

Some Democrat papers are insisting that tariff revision must be made the issue of the next campaign. Well if it's to the political bone yard the democrats must go for an issue, we suppose it may as well be this as something else.

As the people of this country of ours have decided in favor of a sound protective policy, an exchange suggests that it should be adhered to until they show a change of opinion. When they have grown rich and fat and feel the need of another dose of free trade or tariff for revenue only, to reduce their condition, they will say so. Till then our treaty makers should let the tariff alone.

The day of miracles has not gone by, and there is now and then a gleam in the darkness which indicates the possible arrival even yet of that "golden age" which college orators tell us about. Last Saturday Ripley of Kentucky, accused of complicity in the assassination of Goebel, was acquitted by a Kentucky jury, ever member of which was a democrat.

The name finally decided upon for the Northwest centennial celebration of 1905 is, **LEWIS AND CLARK CENTENNIAL AND AMERICAN PACIFIC EXPOSITION.** The motto and trade mark of all exposition literature is to be the very appropriate quotation, "Where Rolls the Oregon."

President McKinley has cheerfully consented to break ground for the 1905 exposition of the Northwest, on his arrival in Portland on the afternoon of May 22. This will give a big boost to the warty cause, and it is sincerely hoped that a generous share of that proverbial "McKinley luck" will be transferred to the big fair by that first spadeful of dirt.

C. H. Markham, general agent of the Southern Pacific railroad, expressed a sensible statement, and one that it would be well to impress upon boys and youth, when he said: "I would rather be a first class mechanic and toil with smutty brow and grimy hands than a second-class lawyer or doctor."—West Side.

And C. H. no doubt thinks he would rather have a first-class job with the S. P. Co. than be either. And we don't blame him if he does.

On top of all the alarms expressed by democratic papers over the extravagant imperial tendencies of the Nation as shown in the last inaugural ceremonies, comes the report of the inaugural committee which shows that the receipts exceeded the expenditures by a neat sum. This fact has given inspiration to the sage observation that imperial magnificence with a surplus is rather to be chosen than Jeffersonian simplicity with a deficit.

The Boers seem about to have made the war so expensive as to force England to make a necessary change in her time honored free trade policy and place a tariff on some of her main staples of consumption. In this case Oom Paul will have fully fulfilled his prophecy of "staggering" John Bull, to say nothing of the staggering effect on free trade enthusiasts and theorists on this side of the water whose favorite free trade fetish will then have been hopelessly shattered.

In his "Commoner," Bryan says rather roughly: "The indications are that long before Tesla gets telegraphic communication through the earth, Morgan will have a railroad around it." Taking into consideration the opening up of new fields of opportunity for rear platform oratory which would result from such a proposition, we can't see what Mr. Bryan would have to kick about, if Mr. Morgan should conclude to make it a half dozen railroads instead of one.

On the publication of Aguinaldo's address to the Filipino people, Chas. A. Towne said, "I see nothing in the proclamation on which to base any imputation on the good faith of Aguinaldo." It strikes us that Mr. Towne must have been a little inadvertent to say the least, in thus speaking of his yellow little idol, the inspiration of some of his wildest flights of oratory. Who would have ever thought of accusing George Washington of issuing a proclamation merely as a cheap means of personal preferment?

The most ridiculous behavior yet exhibited on the part of the "Antis" is their continued wall that the capture of Aguinaldo by a strategic move on the part of Funston, was unjustifiable and a disgrace upon the United States. It merely shows to what childishness a continued course of copperheadism will reduce people. Prof. Woolsey, a recognized authority on the rules and codes of warfare, says in regard to the matter, "The question is thus one of ethics and policy, not of law. But to allow the insurgents to assassinate, to put on and off the military character, occasionally to kill prisoners, and to violate the white flag, while at the same time exacting specific observance of the nicest rules of civilized warfare from the Americans, is not a question of either law or ethics, but of common sense."

From The College.
 Rev. A. M. Bray of Portland conducted chapel exercises on Wednesday morning.
 Our orator will deliver his oration in Prof. Kirk's room on Friday afternoon for the benefit of the public school.
 A certain small boy fell dreadfully sick a few days ago, when he was informed that he might read his literary production in chapel, having failed to come up with it at the proper time. We hope to see him back soon and promise to be considerate of him.

It has been rumored that President McGrew will be back the first of May. We hope this is true for everyone is anxious to see him.
 Although the measles is generally considered to be a children's disease, it is making quite a raid in college. A number of the preparatory students are absent on account of it and even some of the upper classmen are crestfallen to find themselves smitten with the plague.
 The debaters are doing some good work, and their sorrows will soon be over.
 Prof. Kelsey's tandem ride was all right—all except the next morning.
 Miss Lucetta Bailey who has been sick for several days, has dropped her college work for the present and returned to her home near Newwood.

Public School Notes.
 On the 18th Rev. Gould gave an exceedingly interesting talk to the assembly of the two upper rooms. His subject was "Crater Lake."
 The little fellows on the west side of the play grounds have fine sport out-running the locomotive, when it comes in on the side-track.
 The teachers are intending to go in a body to the institute at Amity tomorrow.
 And again the 8th grade examination has been postponed—this time till May 15, 16 and 17. It seems that either the county or state superintendent has made a mistake. This puts the examination after the close of school, which is not very satisfactory to the scholars or their teacher either.
 An effort is being made to improve the marching and it is now very much better. The scholars take a great deal of interest in making a nice appearance in the line.

He Kept His Leg.
 Twelve years ago J. W. Sullivan of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, but, he writes, "I used one bottle of Electric Bitters and 1 1/2 bottles of Bucklen's Arnica Salve and my leg was sound and well as ever." For eruptions, eczema, test salt rheum, sores and all blood disorders Electric Bitters has no rival on earth. Try them C. F. Moore & Co. will guarantee every bottle or money refunded. Only 50c.

"Played Out"

Is one of the curious expressions used for *worked out*. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heats inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills.
 "I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Mary Shappell, of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the house work for three in the family. I had such pains that I suffered almost death dozens of times, but after taking five bottles of your medicine I can truthfully say that my health was greatly improved. I have a good appetite and am gaining in flesh right along. This spring is the first time in five years that I have done my house cleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done."
 "My gain in weight has been just ten pounds, and I am still gaining."
 Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or for cloth-bound book, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

It is better to be right than president but the salary is much smaller.
A Hazing, Hoarding Flood.
 Washed down a telegraph line which Chas C. Ellis, of Lisbon, Ia., had to repair, "standing waist deep in icy water" he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for coughs, colds, and all throat and lung troubles by C. F. Moore & Co. Price 50 cents and \$1.

For Malaria, Chills and Fever

THE BEST PRESCRIPTION IS
Grove's Tasteless Chill Tonic.
 The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the *Original* and that all other so-called Tasteless Chill Tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
