiastic over the dairy business. He has been operating a skimming station for a large creamery for several months and has gained a good knowledge of the business, and he says the farmers around Newberg will do well to patronize the creamery if they know what is good for them.

Hon. J. C. Nelson has among his keepsakes a picture of two of his old time friends which he prizes very highly. It was taken about fifty years ago when paper was very scarce in this country and instead of paper the artist used a little piece of leather about two inches square. The back of the piece shows nothing but the plain leather while the front has a coating of the artist's chemicals. The picture shows good work and is well preserved. It is a picture of A. M. Pos and Col. B. F. Shaw, one a Whig and the other a Democrat, who came across the plains with Mr. Nelson and both settled across the Columbia in Washington where they each represented their respective parties a number of times in the legislature.

Certain "noisome pestilences" and loud conduct in general of evenings to which our citizens have been subject more or less within the last few weeks evidence the fact that there is a spirit of rowdiness being fostered by some boys in this town, that needs attention. And this attention needs not to be paid the younger ones that take part in it, but to a very few rowdies who wear full sized men's clothes, who have quickly made an unsavory reputation by leading and encouraging young boys in the habit and practice of disorderliness. Hanging around church doors on Sunday evenings and disturbing services in a way for which ten year olds would be spanked should not be tolerated in those twice that age and more. If the hospitality of the city marshal for a night's lodging were extended occasionally, the effect might prove beneficial.

There are now four aspirants for the Dayton postoffice, and there is some hard work being done to secure the plum. The candidates as far as known at present—others may loom up—are August Detmering, the present incumbent, Hon. J. T. Gowdy, C. W. Powell, Mrs. Wm. Barrett. Of course each one has their friends who feel confident that their candidate has the longest pole to knock the plum. Time will tell.—Dayton Herald.

The debaters will be Carl Nelson, Edwin Hatch, Mark Wolf, Robert Jones, Emmer Newby and Carroll Kirk.

Along in the winter an enthusiastic meeting of our business men was held in Crater's hall when about three hundred dollars was subscribed for the sole purpose of advertising Newberg. Everybody was intensely interested, gave liberally, and one would have supposed naturally, that the praises of Yamhill and Newberg would soon be sung continuously from the majestic roll of the Pacific to where the proud Atlantic chafes her strand. One collection was made and that's the last we have heard of the matter. Inquiry elicited the rumor that the money had been placed in the bank. If so, we hope it is drawing interest, as all other interest seems to have peacefully disappeared. Meanwhile the desired immigrant is passing by on the other side.

The boys are entering heartily into athletic work preparatory to the field meet, which will take place at McMinnville about the second of June.

There seems to be a sort of monopoly on the tennis court. To be sure this is very pleasant for a few but for those who must look on it is not so amusing.

Some of our worthy professors are devoting a good deal of their spare time to athletics and it is certainly encouraging to the boys, for their instructors to take an interest in such sport.

The botany and surveying teachers are staunch believers in fresh air and exercise as mental developers, for they take their classes on long rambles, the one to find the latitude the other a dandelion.

When a chapel talk starts out with these well known words, "There seems to be a growing tendency on the part of a few of us"—then everybody knows what's coming, for they have either been basking in the sun, destroying library property or devoting too much time to their next door neighbor.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery, at 1658 Milwaukee Av., Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by C. F. Moore & Co. druggists.

"Is God's Good Blessing" "I feel that God has blessed Dr. Acker with special knowledge to prepare that grand medicine called Acker's English Remedy for Throat and Lung Troubles. It saves children every time when they are attacked by croup. Every mother should know about it, and I will tell about my experience. I had a darling boy of four years to die with croup. My doctor did all he could, but the child could not be made to vomit. That was before I knew of Acker's English Remedy. After I did hear of it, I got a bottle. When our little eighteen-months-old girl was stricken with croup, I gave her this medicine, and inside of twenty minutes she vomited and was better right away. During the winter she had croup four times, and it brought her through each time all right. I, myself, had bronchitis pretty bad, and Acker's English Remedy cured me completely. Before I close, I want to tell you of my neighbor's boy, named Jobe Nana. He had bronchitis, too. He got worse all the time. My husband went over to his house and told him about my case. Then his mother went to town, got a 50-cent bottle of Acker's English Remedy, and he took it. He came over to our house a few days later and said he was all right, and also said two doses relieved him from the start. You can understand by my letter why I think so much of Acker's English Remedy. I repeat that God's blessing must surely have been bestowed upon Dr. Acker." (Signed) Mrs. JOHN YEAGER, Rochester, Pa.
