The evidence in the W. H. Meas case which was tried before Justice Wright last week was directly contradictory on all important points, and as the defendant, and the little Dietrich girl, as the accuser, were practically the only witnesses, there was no evidence to justify binding Mr. Meas over to appear before the Grand Jury.

For the past six months the friends of Pacific College have been making a heroic effort to raise the necessary amount of money to pay off the total indebtedness of the institution. The appeals that have been made have been responded to in a generous way at home and abroad and yet there remains to be done some active work in the next four days in order to raise the necessary amount. The fall amount of \$12,000 must be subscribed by next Monday night in order to make the obligations binding, and nearly \$1,000 of this amount remains to be secured. A number of people have indicated that they would subscribe to the fund toward the close of the canvass and that time is now at hand. Don't forget that little time remains in which to assist in making this effort a success.

Two or three weeks ago there appeared in the Oregonian an account of a shooting affray which took place at Walla Walla, Washington in which a girl named Effie Haworth was seriously wounded. It turns out that the young lady is a daughter of Asbury Haworth, formerly of this place, whose many acquaintances will be interested in knowing that she is slowly recovering and that strong hopes are entertained for her recovery. She was shot on the street by a jilted lover who still declares he loves her better than ever before and that life is not worth living without her. Such noble sentiment is worthy of the star actor in high life as portrayed by a cheap novel, but the fact is, that in this case the hero is a boot black.

W. K. Allen reports that business is more than rushing now at their big cannery in Salem. On Monday, Moses Votaw and Charlie Davidson, wheeling in opposite directions on First street, came into collision in front of the postoffice, and though not riding fast at all, managed to mix up rather seriously. Mr. Votaw, in the fall, struck the street with his head, cutting an ugly looking gash over his right eye, and stunning him for a time. After a little while he was carried into A. P. Oliver's office where he soon recovered sufficiently to ride on home.  
The vacancy in the faculty of Pacific College caused by the resignation of Prof. Edwin Morrison, has been filled by the election of Prof. Homer Rosenberger, of Oskaloosa, Iowa, to the professorship. He spent two summers in the mechanical department of Iowa Agricultural College and during the summer of 1900 he took special work in Chicago University. During the past year he taught in Penn College in the absence of the science professor and his work is highly commended. Besides being a thorough student he takes great interest in college athletics and it is expected that he will put new life into the athletic contests next year.

The first session of the annual assembly of the Willamette Valley Chautauque Association will be held at Gladstone Park, next Wednesday, July 3, for which thorough arrangements have been made. Speakers of national reputation have been secured, among which are ex-governor Peck, the author of "Peck's Bad Boy," General Thos. J. Morgan of New York, Dr. J. M. Bashford, president of Ohio Wesleyan University and Dr. Chas. Bayard Mitchell of Minneapolis. The various Chautauque classes are in the hands of competent instructors.

An special feature of the session is the big Fourth of July rally which the Chautauque management is making strenuous efforts to make the crowning event of the season.  
Baseball games have been arranged for each week day of the session, a seventy-five dollar trophy being offered to the winning team.

Prof. Morrison Surprised.  
On last Friday evening, while Prof. Edwin Morrison was swinging the paint brush on his residence, in the enveloping twilight, he was taken entirely unawares by the sudden descent upon him by an unidentified company of young people. Prof. beat a hasty retreat into his fortress, but treachery lurked within his doors, for the raiders were led into the parlor where a light revealed them to be members of the college alumni, with a few "annexes." In view of the departure in the near future of Prof. and Mrs. Morrison for Penn College, Iowa, the alumni here took this means of showing their appreciation of the professor's efficient and self-sacrificing work in connection with Pacific College. The gathering was a particularly lively one, and after a half hour time spent in a jolly, social way, a liberal supply of ice cream and cake was brought on and conscientiously taken care of.

As president of the Alumni Association, O. K. Edwards spoke a few fitting words in harmony with the occasion, after which he called off an informal program as follows: "The Good Old Days," Hervey Hoskins; piano solo, Jessie Britt; "Laboratory Reminiscences," Walter Parker; "Star Gazing," Jessie Britt; vocal solo, Mrs. O. K. Edwards; "Anf Wiedersehen," Gertrude Lamb. Prof. Morrison responded very feelingly, speaking words of encouragement for the future of the college and for the loyal support given by her alumni. The visitors then took their leave, an enjoyable evening having been spent by all concerned.

The bride was attired in a pretty gown of white linen batiste trimmed in white lace, and carried a bouquet of pink LaFrance roses and ferns. The ceremony was impressive by the using of the wedding ring. The young couple left in the evening for the home of the bride, Mr. and Mrs. M. J. Downs, of Newberg, where a beautiful repast and some nice presents awaited them. Mr. and Mrs. McCully will make their home in Portland. We extend them our best wishes.

## Very Unusual

It is very unusual for a regular physician of good reputation to publicly endorse a proprietary remedy. We have often heard of cases where doctors have secretly prescribed Acker's English Remedy, but it is most gratifying to receive the following voluntary letter from C. F. Moore, M. D., the most successful physician of Oregon, N. Y.:

"Messrs. W. H. Hooker & Co., New York City: I wish to add my professional testimony to the value of your English preparation known as Acker's English Remedy for Asthma, etc. In several instances, after I have tried my utmost to give even relief, I have prescribed your remedy, and it has acted almost like a miracle, not only relieving, but permanently curing every one of the patients. I endorse the preparation as one of the most valuable additions to the practice of medicine."  
Such a frank endorsement as the above is phenomenal. Coming from so distinguished a member of the medical profession, it carries with it an assurance which the public will be sure to avail themselves of. It is recommendations like this which make it possible to give the broad guarantee that is a part of every sale of Acker's English Remedy for Coughs, Colds, Asthma, Bronchitis and Consumption. It must either do all that is claimed for it, or your money will be refunded. Do you know of any other medicine sold on those terms? Do you know of any other medicines which prominent doctors regularly prescribe in their own practice as being better than prescriptions they write themselves? These facts are well worth considering. They are of especial interest to those with sore throats and weak lungs.

Sold at 50c, per and in a bottle, throughout the United States and Canada; and in England, at 1s. 6d., per and in a bottle. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee. W. H. HOOKER & CO., Proprietors, New York.
