Attendance at the Newberg public school is steadily on the increase and good reports of the work being done are heard. The enrollment is now between two hundred and ninety and three hundred. Let our Dayton friends who seem to be fond of school statistics smoke this contemplatively.

The leading business houses of the county seat have agreed to shut up shop during the winter months at half past six o'clock in the evening with the exception of Saturdays. The Halloween sprites let Newberg off comparatively easy this year, but there are a few gates still missing, as much to the regret of their owners as to the delight of the town coo which is forever looking for an opening in her line of enterprise.

On Halloween Miss Nervia Wright and other young ladies entertained a few of their gentlemen friends, at the former's home east of town. Attired as spooks they received their guests in the "haunted chamber," and after allowing the ghostly charms of the room time for full effect, took the young men to the dining room and quieted their nerves with a liberal ration of pumpkin pie and other like sedatives. The young gentlemen are willing to undergo another such trying ordeal.

Gez whiz! Talk about things in the vegetable line, but here is a stunner. T. A. Porter of Orestown, presented the Sun office last Tuesday with a radish that weighed 19 3/4 pounds, and measured 3 1/2 feet in circumference. He also presented us with a potato that weighed 5 1/2 pounds. If there are any farmers in this locality, or any other, that can beat this radish in size and weight, let them bring it in and we will send them the Sun one year free of charge. The large radish is on exhibition at this office.—Sheridan Sun.

The city council will be asked by the Southern Pacific railroad to consider the proposition of constructing a spur to the city waterworks, and entering into an agreement to burn coal from the new mine near North Yamhill. The proposition is now in embryo, and of course the conditions will have to be such as will render the expense for coal less than it has been for wood. It seems as if it might easily be this. Some one will say: "Yes, but it is bad for the wood dealers." Maybe not. Wood has heretofore been bought from the lowest bidder, which renders the business profitless, and the dealers could have sold the same wood at a better price to customers about town. On the other hand, if coal will prove cheaper for the city, its increased use will develop the mine, and make demand for more laborers there, as well as employ men in handling the product.—Reporter.

C. D. Steward, A. H. Dixon and the latter's father, uncle and brother just from Kansas, started out overland in the direction of Tillamook the first of the week on a big hunt.

Walter Parker was unceremoniously awakened and pulled out of bed at a late hour Monday evening by a company of friends who came to surprise him, the much ado being occasioned by the arrival of his twenty-first birthday anniversary. Plenty of good music and lots to eat, together with the recounting of interesting "childhood" reminiscences, tended to make what remained of the evening pass all too quickly.

The county seat had an election Monday, with one city ticket and two independent citizens' tickets in the field. The former ticket won, the following officers being elected: mayor, Jacob Wortman; recorder, Thos. H. Rogers; marshal, C. H. Neal; councilmen, W. C. Arthur, Henry Gee and F. S. Harding.

The report comes from McMinnville that a live deer appeared on the college campus Monday morning and was quietly browsing on the lawn when the students began to assemble for class work. About twenty-five boys undertook to surround the animal and capture it with a lasso, but the sly creature took fright and easily clearing the surrounding eight-foot board fence, made for the hills. It is doubtless regretted by the authorities that the report got out, for every chap in Yamhill county will now be after hunting and lassoing "dears" on McMinnville College campus. We know some dears which frequent that campus which we feel confident wouldn't have run.

The Wall of the Traveling Man. A long-suffering traveling man recently handed us the following poetical confession.

"Backward, turn backward, oh time in your flight, feed me on gruel again just for tonight; I am so weary of sole leather steak, petrified biscuits and vulcanized cake; oysters that sleep in a watery bath; and butter as strong as Goliath of Gath; weary of paying for what I can't eat, chewing up rubber and calling it meat. Backward, turn backward; how weary I am; give me a swipe at grandmother's jam; let me drink milk that hasn't been skimmed; let me eat butter whose whiskers are trimmed; let me once more have an old-fashioned pie, and then I'll be ready to curl up and die."—Ex.

Spreads Like Wildfire. When things are "the best" they become "the best selling." Abraham Hare, a leading druggist of Bellville, O., writes, "Electric Bitters are the best selling bitters I have handled in 20 years." You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Price 50c at C. F. Moore & Co. druggists.

Always set your face firmly toward health. Say that you are better when people inquire: the very declaration will assist in making you feel so. **THE YAMHILL COAL & OIL COMPANY!**  
Newberg, Oregon.  
**CAPITAL STOCK \$50,000**  
Par Value \$1.00 per Share Paid up and NON ASSESSABLE.

Just think of it! One hundred and forty-four stockholders to date! Are you one of them? This is a small number to spread over Yamhill county; don't you think so? It has taken considerable labor to secure these one hundred and forty-four shareholders and it is a corker to those who are active in securing these shareholders to contemplate the necessary labor to swell this number up to the required amount to put our drill down in oil. But, as we have told you before, we now say again, that we will stay with it. We will never let go. The drill will go down. Do not mistake our meaning. Do not understand us as implying for a minute that we will complete development without your assistance. Not on your life. You must be a party to our work. You must be one of us. We will continue our efforts to secure your co-operation and the time we commence work and the time we complete discovery depends on you. There are people enough and money plenty in Yamhill county to carry out this work. Subscriptions of \$5, \$10 and \$20 each will do it and it does not take a very heavy man financially to make either of these subscriptions. Just a little horse sense, good will, enterprise—call it what you may, it's a practical proposition, and there are good reasons for it. We did not undertake this work on our own judgement—we do not claim to be oil men or experts, and if we may say so neither are we fools. We have the best judgement and authorities to follow. Thorough investigation through a number of sources gave ample proof that we had every true indication. We were told by competent authorities that on our lands there was no question of oil, it was only a question of quantity. It was the same proposition in Penn., Texas and Calif. A drill only could decide the matter and all this company is working for is to bunch enough small amounts of coin together to purchase an outfit and exploit our lands. Our stock is, par value, \$1 each share, paid up and non-assessable. You can purchase it for 50c per share and if we find oil, every dollar invested is worth hundreds. We are anxious to purchase a rig by the first of the month. WILL YOU ASSIST?

**Bled Quarts at a Time**  
"I am a knife maker and worked for a number of years in the New York Knife Co's factory at Walden, N. Y. First thing I knew I commenced to bleed from the mouth. Sometimes as much as a quart of blood would come up from my lungs at a time. Every time I coughed the blood spurted out. It was in the fall I got so bad, and the church people told me I had better make my peace with the Lord and prepare to die, for I would not live till spring. My home doctor couldn't do me any good, but advised me to get to New York City for examination. They finally took me to a medical college, and a whole lot of physicians made what they called a diagnosis. There were several students looking on. One professor had a little ivory hammer, and with this he pounded my chest and held his ear close to listen. After a while the professor looked at me solemnly and declared: "One of your lungs is about gone and the other is affected. There may be a slim chance for life if you quit working in that knife factory." I went back home, but didn't improve. One day I saw an advertisement of free samples of Acker's English Remedy for Consumption, being given away by our home druggists, Walker & Eaton. I got one of these bottles, and it relieved me. Then I bought more of the regular size, and my improvement was continuous, although slow. My doctors were astonished and so was I. After dark I hated to spit, because I was afraid it might be blood, and I wanted to know for sure. I have no fear now, for at last I am a solid man again. Although one lung is gone, the other is as sound as a dollar, and answers as well as two lungs, so far as I can see. I want everyone to know the facts and that is why I tell them here." (Signed) A. H. SIMPSON.  
Acker's English Remedy is sold by all druggists under a positive guarantee that your money will be refunded in case of failure, see sec. and a bottle is United States and Canada. In England, 2s. 6d., 1s. 6d., and 1s. 6d. We authorize the above guarantee. W. H. HOOKER & Co., Proprietors, New York.
