Mrs. Dr. Hutchinson received a letter the other day from her sister in Des Moines, Iowa, saying that on a wager there, during the recent hot weather, the pavement in front of one of the large hotels was carefully swept, and an egg was fried on its surface, and having sized sufficiently to be pronounced done, was given to a pickaninny standing by, who quickly appropriated it according to its intended use. In tone with the same story, a daughter of Mrs. Julia Maris writes from Annapolis, Indiana, that a tin pail of blackberries was pickled, and being forgotten, left in the sun. When she found the berries later in the day, they were thoroughly cooked, and only needed sugar to be ready for table use. A few such object lessons as these incline us to the belief that there must be something in the report of that little hot spell they have been having in the East.

House: To Sons of Dayton. How about that creamery? Is Dayton going to let all other towns in the county get ahead of her in securing a creamery and the benefits to be derived therefrom to the community? There have been many creameries established this season in different parts of the Willamette valley, which are all prospering and adding to the wealth of the communities in which they are located. If Dayton ever gets a creamery—or anything else that will increase her wealth and add to its population—it will only be through a special act of Divine providence. It appears the same "go easy" listlessness that was displayed by the citizens of Dayton at the time they had the opportunity to secure to this town the county seat, and was too near sighted and lacking in enterprise to "get in" and work to secure the "plum," as did the citizens of their neighbor towns, who had foresight to see their opportunity to better their condition, and worked to secure it. It looks now, ladies, as though you will

have to put on your best "bib and tucker" and help the "tired" brothers to start a creamery, or some enterprise that will be a benefit and a source of revenue to this town and vicinity. Talk it over ladies, and then set to work and learn the "lords of creation" what can be done when there is a determination to work and accomplish something.—Herald.

Improvement at State Fair Ground. The State Board of Agriculture are making some wonderful improvements at the state fair grounds, and old timers will hardly recognize the place when they attend Oregon's greatest fair this fall. The old pavilion is being enlarged to double its size, and after the best exhibits ever seen are arranged there will be ample room left for an auditorium, a thing that has been needed for a long time. A brand new up to date creamery building is being erected; also where the best dairy display ever made in the state will certainly be seen. The machinery hall is being enlarged, new cattle stalls, sheep pens, hog styes, and horse stables are being built. A cozy farm cottage, hay barn, and new side-walks are also on the list of improvements, and nothing will be left undone to accommodate the exhibitor and entertain the visitor at the state fair this fall.

J. B. MOUNT, Dealer in Stoves, Hardware & Tinware. For Nearly Two Years Unable to Lay in Bed. "In my capacity as druggist, in Buffalo, N. Y., I have the best opportunity to judge of the merits of many different remedies. I am in close touch with the sick, who come into my store for medicines, and most of them tell me how they are getting along. Of all the hundreds of preparations which I sell, not a single one begins to give as much satisfaction as Acker's English Remedy for Coughs, Colds, Bronchitis, Asthma, Pleurisy and Consumption. I sell it on a distinct guarantee that it will cure, or the purchaser's money will be returned. This is a perfectly safe guarantee, because the remedy does cure. Nobody wants his money returned. Its cures are nothing short of marvelous. Take the case of Mr. A. H. Gilbert, for instance. He lives at No. 5 Carey street, Buffalo, N. Y. For more than three years he had a bad case of asthma, and had been unable to lie down in bed for nearly two years. He came to my store and asked me what to do. I said: 'Take Acker's English Remedy.' He said he had tried other remedies and didn't think this would help him. But he thinks differently now. Three bottles fixed his asthma all right. He could sleep and eat after taking them, as well as when a boy. He was cured several months ago, and is well yet, so I am certain his trouble is gone for good. You can write to Mr. Gilbert himself, if you doubt my word. He will go further than me in praising Acker's English Remedy." (Signed) S. B. THOMAS, druggist, Buffalo, N. Y.
