

**NEWBERG GRAPHIC.**

E. H. WOODWARD, EDITOR & PUBLISHER.  
W. C. WOODWARD, ASSOCIATE EDITOR.

Entered as second-class matter at the postoffice at Newberg, Oregon.

ISSUED EVERY FRIDAY MORNING.

FRIDAY, JANUARY 17, 1902.

Talk about your "broader fields of usefulness!" An Illinois woman, active in charity and reform work proposes a plan for the reformation of lazy men.

It is said that during the past year Carnegie disposed, in the interests of philanthropy, of forty two million dollars of his wealth, and at the same rate of benevolence it will take him several years to escape the disgrace of dying a rich man.

A copy of the Hartford, Connecticut, Courant, found its way to this office the other day, headed Volume 139, Number 1, the paper having been founded at the first of the year 1764. The law of the "Survival of the Fittest" is doubtless one of the Courant's pet theories.

Minnesota, which in addition to her fame as a flour producing state, has in recent years gained added prestige from her dairying interests is called the "Bread and Butter State." Last year she made sixty million pounds of butter and over twenty-six million barrels of flour.

It may be interesting to know that the United States navy now comprises two hundred and twenty-five vessels available for service and eighty under construction. Uncle Sam is not looking for trouble but he intends to be in a position to look after and protect his growing interests.

The superintendent of prisons in New York has issued an order prohibiting the cutting of convicts' hair with clippers, and permitting prisoners to wear their hair of such length as other people, holding that such action abolishes a needless as well as a humiliating degradation of prison inmates. It is claimed that the present practice tends to rob the convict of such self-respect as he already has, and to sink him lower in the sea of crime.

President Roosevelt is the author of several very readable books, Secretary Hay first won recognition through literary merit, Senator Lodge, who is liable to become a member of the cabinet, is a historian, while authors in different parts of the country are running for congress or other offices. Political aspirants are beginning to wonder if literary qualifications are going to become a requisite for holding positions of public trust.

A paper which has denounced Senator Hanna and caricatured him as the acme of corruptionists, has admitted that there is a general change of opinion in regard to him—that while he is arbitrary and dogmatic, the masses believe him patriotic and honorable. This signifies that Mr. Hanna is living down four or five years of the most bitter abuse ever heaped upon a man in public life. Mr. Hanna once said he would withdraw from his candidacy for the Senate if any man of character whom he had not employed would say that he had not kept faith with him. This is a practical test which some of Mr. Hanna's falsifiers and persecutors could not stand.

To keep step with the progress made last year, the close of 1902 should see enterprises started in Newberg which we do not now have. What new industry is needed worse here right now than a cannery? The desirability of such an institution has long been discussed here, but discussion alone doesn't build canneries nor anything else for that matter. What else do we lack? The question is concisely answered in a communication on the subject in another column, "Nothing but well directed energy." A little capital might come handy too, some one might suggest, but that is implied in the word "energy," modified by "well directed." What "Horticulturist" has to say is brief but strictly to the point. Does it awaken an answering thrill?

The following account is given of how Sousa, the popular bandmaster, came by his present name: "When Sousa, now famous the world over as king of march music, landed in the 'home of the free' he carried with him a valise on which was marked in plain letters, 'John Philip Sousa, U. S. A.'" Time passed and this son of sunny Italy commenced to grow musical and also to become Americanized. It was then, so the story goes, that he expressed the desire for a name more nearly like those of the people of which he was one by choice. Philip Sousa wound out of place doing service for a man who had imbibed American beliefs and customs and whose destiny was closely linked with the "Stars and Stripes" forever. A member of the band to which he belonged finally made a suggestion. It turned out to be a happy one, and was adopted by the master of the baton. The suggestion was this: To the name Philip add the U. S. A. Divide the one name into two words, and there was the smooth-sounding and easily pronounced name of John Philip Sousa."

**CANNERY AGITATION.**

Editor Graphic:—  
Newberg should have a cannery, and

she should put forth an effort to get one. The canning business is no untried experiment, but is an assured success. Oregon has a home demand which should be supplied by home products. The mining, lumber and fishing industries have become great consumers, and make a market for a considerable amount of canned fruit and vegetables. The demand is increasing, so we want to take advantage of the opportunity and look to our own interests.

As yet we have not much surplus fruits, perhaps not enough to make a very heavy pack, but that is no objection to beginning for the business will grow as fast as we can take care of it.

Newberg is a favorable location to build up a good business. We are in the fruit business, our situation is adapted to fruit, our people are an intelligent, enterprising go-ahead people, just the class that make good horticulturists. Then what do we lack? Nothing but well-directed thought, followed up by well-directed energy.

Will it pay, and whom will it pay? The first question is answered by the fact that the big combines getting control of all the canneries in the country. If there was no money in the business they would soon drop it. Answering the second question—it will pay the fruit grower by making a market for his product; then it gives employment to men, women and children, both in gathering and canning the fruit. And whom does this benefit? Not the saloon for we have none. Then it goes to the baker, butcher and storekeeper, and they can answer for themselves whether they are benefited.

Shall we not give this matter our serious consideration, and take such steps as shall renew our interest in this enterprise, and put forth an earnest effort to bring some effective plan to a successful consummation?

Respectfully submitted, Clarence Butt, Recorder.	

Experience is the best teacher. Use Acker's English Remedy in any case of coughs, colds or croup. Should it fail to give immediate relief money refunded. 25c and 50c. C. F. Moore & Co. druggists.

**New Pictures in "The National."**

The January "National"—the News-Magazine—is chock full of timely and interesting news-pictures. A new and winningly gentle presentation of Senator Hanna has the place of honor on the first page. One of the frontpieces shows President Roosevelt on horseback, in front of the White House, in a simple riding rig suggestive of the Rough Rider days; the other shows the new President and his cabinet assembled for business. Miss Helen Hay is presented—a real American beauty and a poet, too—with her fiancé, Payne Whitney of New York; likenesses of Mrs. Knox and Miss Knox, wife and daughter of the attorney general, and Miss Cockrell, daughter of the senator from Missouri, adorn other pages. Half a dozen senators snap-shot in characteristic attitudes—among them Bard of California, Scott of West Virginia, Jones of Nevada and Dolliver of Iowa. One group gives fine portraits of the parents of the late President McKinley and of Mrs. McKinley. There is a good engraving of the famous picture which Andrew Carnegie presented to Mrs. Grover Cleveland—and dozens of others. "The National" leaves to its ponderous contemporaries the pleasure of reproducing the art of past ages; it is a magazine of To-day, made for people now on earth.

Moki Tea positively cures sick headache, indigestion and constipation. A delightful herb drink. Removes all eruptions of the skin, produces a perfect complexion, or money refunded. 25c and 50c. C. F. Moore & Co. druggists.

**Real Estate Transfers.**

**It Girdles the Globe.**

The fame of Bucklin's Arnica Salve, as the best in the world, extends around the earth. It's the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, felons, aches, pains and all skin eruptions. Only infallible pile cure. 25c a box at Moore's drugstore.

**Literary Reciprocity.**

Hall Caine says he is largely indebted for his literary successes to the Bible. The Bible was largely indebted for one of its dramatic successes to Cain.—Milwaukee Sentinel.

**Thousands Sent Into Exile.**

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. Don't be an exile when Dr. King's New Discovery for Consumption will cure you at home. It's the most infallible medicine for Coughs, Colds, and all throat and lung diseases on earth. The first dose brings relief. Astonishing cures result from persistent use. Trial bottles free at C. F. Moore & Co. Price 50c and \$1. Every bottle guaranteed.

**Administrators' Notice.**

Notice is hereby given that the undersigned has been duly appointed administrator of the Estate of Emily Heacock, deceased, by the County Court of Yamhill County, Oregon, and has qualified.

**This Week Specials.**  
**For the Week Commencing Monday, January 20, 1902.**

We place the following goods on special sale at reduced prices. When we say "Reduced Prices" we mean what we say. Below we mention a few of the bargains that will go next week.

- MEN'S GLOVES, the Best Buckskin, worth \$1.25, will go for 90c.
- MEN'S LAUNDRIED SHIRTS, worth 75c, will go for 45c.
- MEN'S SOX, heavy, 6 pair for 25c.
- WORKING-SHIRTS, the best, 25c, 30c and 35c; worth double the money.
- We place on sale 1 doz. Grey-mixed SKIRTS, extra heavy, all wool goods, worth \$5.00, special for this sale, \$2.48.
- The very best IRONSTONE CHINAWARE plates 50c per set.
- The best CUPS and SAUCERS, 50c a set of 6.
- TABLE CUTLERY, Knives and Forks, iron handles, worth \$1 a set, will go for 50c. Silver-plated knives and forks, worth \$2 a set, will go for \$1.20 a set. The best Table Spoons, 10c a set of 6.
- The very Best Galvanized Iron WASHBOILERS, worth \$1.50, will go for 95c.
- The very best LANTERNS, for 35c.
- LADIES' WRAPPERS, the very best Flannelette for 95c.

Remember this special sale opens Monday, December 20, and will continue until Saturday night, December 25. Do not fail to attend this sale as it will be a great saving to you, if you will buy your goods during this sale.

**J. S. Gross.** Next to Chehalam Valley Bank, Newberg, Oregon.

**Satisfaction**  
Is what we give our customers. That's our first aim. We have a complete line of Ladies' and Gents' Furnishing Goods, Boots and Shoes, Woolen Dress goods in dress patterns.  
**Hand-painted China Given Free**  
With Cash Purchase.  
**Ehret Bros.**

**A Mother's Plain Words**

"I suppose you will be astonished when I tell you that six years ago I was in a most dangerous condition with bronchitis and lung trouble, because you can see how well I am now. The attack at that time caused terrible pain in my chest and lungs. I could hardly move, and to stoop caused intense suffering. Someone advised Acker's English Remedy, and I thought I would try it, although I confess that down in my heart I had little faith in it. The first bottle gave great relief, and the second bottle made me the healthy woman I am today. My husband's lungs are weak also, and he cured himself with the same grand old remedy. Our boy and girl have both been saved by it from death by croup. I know this is so, for when they were attacked in the night I had a bottle in the closet, and by acting quickly that fatal malady was easily overcome. We always give it to the children when they have a cough or cold, and we would not be without it for anything. My sister will tell you also, if you ask her, that it is a medicine that can always be depended upon for all the troubles of the breathing organs. I tell all our neighbors about Acker's English Remedy whenever I get a chance, and there are plenty of people around Mechanicsville, N. Y., where I live, who would no more think of going to bed at night without a bottle of it in the house than they would of leaving their doors wide open. As I look at it, I think I had a bottle in the closet, and by acting quickly that fatal malady was easily overcome. We always give it to the children when they have a cough or cold, and we would not be without it for anything. My sister will tell you also, if you ask her, that it is a medicine that can always be depended upon for all the troubles of the breathing organs. My sister will tell you also, if you ask her, that it is a medicine that can always be depended upon for all the troubles of the breathing organs. I tell all our neighbors about Acker's English Remedy whenever I get a chance, and there are plenty of people around Mechanicsville, N. Y., where I live, who would no more think of going to bed at night without a bottle of it in the house than they would of leaving their doors wide open. As I look at it, I think I had a bottle in the closet, and by acting quickly that fatal malady was easily overcome. We always give it to the children when they have a cough or cold, and we would not be without it for anything. My sister will tell you also, if you ask her, that it is a medicine that can always be depended upon for all the troubles of the breathing organs.
