Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood. It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tenderness to the skin, before manifesting itself in much cutaneous eruption or glandular swelling. It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

Slow Healing Sores

With rich, pure, strong blood one is never troubled with sores or other eruptions of the skin. The blood is the life of the body, and if it is impure, the skin becomes a festering sore, tiny pimples grow to be boils, and inflamed glands often break out into offensive, slow healing sores. A polluted blood is always a menace to health; not only does it keep the skin in a chronic state of inflammation, but every organ and fibre of the body suffers from an impure and sluggish circulation. You never feel well, you are not and never can be well until the system is relieved of its terrible load of impurities. With the blood so contaminated, so deeply poisoned, ulcers, boils and sores of every kind are apt to become chronic and often develop into Cancer.

Sores and ulcers are most often caused by poverty of the blood and a weak and slow circulation, brought on by long continued sickness, malarial poisoning, torpid liver, the use of mercury, or whatever is calculated to destroy the vitality of the blood and break down the constitution. These old chronic sores last sometimes for years, eating into the flesh, muscles, tissues, and even down into the bones, and are such a tax upon the system that it is hard for the patient to recuperate, and a simple malady often proves fatal.

Nothing so quickly or surely restores lost strength and vitality to the blood as S. S. S. It is an antidote for the severest forms of Blood Poison, as well as the irritating humors that cause the eruptions and sores that sap your very life and so greatly disfigure you. S. S. S. is the only guaranteed purely vegetable blood purifier. It contains no mercury, arsenic or other hurtful drug. It cleanses the blood and purifies the circulation, thus ridding the system of the impurities that keep the sores feverish and painful. At the same time your general health improves under the tonic effects of S. S. S., and the skin becomes soft, smooth and healthy. If you are troubled with boils, carbuncles, sores or eruptions of any sort, write our physicians all about your case; don't risk your own judgment when you can get medical advice from experienced doctors free. Book on Blood and Skin Diseases to all who desire it.

Our Nation's Wealth.

Gold and silver are poured abundantly into the lap of the nation, but our material wealth and strength is rather in iron, the most useful of all metals, just as the wealth of a human being lies in a useful stomach. First of the Vanderbilts.

The first of the Vanderbilts in this country was Jan Aertsen Van der Bilt, a Holland farmer, who came to the new world in the first half of the seventeenth century, and who settled in the neighborhood of Brooklyn, about 1650. As the name indicates, the family belonged originally to either the village of Bilt, a suburb of Utrecht, or the parish of Bilt, in Friesland.

Mrs. Valentine Tells How Lydia E. Pinkham's Vegetable Compound Cured Her.

Happiness will go out of your life forever, my sister, if you have any of the symptoms mentioned in Mrs. Valentine's letter, unless you act promptly. Procure Lydia E. Pinkham's Vegetable Compound at once. It is absolutely sure to help you. Then write for advice if there is anything about your case you do not understand.

You need not be afraid to tell the things you could not explain to the doctor—your letter will be seen only by women. All the persons who see private letters at Mrs. Pinkham's Laboratory, at Lynn, Mass., are women. All letters are confidential and advice absolutely free.

Here is the letter:—"It is with pleasure that I add my testimony to your list, hoping it may induce others to avail themselves of the benefit of your valuable Compound. I felt very badly, wasterbly nervous, and I tired, had sick headaches, no appetite, gnawing pain in stomach, pain in my back and right side, and so weak I could scarcely stand. I was not able to do anything. Had sharp pains all through my body. Before I had taken half a bottle of your medicine, I found myself improving, I continued its use until I had taken four bottles, and felt so well that I did not need to take any more. I am like a new person, and your medicine shall always have my praise."—Mrs. W. P. VALENTINE, 568 Ferry Avenue, Camden, N. J.

\$5000 will be paid if this food medicine, Lydia E. Pinkham Medicine Co.

Waiting for His Man. A preacher riding down a ravine came upon an old mountaineer hiding in the bushes with his rifle. "What are you doing there, my friend?" "Ride on, stranger," was the easy answer. "I'm a-waitin' for Bill Johnson, and with the help of the Lawd, I'm goin' to blow his damn head off."

A Sarcastic Lawyer.

The late Henry W. Payne, of the Massachusetts bar, was once defending a charity case, in which a boy of 15 was charged with arson. He made a strong case to prove the defendant an idiot. After a charge from the judge, which was practically an order for acquittal, the jury brought in a verdict of guilty. The judge asked Payne if he would move for a new trial. "I thank you for your suggestion," was the answer, "but I am oppressed with the gravest doubts whether I have the right to move for a new trial. Your honor, I have already asked for and received for my idiot client the most precious heritage of our English and American common law—a trial by a Jury of his peers."

Payne had an old quarrel with the Supreme Court, and never lost an opportunity of showing his contempt for that body. Once, riding from Boston to Cambridge with a load of law books, he was accosted by a young Harvard man with the remark: "You have quite a load, Mr. Payne. Law books, I suppose?" "Oh, no," was the answer, "only Supreme Court reports."—New York Tribune.

OPERATIVE WORDS IN LAW.

What They Mean in Legal and Business Transactions.

"Operative words," said a member of the District bar, "are of the utmost importance in legal documents and in business affairs."

"Probably the most seriously important operative word in human affairs is composed of but three letters, and it appears in print thus: 'Yes.' When she says 'yes' to a man it means that she transfers her heart and hand, and formerly, all of her property, to him who asks her to be, etc. This little word establishes the most important contract of society, and while this contract may afterward be dissolved by mutual consent, if one of the contracting parties demurs and backs out a suit for damages is open to the other."

"In auction sales the property put up is anybody's until the auctioneer says 'gone' or 'sold' and the hammer drops. No matter how the sale is regretted, or how much the parties would like to retract it, it stands and the court will sustain it."

"In a will they are 'give, devise and bequeath.' Real property is 'devised' and personal property 'bequeathed.'"

"In a note the borrower must 'promise' to pay, and in a bond he must 'bind' himself."

"In some States in a deed certain words are necessary to convey real estate. The courts have held generally, however, that the word 'grant' will carry a good title. In New York, for instance, the operative words constitute quite a formula, and are 'grant bargain, sell, assign, transfer, set over and convey.' That's the old form. Now the words 'grant and release' are sufficient."

"In a lease the word 'let' must be used. They have an odd formula in New York, used for centuries, probably, consisting of 'grant' demise and to farm let,' and it applies to all kinds of property. In a quitclaim deed the word 'quitclaim' must be used.—Washington Star
