K. L. Goughner was arrested and taken to McMinnville Tuesday, a true bill having been found against him by the grand jury. So far as the Graphic can learn Mr. Goughner is faced with a charge of having taken a nude photograph of a young German girl named Dietrich, who made her home at Goughner's during the spring and summer.

Later—Goughner was found guilty and given a sentence of one year in the penitentiary.

The season for hunting the toothsome pheasant is near at hand and every old musket in the country has been taken from the rack and carefully gone over with goose grease to limber up the rusty joints, preparatory to the fray that will begin at an early hour on next Tuesday morning. The China cock that escapes with his neck will be a lucky bird.

Mrs. Chrisman, the college music teacher, is now at Canyon Hall and would like to see those who are intending to study music this year to make the necessary arrangements for the work. The term opens next week and it will be well to begin at the first, so as to start with the classes in rudiments, theory and history of music. A thorough knowledge of the rudiments and principles of music is most important. No student can become proficient without it. History of music and kindred studies are most essential to a thorough musical training. Opportunities for public practice will be provided through student recitals. Mrs. Chrisman intends to live here and will be found at the hall at any time.

In speaking of the trial of Czolgosz, which was short, W. J. Stater said, "well, they ought to have hung him in the forenoon and tried him in the afternoon," but William is considered rather impulsive at times.

The ladies of the Friends church will bear in mind that the missionary box intended for the Alaska mission will be packed at the college boarding hall, October 1, and all supplies should be delivered there by that date. Please don't delay.

David Copping, of Sumpter, was in town a day or two last week visiting with his brother-in-law Dr. Fisher. While here the two closed a sale of a mine at Sumpter in which they were both interested, the price they realized being quite satisfactory.

A fire put out by Hinchman Cooper on his place on the side of Chehalis mountain one day last week, jumped the bounds with the shifting of a contrary wind and did considerable damage to fences and fruit trees before it was gotten under control. Had he waited for the clouds of the present week to roll by the fire could easily have been controlled.

Jim Everest lost in his land contest case which had been in the balance for more than a year. Mr. Everest bought a homestead claim in Tillamook county of L. S. Heacock after the latter was divorced from his wife. The divorced woman, soon after the sale was made, entered suit before the land office at Oregon City and as Mr. Galloway and Mr. Moore, Receiver and Register respectively of the land office could not agree, the case was forwarded to the department at Washington, for final decision, with the result as given above.

As the Graphic understands the case, Mr. Everest loses all he put into the deal, which will probably amount to six or eight hundred dollars, and the former Mrs. Heacock, who is now the wife of a man named Baker, is privileged to file on the land if she wishes to do so.

About the middle of the afternoon on Wednesday the B. C. Miles fruit evaporator which was situated in his orchard at the foot of Wyposki street, was entirely consumed by fire. S. S. Terrell, who was operating the plant, made an ineffectual attempt to put the fire out when it was first discovered, but as the flames spread with great rapidity everything had to be abandoned to the fate of the fire fiend. Beside the loss of the plant about eight tons of dried fruit, beside a large number of new fruit boxes went with the rest. Of the fruit and boxes, about half the loss falls on Columbus Mackie, as he was having his fruit dried there. Mr. Miles had insurance to the amount of \$1000 on the building and fruit. He went to Portland Thursday to make an effort to get the use of the Mark Levy dryer for the remainder of the season.

The effort that B. F. Hevland has been making for a year or more to establish an axe handle factory on a larger scale is just now taking effect, as A. P. Oliver, J. C. Colcord, C. A. Hodson and Fred Horton, the latter from Portland recently, but formerly from Ohio, have taken the matter up and with Mr. Hevland, they have formed a company and will get down to business at an early date. A site has been selected on the Edwards switch near the railroad track, for a new building, and as soon as the lumber can be placed on the grounds work will begin at once. The first building will be 24x60 feet and others will be added later on. New and complete machinery for turning out handles for edged tools has been ordered from an Ohio factory and when the plant is in running order several hands will be employed regularly.

Charley Leavitt came over from Gaston Tuesday and had posters printed announcing a public sale of his personal effects, including stock and farming implements, to be held on Thursday, October 3, on the Kelly farm on Wapato Lake.

Wm. McLaughlin's arrived home Thursday from the logging camp on the Luckiamute where they have been during the summer and fall, but are preparing to remove to Albany the first of next week. Sorry to see them leave Newberg as they are good citizens.

J. M. and Sam Atkinson are well represented at Salem this week, Jo having left here with a car-load of hogs and cattle in time to be on the fair grounds at the opening on Monday. That he will return with a fair share of Poland China and Jersey ribbons goes without saying.

W. C. Woodward represented the Graphic at the meeting of the state editorial association at Salem last Tuesday on the fair grounds and in the evening when a banquet was given the newspaper men by the Salem Press Club, he responded to the toast, "Yamhill against the world."

The formal opening of the school year of Pacific College will be on Tuesday morning, Oct. 1, at 9 o'clock. All patrons and friends of the college are cordially invited to attend. A fitting program has been prepared. The president will be at the college Monday afternoon to enroll students. Students who expect to enter later in the term are requested to arrange for their work at the opening of the term so the organization of the classes can be made at once.

D. P. Price, attorney for S. W. Newhouse in a ten thousand dollar damage suit against Yamhill county, was up from Portland the first of the week and attended court at McMinnville on Monday. The suit is brought for damages Mr. Newhouse and family sustained when his team ran off the bridge and tumbled into the canyon near the J. H. Rees place northeast of Newberg some time last season. The case went over until next term.

There is a big stir now at McMinnville, getting ready for the Street Fair and Carnival to be held there next week October 3, 4, 5. The available booths along the fifteen hundred feet of street to be occupied are nearly all spoken for and concessions are overflowing into all of the available side streets. Shows without number, both public and private, peddlers and fakirs galore are applying for space. It seems that old Yamhill is going to have a good time at home for once. Well, let her whoop it up for three days. The people who have products of any kind, whether peculiar or ordinary, should have a sample on exhibition. It is a county affair, let all go.

Geologists and Experts say that there is without doubt an oil zone, commencing in California and extending through Oregon. The geological charts in all standard works show conditions of past ages to substantiate and endorse this statement. Messrs Guggenheim & Mack, the largest field owners and drillers of oil in California, have within the past year purchased over 15000 acres of land in Southern Oregon for the purpose of developing oil. These people know their business. They are paying cash for their lands; not bonding but purchasing. Their reasons for investment are based on geological and expert knowledge with the same indications exactly as they exist on the lands of the Yamhill Coal & Oil Co. In the Oregonian of Sept. 24, is an account or report that the first drill in Southern Oregon to be sent down has at a depth of 400 feet come into oil seepages. To one who has investigated the oil question and resorted to all known methods of determining the presence of oil and finds on the lands of this company every indication and knows that by drilling, only, can any further knowledge be obtained, it seems very queer that you or any other man can pass the matter by without a move to assist, by purchasing a few shares of stock, in the work of development. It does indeed seem very queer.

For Nearly Two Years Unable to Lay in Bed

"In my capacity as druggist, in Buffalo, N. Y., I have the best opportunity to judge of the merits of many different remedies. I am in close touch with the sick, who come into my store for medicines, and most of them tell me how they are getting along. Of all the hundreds of preparations which I sell, not a single one begins to give as much satisfaction as Acker's English Remedy for Coughs, Colds, Bronchitis, Asthma, Pleurisy and Consumption. I sell it on a distinct guarantee that it will cure, or the purchaser's money will be returned. This is a perfectly safe guarantee, because the remedy does cure. Nobody wants his money returned. Its cures are nothing short of marvelous. Take the case of Mr. A. H. Gilbert, for instance. He lives at No. 4 Carey street, Buffalo, N. Y. For more than three years he had a bad case of asthma, and had been unable to lie down in bed for nearly two years. He came to my store and asked me what to do. I said: 'Take Acker's English Remedy.' He said he had tried other remedies and didn't think this would help him. But he thinks differently now. Three bottles fixed his asthma all right. He could sleep and eat after taking them, as well as when a boy. He was cured several months ago, and is well yet, so I am certain his trouble is gone for good. You can write to Mr. Gilbert himself, if you doubt my word. He will go further than me in praising Acker's English Remedy." (Signed) S. B. Trowan, druggist, Buffalo, N. Y.

Sold at 25c., 50c. and \$1 a bottle, throughout the United States and Canada; and in England, at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee. W. H. HOOKER & CO., Proprietors, New York.
