The McMinnville high school football eleven defeated the second team of Pacific College at the county seat last Saturday by a score of 11-3. A return game is scheduled to be played here a week from to-morrow, when the boys expect to turn the tables.

By a provision of the new state school law, school teachers are compelled to attend certain institutes, and as the one now in session at the county seat is such an institute, public school isn't "keeping" the last three school days of this week and all the pedagogues are talking shop to-gather at McMinnville. The normal school boy who prefers holidays to the multiplication table does not find the interruption at all vexatious.

It is expected that the drilling machinery for the Yamhill Coal & Oil Co. may be ready to start early next month. The amount of their capital stock and the number of acres under control insures hundreds of dollars for every one invested when success is assured. A dead man cannot see this but others should. Oil stock of companies located in Texas, California and other sections has made fortunes for its holders; it was purchased as an investment or speculation. No appeal has been made to those people on grounds of public enterprise; a chance of making money has been offered and accepted. Dollars are the attraction, and these same companies have one twentieth the amount of holdings and from ten to twenty times the amount of capital stock as compared to the Yamhill Coal & Oil Co., whose stock is now selling at 50 cents a share, with a certainty of a rise in price soon.

Comer, the latter having recently returned from Dawson, came down from Seattle the latter part of last week and made a short visit with their father Silas and brother Milton and family. Nathan White who receives newspapers from Blackwell, Oklahoma, and who has a son-in-law who is a leading citizen of that place, says that the citizens there subscribed \$5000 to sink a well in search of oil, that they have already struck gas in paying quantities and that all they need to find the oil is to go a little farther down. The prices of town property are already out of sight and everything's booming. Just suppose that was at Newberg! The same conditions are possible here if people will take hold in earnest.

L. D. Barr. Mr. Olson was born in Norway fifty-eight years ago, and was a man of honor and integrity, respected by all, and died in the Christian's faith. A widow survives the deceased.

The trustees of Dallas College have said that football must be ruled out. Dallas College be praised! She is in the vanguard. A few years hence she can look back and say: "I started this reform in athletics in Oregon educational institutions."—Reporter. The above effusion would carry more weight if it were not for the fact that it is seriously suspected that Dallas College is suffering more from that common malady known as "cold feet" than from a burning altruistic longing to reform Oregon athletics.

If there is one thing that Yamhill capital ought to do more than another it is to subscribe the amount needed for the purchase of the machinery necessary to develop the oil prospect in this county. Other localities are forging ahead in this matter and now that our county has been assured that oil probably exists here the thing to do is to go ahead and test the prospect. The Yamhill Coal and Oil Company has been organized for that purpose and quite a large amount of stock has already been subscribed, and a very little more money is necessary to assure the success of the undertaking.—Register.

Newberg lost a favorite daughter Tuesday in the marriage of Miss Mabel Cutts to Mr. A. Bradley Wilmut, of Shedd. The impressive ceremony took place at 9:30 in the morning at the home of the bride's parents, Mr. and Mrs. G. W. Cutts, in the presence of the family and a few near friends, Rev. L. D. Barr officiating. Following the ceremony "wedding refreshments" were served after which, amid a parting volley of old footsweeper, the young married couple was driven down to the river where they took the boat for their home at Shedd. Mr. Wilmut being a druggist at that place. The bride, accomplished and popular in society, will be missed by many friends here, who wish her much joy in that other state of promised bliss whose vows she has taken. The groom, though mostly a stranger in Newberg, is well spoken of by all who know him, as a capable young man of integrity.

S. A. Huling brought to the News office last Thursday afternoon a twig cut from a red raspberry bush which had eight large, perfectly ripe berries on it. It also had berries in all stages of growth from the bloom to ripening. Mr. Huling says he planted the bushes last year and they had a good crop this last spring. The old bushes died down and now this year's growth has berries on them. Miss Anna Nelson, aged 18 years, died at her home near here early Sunday morning, the funeral services taking place on Tuesday. Miss Nelson was a devout Christian, and a large circle of sorrowing friends mourn her death.

A lively little scrap took place here Monday evening as a result of which two men look as if they had been to "mill." A man named Purvis and city marshal Ryan were the principals, the latter turning out to be the "principal."

The marshal had been endeavoring to perform his duty in quarantining a diphtheria patient in the former's family when Purvis got mad and called the officer ugly names. A knockdown and knock-out ensued with the result that they had to pump air into Purvis to bring him around. It evidently does not pay to talk naughtily to Dundee's marshal.

THE YAMHILL COAL & OIL COMPANY!

Newberg, Oregon.

CAPITAL STOCK \$50,000

Par Value \$1.00 per Share Paid up and NON ASSESSABLE.

A. C. Churchill, Pres. Dr. H. J. Littlefield, Vice Pres.

A. P. Oliver, Sec'y. J. C. Colcord, Treas.

Clarence Butt, Attorney. Bank of Newberg, Depository.

DIRECTORS: S. M. Calkins, N. E. Britt, C. A. Holson, H. J. Littlefield, A. P. Oliver, J. C. Colcord, A. C. Churchill.

We have started out to secure a total of 400 shareholders of \$10.00 each, that is the size of the investment we shall tackle you for, no more, no less. Now mind you, you can secure more shares if you desire to and it may be wise in you to increase your holding but, to save time and make rapid action we are going to make a definite proposition—all we ask you to do is to purchase 20 shares of stock for \$10.00 par value \$20.00 paid up and non-assessable. We have a good start and propose to keep the ball rolling. If we discover oil your \$10.00 investment will be worth several hundred dollars. You cannot figure it out any other way. That's history. When we are at the work of drilling and report progress, each week you can easily verify our statements by visiting the works in person, its easy of access to every man in Yamhill County. You need not depend on others, its right here at home, its a home institution, its a local development, its benefits reach all—you know where your money goes. You can see the result of your enterprise, there is no doubt and no guessing. And again, there will be no regrets that are serious from a financial point of view, to the individual who invests in the Stock of this Company. Should we meet with failure the basis upon which you are interested can be no burden. What we are clamoring for is co-operation, an aggregation of small sums. You are not solicited to blow yourself, there will be plenty of time for larger investment when we prove our claim, then you will know positively that it is judicious to invest hundreds when we now ask dollars. Do not be skeptical on account of distance from proven fields, distance cut no figure in past discoveries. Texas was a long way from original discovery, then consider how much greater the distance of California. Geological conditions are what you want, distance from a known field is not to be considered, with indications and evidence as existing on the lands of this Company we are as sure of finding oil as any claim with like evidence three or five miles from a discovery. Understand that if we could not prove all the requisite conditions for oil, (which we can do) but were working on a fool notion of boring for oil in any old place, then you might let the other fellow put up and you stand back. If you do not know that we have every evidence of oil and positive assurance of coal the way is open to your investigation.

Distinguished Testimony

No secret society in the world stands higher in noble aims and charitable accomplishments than the Knights of Pythias. That order is doing great good, and one of its finest institutions is the Ohio Pythian Home, at Springfield, Ohio, which is ably presided over by Superintendent Le Fevre and his wife, Mrs. Callie I. Le Fevre, the matron. The latter has recently written a letter, which will command widespread attention because of the prominence of the writer. It is as follows:—

"Messrs. W. H. Hooker & Co., New York: Last year I used Acker's English Remedy at the suggestion of a friend, for a serious, long-standing throat difficulty and extremely hard cough. Had used many well-known preparations without relief. I can honestly say that Acker's English Remedy removed the difficulty and stopped the cough. I did not purchase or use more than three bottles, and at least one-half of the last is still on hand. I also consulted physicians with no permanent results." (Signed) CALLIE I. LE FEVRE.

The friend to whom Mrs. Le Fevre refers as having suggested Acker's English Remedy is Mrs. W. B. Chilton, wife of the president of the Troy Transfer Co., of Troy, Ohio, where this remedy has accomplished many other cures in Throat and Lung Troubles. In conversation with an acquaintance Mrs. Le Fevre also said: "If you will call on Mr. W. H. Schauss, a prominent china and art merchant of Springfield, Ohio, you will find that he, too, has had an amount of experience with Acker's English Remedy in his family, and thinks they cannot keep house without it."

Acker's English Remedy is sold by all druggists under a positive guarantee that your money will be refunded in case of failure, 50c, 1.00, and \$1 a bottle in United States and Canada. In England, 1s. 6d., 3s. 6d., and 6s. 6d. 100 authentic the above guarantee. W. H. HOOKER & CO., Proprietors, New York.
