

The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions. It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

It perfects all the vital processes. W. P. Keeton, Woodstock, Ala., took Hood's Sarsaparilla to make his blood pure. He writes that he had not felt well for some time. Before he had finished the first bottle of this medicine he felt better and when he had taken the second was like another man—free from that tired feeling and able to do his work.

Hood's Sarsaparilla Promises to cure and keeps the promise. Accept no substitute, but get Hood's today.

His Plight Explained. "I saw Blinks today, and he was in a terrible shape—both eyes closed and bruises all over. He isn't a quarrelsome man, is he?" "Oh, no; quite the reverse. He never sees a quarrel that he doesn't want to act as peacemaker."

"Ah, that explains it then."—Chicago Post. "My dear," said the suspicious wife, "this seal-skin sack you gave me for Christmas has the odor of gasoline."

"Very likely," answered the crafty husband. "But you know Santa Claus is using an automobile now."

Nevertheless, she had her doubts about it, fearing that he had purchased the garment second handed of a cleaner.—Baltimore American.

Cancerous Sores

are most frequently to be seen upon the face, neck or breast, though they are liable to appear upon other parts of the body. When they begin to spread and eat into the flesh, sharp, piercing pains are felt as the underlying tissue is destroyed and the tender nerves exposed. Cancerous sores develop from very trifling causes; a carbuncle or boil, swollen gland, a little watery blister on the tongue or lip, a wart, mole or bruise of some kind becomes an indolent, festering sore, which in time degenerates into cancer.

Three years ago I had a sore on my left temple, which the doctors pronounced a cancerous ulcer; it would itch, burn and bleed, then scab over, but would never heal. After taking S. S. S. saw the sore began to discharge, and when all the poisonous matter had passed out it got well. I took in all about thirty bottles, continuing it for some time after the sore had healed, to be sure all the poison was out of my system. Have seen no sign of the cancer in ten years. JOSEPHUS REID, Gant, Audrian Co., Mo.

is a strictly vegetable remedy, and while possessing purifying and healing properties that no other medicine does, contains nothing that could derange the system. While cleansing the blood it also builds up the general health.

IN A WEAK SPOT

THE STORY OF AN ATTACK AND ITS REPULSE.

A Thrilling Account as Told by a Veteran of the One Hundred and Fifty-fourth Indiana Volunteers.

Jacob T. Keller, of Girard, Kans., is a veteran who saw long and hard service in the Civil war with the One Hundred and Fifty-fourth Indiana Volunteers and he tells many a story of bivouac and battle. He was recounting some of his adventures to a reporter the other day.

"Of all my experiences in the war and out of it," he said, "one is most often uppermost in my thoughts. I had strained my hip in some manner but I thought I had got over it all right. About two years after that, however, when I was plowing for wheat I gave out again in that spot. Rheumatism set in and I had to quit work. I tried one thing after the other to get some relief from the pain but nothing that I took helped me at all and I became discouraged.

The cords of my left leg were drawn so badly that I could not straighten it out at all, nor could I sit down. My hip and knee pained me and I suffered horribly. At times also I had nervous headache. After trying a number of things, my daughter, Mrs. Fry, who had been cured of rheumatism by Dr. Williams' Pink Pills for Pale People, induced me to try that remedy. My case was a very stubborn one and I took five boxes of the pills before I could see much change but I kept on and they certainly did wonders for me. The cords in my leg began to slacken and before long it limbered so that I could use it again and be able to sit down. My kidneys had been bad and the pills soon made them better, too. Dr. Williams' Pink Pills for Pale People are a grand, good medicine and I recommend them to all who suffer as I did."

The real cause of rheumatism is the presence of acid in the blood, which irritates the sensitive tissues that unite the joints and cover the muscles, thus causing those indescribable tortures which rheumatic sufferers endure. Years ago those afflicted were bled; as if taking away some of the impure blood could remedy the balance. This folly has been abandoned and today physicians prescribe and druggists recommend the use of Dr. Williams' Pink Pills for Pale People, as these marvelous vegetable pills go directly to the seat of the trouble, exerting a powerful influence in purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces, thus making a potent remedy for curing this disease.

Dr. Williams' Pink Pills for Pale People are an unfailing specific for all diseases arising from impoverished blood or shattered nerves. They cure not only rheumatism but locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, nervous headache, after-effects of grip, of fevers and of other acute diseases, palpitation of the heart, anemia, pale and sallow complexion, and all forms of weakness. At all druggists, or direct from Dr. Williams Medicine Company, Schenectady, N. Y., fifty cents per box; six boxes for two dollars and a half.

Considerate. "Don't you think you could drive that mule without the use of profanity?" inquired the person of refinement.

"Yes," answered the canal boatman. "I reckon I could get along all right. But it would get powerful lonesome for the mule."—Washington Star.

Willfully Misunderstood.

"Some of my latest photographs," said the camera fiend, "I took 50 feet under water."

Squirrels Nesting in Church Chimney. Sexton Davis, of the Congregational church, at Winter Park, Fla., met with an unexpected accident when he made the first fire of the season in the church this fall. The chimney would not "draw," and the cause was found to be in a large squirrel's nest, or a series of nests, in the top of the structure. The opening was found completely closed with squirrel nest material to the depth of four feet from the top.—Florida Times-Union and Citizen.

War Waste of Horses. Roughly speaking, a corps requires to be mounted every four months, but one cavalry regiment records the staggering figures of 3,000 animals in a little over a year, says a London newspaper. It was the general opinion of experts that the members of the Household cavalry proved themselves the best "caretakers" and despite their heavy weights got as much work out of their mounts as any cavalry in the field. There was even one instance of a troop horse weathering the whole campaign and returning fit and well to ceremonial duties in London.

Different Kinds of Ivory. Today nothing but elephant ivory is used in fine carving. In the past there was walrus, narwhal, nyghau and mammoth. Tusks vary from 10 feet long, weighing 200 pounds, to smaller ones, and the price is about \$6 a pound. Narwhal ivory is unlimited in supply, owing to the discovery of large quantities in the arctic regions, where for untold years it has been preserved in the ice. It is of no use for fine ivory carving, but is used in all inferior types of work, such as low-priced umbrella and stick handles, cheap chessmen, frames, etc.

Life Averages. In 300 years the average length of human life has been doubled. In the sixteenth century it was between 18 and 20 years; at the close of the eighteenth century it was a little over 30 years, and today it is over 40 years.

Wild Elephants Getting Scarce. It is estimated that there are fewer than 10,000 wild elephants left in all the countries on the globe, and that five of these will be killed off where one is born. It is a matter of only a few years when the last one must go.

Population Multiplying in Algeria. The French census returns for Algeria reveal the fact that in less than 50 years the native population of the colony, Arab and Kabyle, has almost doubled itself, having risen from 2,307,000 in 1856 to 4,070,000 at the present time.

Canadian Hay for Africa. Canada's entire surplus crop of hay and oats is being marketed this year to the British government for the use of the army in South Africa. An extra fleet of steamers is transporting this forage to the seat of war.

Easily Interpreted. Mrs. Moon—I dreamed last night that you had given me an automobile. Mr. Moon—H'm, yes! You had a horseless nightmare—and, by the way, my dear, dreams usually go by contraries.—Smart Set.

The Range Pony in Alaska. The best animal for the Klondike and inner Alaska has proved to be the range pony reared in the cold, mountainous country of Montana, Northern Idaho and Washington. The pony weighs from 800 to 1,000 pounds and is giving much better service than the mule. He picks his way through stretches of bog where the mule mires, climbs glaciers and canyon sides where the mule turns back, and eats snow to quench his thirst, which the mule will not do. For prospecting purposes the trained pack pony is invaluable and the best means of transportation in Alaska.

Women Must Sleep.

Avoid Nervous Prostration. If you are dangerously sick what is the first duty of your physician? He quiets the nervous system, he deadens the pain, and you sleep well.

You ought to know that when you ceased to be regular in your courses, and grew irritable without cause, and pass sleepless nights, there is serious trouble somewhere, and nervous prostration is sure to follow.

You ought to know that indigestion, exhaustion, womb displacements, fainting, dizziness, headache, and backache send the nerves wild with affliction, and you cannot sleep.

Edmond About, the French Novelist,

was once asked to write a newspaper notice of a play written by a friend. The playwright begged him to discuss the acting and scenery, but to say little about the drama itself, which evidently was not proving much of a success. About did as requested, told of the plot at length and gave much detail as to accessories, winding up with this sentence: "About midnight the curtain fell and with it the piece."

Tax Upon Cyclists. The handsome sum of nearly 5,500,000 francs has been brought into the treasury of the French republic by the tax upon the cyclists during the year 1901. The tax was first imposed in the year 1894, and was paid by 203,036 persons. In 1895 it was levied upon 236,084, in 1896 upon 329,86, in 1897 upon 408,806, in 1898 upon 484,414, and in 1899 nearly double that number—838,856. The tax upon motor carriages in 1900 was paid by 2,877 persons.

India the Land of Reports. India is the land of reports. There is a monthly, quarterly, half-yearly, annual plague of them. There is no country, probably, in which so many useless reports are written and so few read. In one province the chief business of the local government consists in dunning its officers for statistics and reports, and in compiling from them volumes for the delusion of the supreme government. More than one half of the time and energy of every official is taken up in writing.—Fortnightly Review.
