It is probable that the next two weeks will see lively times at the sheriff's office. To get the three per cent rebate, taxes must be paid by March 15. After that there will be no discount for cash. By the first Monday in April half the taxes must be paid, or a 10 per cent penalty and 12 per cent interest from the first Monday in April to date of payment will be exacted. A three per cent drawback is like balm in Gilead to the taxpayers whose burden is hard to bear, and all who possibly can will back in its ray of cheer.—Reporter.

The drill and machinery of the Yamhill Coal & Oil Company was unloaded from the flat car on the switch last Friday by F. C. Mills and A. E. Weesner at a cost of fifteen dollars. When it came to making bids on moving the outfit out to the Follett place, would-be contractors seemed a little leary of the proposition and fought shy. On Wednesday, however, the contract was let to A. E. Weesner who made a bid of seventy-five dollars, the outfit to be in position on the Follett place by the 25th of March. The company expects to have an expert driller here by the first of April when the drill will be started out.

Anyone who frequents the depot can readily surmise that one of these days there will be a sad accident to chronicle under some such heading as "Slipped and Fell Under Moving Train," or "Maimed For Life." As long as boys persist in jumping on and off the train when in motion, and suffer no injury, no attention is paid to the matter, but let some venturesome and reckless youth suffer the loss of a limb and a general hue and cry will be raised. Why not do a little agitating in time to avert the calamity?

The new curfew ordinance drawn in compliance with the petition to the council was voted upon at the regular meeting Monday night, the result being a tie vote. Beginning with next Monday night the Public school bell will ring the curfew.

Prompt action on the part of Granville Everest saved his home last Monday evening. While engaged in the kitchen with his dairy work the two little children in the sitting room started a fire in some way against the wall, and in less than a minute it had reached the ceiling and sides of the room, burning all the cloth and paper off and also the curtains and shades at the windows and would have been beyond control in a very short time. Quick work was all that saved the home and contents and Granville is very thankful that it was no worse.

Portland papers give an account of a swell social function which took place a few days ago among the "nobility" of the metropolis, and among the palatable delicacies served, make note of creamed oysters, Wall-street clams, Welsh rarebit, lobster a la Newberg, crabs a la Newberg etc. "Yamhill against the world," and Newberg is its bright light. No-gilt-edged menu is complete until embellished with some of our gastro-nomic gems, as above indicated, whose fame have become world-wide. This is made more evident when it is recalled how few times mention is made of pate de foie, a la Walla Walla, Wash., or chicken terrapin a la Tacoma near Seattle, or rock oysters a la Astoria or cory-cote fondo a la Shaniko. It's all right for the chef of the Hotel Portland to draw his salary at that end of the line from the nabobs but he draws his inspiration right here and whenever he wishes a special name for a special dish it will be a la Newberg, Oregon.
