The Friends church was filled Sunday both morning and evening with regular Yearly Meeting audiences, gathered to hear the colored minister, Rev. Daniel Drew, lately of Arkansas. On both occasions, strong sermons were preached, so free from the mannerisms generally accredited to the average colored exhorter, that the race of the speaker could not have been detected by one not seeing him. Having been a slave and illiterate up to the time of early manhood, the education and fluent and correct use of English which he has obtained since is little short of remarkable. He will probably attend Friends Yearly Meeting here in June.

W. K. Allen arrived home Saturday evening from his extended Eastern trip, taken for the purpose of investigating the evaporated prune markets of the Eastern states. On his way out he visited St. Paul, Milwaukee, Racine, Chicago, Buffalo, New York, Philadelphia, Baltimore and Washington, coming back by way of Niagara Falls and through Ontario and Michigan to Chicago. Wherever he went he talked freely with the fruit dealers, learning all he could besides from observation, and came back with a belief in a future for the prune industry if our prune growers will do their duty, which he says Eastern people will consume the fruit, provided it is well evaporated, instead of being cooked or baked, and is attractively prepared for the market. Especially is this true the farther east the fruit is shipped. There is no use in trying to market "stuff" we won't eat at home. Mr. Allen says our remissness in this particular has resulted in California prunes, naturally inferior to ours, bringing invariably a cent more per pound than the Oregon Prunes.

Having been rained out on their previous attempt, the college boys finished their athletic carnival on the campus Monday afternoon. Clint Newhouse proved to be the "star" of the sprinters, winning all the short runs up to and including the quarter mile run. Several of the boys have good athletic ability but nearly all show a deplorable lack in hard and consistent training, which is due more to the want of somebody with authority to take them in hand, than to any unwillingness on their part to do their best. They are scheduled to go over to Forest Grove tomorrow to hold a dual meeting with the university boys. Instead of discouraging them it is hoped that this contest will influence the boys to get in and make up for lost time as near as possible before the state college meet at McMinnville two weeks hence.

Jones, Carroll Kirk and Emmer Newby rehearsed their argument before the school on the Boer side of the Transvaal question, which they debate at Monmouth this evening with the State Normal, Prof. Kelsey and Mark Wolf opposing them. At the special meeting of the city council Monday evening, the petition to put bicycles off of all sidewalks was read, together with the remonstrance. Considering the urgency of other business however, the matter was laid on the table to be taken up at the next session. The electric light question was taken up, for the consideration of which the meeting was specially called, and Mr. Edwards' proposition was presented in writing, substantially as given in last week's Graphic. A general discussion of finances was entered into by the city fathers, the general trend of which seemed to be that while the lights were needed badly, and Mr. Edwards' proposition was reasonable, there was no way evident in which the city could raise the necessary \$720 a year for lighting purposes, and have anything left for running expenses. Though appreciating the force of public sentiment in favor of electric lights, the council feels that, "if we can't, how can we?" and the session closed without definite action having been taken.
