J. D. Nonken, whose serious illness was spoken of last week, died on Thursday evening, August 22. The funeral services were conducted Saturday forenoon at the home of his niece, Mrs. H. Nierendorf, Rev. T. Brouillette, pastor of the Presbyterian church officiating. Though the deceased, until recent years a citizen of Germany, had not long been a resident of Newberg, his kindly spirit and friendly manner had endeared him to many.

A traveling man who has been up and down the valley recently says that Newberg is the best town he has been in. If this is the case now, what will it be if coal and oil is found in the hills which skirt us on the west? It's a little early to begin counting the census on that proposition, but the people should enter into the new enterprise with the idea that if it wins the possibilities for the future development of this country are unlimited.

On last Friday evening an organization of Newberg girls who term themselves the "hoodlows," gave a pleasant lawn party at the home of Miss Pearl Cummings, to which several of the gentlemen friends were invited. The evening's entertainment was well arranged and all enjoyed themselves. The moral of the evening, brought to the eyes of several, could be expressed in the words, "Don't monkey with the lung tester until you know how it works."

For the first time, Newberg was lighted by electricity last Friday evening. Some of the business houses had been connected up, the dynamo was started, and the lights turned on, everything proving entirely satisfactory. It had been the plan to start up for business next Saturday evening, but as the young electrician, Hartwig, injured his hand a few days ago and had to lay off a few days, and as the incandescent lights have been tardy in arriving, the plant will not start up for another week.

The co-operative cheese factory of this city has just made a distribution of the dividends from the sale of cheese made in May. The dividend netted the farmers the neat little sum of 29 cents per pound for their butter-fat, while the best they could do in the Portland markets under the competitive system was 15 cents per pound. That difference of 14 cents per pound between the two systems is just like "getting money from home," and will go a long way towards making the cow more comfortable this winter.—Sheridan Sun.

Fred Jackson writes back from Wichita, Kansas, that he has secured the assistant principalship of a school in Wyoming at a good salary, for next year. His father drew a prize of a quarter section of land in the recent Oklahoma land lottery. On Thursday, August 22, occurred the death of Mrs. Millicent Nelly Cady, wife of C. C. Cady, of West Chehalis, after a short illness. The deceased was born at Gold Field Mill, Herfordshire, England, October 27, 1874, and came with her parents, Wm. and Sarah A. Grover, to Iowa in 1881, moving thence to Oregon in 1890, and was married the following year. A loving husband, two children, father, mother and one brother are left to mourn her.

Canby Heston Disappears. Since last Sunday afternoon Canby Heston has been lost to his family and friends and no trace of body or clothing has been found. He left his home on the farm near Dundee about the middle of the afternoon with the intention of crossing the Willamette river and calling on Hugh McFoland who was owing him a bill for baling hay, telling his sons that he would return in time to assist in caring for some hay that was threatened with damage by probable rain. When night came on and he did not return the family became alarmed and began a search for him. He was traced to Archie Parrot's where he inquired about an old boat and when Mrs. Parrot told him that the boat was made he remarked that he would cross the river if he had to swim and passed on down toward the river. So far as can be learned this was the last seen of him. He was a good swimmer, was accustomed to swimming the river and his supposition is that he removed his clothing and tied the bundle on his shoulder and started across but was taken with cramps and was drowned, but this is all supposition for he has completely disappeared as if he had been swallowed up by some secret opening in the earth.

The river has been dragged and the woods on both sides of the river patrolled but no trace of the missing man can be found. Canby Heston was a man of good habits and was well known in Newberg where he lived for a number of years and where he has many very warm friends who feel sure that something serious has happened to him and scout the idea that he may have left his family and the community. He has always manifested the warmest feeling for his family of eight children who were left without a mother nearly two years ago, and no one believes that he would abandon them. His mother and sister who were here from Iowa on a visit left for their home only last week, three days before he disappeared. Many expressions of sympathy for a bereaved family of children are heard on every hand as the search is continued but no hope can be held out to them that their father will be found alive. Later—Sometime about the middle of the forenoon, Thursday, Mr. Heston's naked body was found in the river, near Yeager's ferry, on the east side in about ten feet of water. News of the discovery was telephoned to Chamberlain at Sheridan, who telephoned back deputizing J. M. Wright to impanel a jury in his stead. As the crowd goes to press, he, together with several other citizens from this place, have gone to the scene of the drowning where the inquest is being held.

McMinnville Citizens Visit "Dispepsive Oil Well." As an indication of the fact that the organization of a company for the development of oil prospects in this vicinity is to be more than a mere local enterprise, a company of representative men from the county seat drove down Wednesday and met some parties from Newberg at the prospect out on the Follitt place, with the purpose of seeing and studying the indications for themselves. The party consisted of Capt. H. L. Heath, D. L. Astbury, editor of the Yamhill Reporter, F. S. Harding, editor of the Telephone-Register, ex-sheriff W. L. Warren, E. C. Apperson, cashier of the First National Bank, and Mr. McDonald. All of the gentlemen manifested an eager and intelligent interest in the indications presented in the rock and shale formations, and those posted on such conditions expressed the belief that there was something beneath their worth going after. Cap. Heath, who for some time has made a study of coal formations, and who has investigated some of the rich oil fields, is considered good authority on such subjects, and as a matter of course his verdict was eagerly awaited by interested parties from this place. After having examined different specimens of rock and shale he pointed to several in his hand with the remark that there were all the true indications of oil which anybody could ask for and

that all there was left to be done was to send down the drill, which is the only means of getting the interesting question. Pointing to a small pan of specimens he made the characteristic remark, "With those indications right there have other country on God's earth would have had the earth drilled full of holes years ago." He furthermore expressed the belief that even if oil were not found a sufficiently good strike would be made on coal to make the enterprise a pronounced success. L. H. Follitt, on whose place the prospect is located, and who first made the discovery of the indications in question, has made a thorough investigation of his place as to the presence of different chemical substances of commercial value and had many interesting specimens to show his visitors. If the venture being made proves a success it will be a fitting reward for his persevering industry in seeking to uncover the hidden resources, primarily of his own place, and secondarily of this section of Yamhill county.

POPULAR UNIVERSAL STEEL RANGE. Good Economy. J. B. MOUNT, Dealer in Stoves, Hardware & Tinware. For Nearly Two Years Unable to Lay in Bed. "In my capacity as druggist, in Buffalo, N. Y., I have the best opportunity to judge of the merits of many different remedies. I am in close touch with the sick, who come into my store for medicines, and most of them tell me how they are getting along. Of all the hundreds of preparations which I sell, not a single one begins to give as much satisfaction as Acker's English Remedy for Coughs, Colds, Bronchitis, Asthma, Pleurisy and Consumption. I sell it on a distinct guarantee that it will cure, or the purchaser's money will be returned. This is a perfectly safe guarantee, because the remedy does cure. Nobody wants his money returned. Its cures are nothing short of marvelous. Take the case of Mr. A. H. Gilbert, for instance. He lives at No. 3 Carey street, Buffalo, N. Y. For more than three years he had a bad case of asthma, and had been unable to lie down in bed for nearly two years. He came to my store and asked me what to do. I said: 'Take Acker's English Remedy.' He said he had tried other remedies and didn't think this would help him. But he thinks differently now. Three bottles fixed his asthma all right. He could sleep and eat after taking them, as well as when a boy. He was cured several months ago, and is well yet, so I am certain his trouble is gone for good. You can write to Mr. Gilbert himself, if you doubt my word. He will go further than me in praising Acker's English Remedy." (Signed) S. B. Tronax, druggist, Buffalo, N. Y. Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s, 2s, 3s, 4s, 6d.
