Mills who has been up at Baker City for three or four years arrived home again Saturday evening. Mildred and Olive Sutton came up from Portland last Friday and visited in Newberg until Monday. Another all day window sale by the ladies of the M. E. church in the Sawyer building, Saturday. Open at 10 a. m. Ira Carl, youngest brother of Elder G. C. Carl, left the first of the week for Coos county, where he has a good job in a dairy. When passing Smith's photo gallery, take a look at his fine display windows. He has the finest display of pictures ever shown in Newberg. The ladies of the M. E. church met with such success in selling "Saturday baking" last week that they will hold another sale tomorrow. Tom Hester has written relatives here that he has sold out in Iowa and that with his family he intends to return to Oregon. Good for Thomas. Rev. Jos. Hall went up to Dayton Sunday and occupied the pulpit of the Methodist church in the temporary illness of the pastor Rev. T. L. Jones. W. T. Macy came down from McMinnville to Springfield on the noon cannon ball Tuesday for a visit with his parents and was in town Wednesday. T. A. Radcliff of Salem was visiting for a few days with Edward Parrish and family and other friends this week. He returned home by boat Wednesday. The inspiring choruses of the cantata March 29, as well as the beautifully dramatized theme will carry you out of yourself and make you forget your daily cares. Sickness prevented Rev. John Glenn of Dayton from filling his appointment at the Free Methodist church last Sunday, but he announces that he will preach here next Sunday. C. A. Holson returned Monday evening from a business trip up into the Sound country and British Columbia, where he has been in the interests of the Oregon Handle Manufacturing Co. Mr. W. B. Wallace of Houghton, Michigan, was in town a few days ago looking after the buying here and shipping direct to the consumer East, many things which we produce such as prunes, flour, hardwood etc. He is so impressed that he will return soon. The McMinnville News comes out in an all home print, the first issue of which is embellished with the pictures of the whole office push, the devil alone excepted. But perhaps the News doesn't keep a devil. That worthy would certainly feel not quite at home in company with the original of the picture appearing at the lower right hand corner of the first page. Indications are multiplying to support the claims of the Yamhill Coal & Oil Company. Over in Polk county, near Dallas, where they are boring for oil, the drill has reached a depth of six hundred feet, and has struck the true oil shales, and indications are generally flattering. This is bringing the chain of evidence right up to our own back yard and should encourage locally the claims of doubling Thomas. The nineteenth annual convention of the Yamhill County Sunday School Association will be held March 19-21, in the Evangelical church of Lafayette. An excellent program has been prepared in which C. A. Dotson, state field worker, and state president A. Morse will take active part. Every Sunday school in the county is expected to send a full delegation. Delegates will be entertained. All ministers and Sunday school superintendents are considered members of the convention. The fruit growers of Newberg had a meeting Saturday and organized for the promotion of strawberry culture. Hood River, Salem and other places have done the same and find that it is very helpful. When they work together and produce fruits in large lots of uniform quality they can sell at much better advantage than where it is a hit and miss crop and every fellow for himself. Fruit growers about the Grove ought to get together and thus promote their interests by arranging for joint shipments, destination, commissions, supplies etc. —Forest Grove Times. Mayor N. C. Christenson received a letter of inquiry the other day in regard to Newberg, from a man in Colorado, which shows conclusively that there is still some missionary work to be done before the public is brought to a saving knowledge of this great country of ours. The letter in question however indicates that in some quarters the harvest is too green for immediate garnering. The inquirer wants to know how far from Newberg is the government land to be taken up, whether there is a railroad in the Willamette valley and whether there is plenty of free range here for cattle. The gentleman might be assured on the last point, that there is plenty of free range within the city corporate limits. But the climax is capped in the question, "If a person takes up land there, what would it cost per acre to get water out of the canals?" Such ignorance is more pitiable than that indicated on the other hand by the oft-repeated "thirteen months in the year" myth.

The Douglas Studio for fotos. Mrs. Lon Hadley went down to Portland Saturday. Hear the cantata at Crater's hall Thursday evening March 29. The largest supply in town of candies, dates and all kinds of nuts, at Star Bakery. Rev. Jesse Edwards will occupy the pulpit at the Friends church next Sunday morning. Moore & Co. 10c per package. Ward & Barclay have hatched another "settling" of eggs in their incubator, which has been on exhibition in their feed store. Sam Gause and Charley Maekey made a trip to McMinnville last Monday. They report the roads pretty muddy up that way. Dwight Patterson who was taken sick three weeks ago, with typhoid fever, is no better and the gravest fears are had for his recovery. Mrs. Sam Galbreath of Tualatin returned home Tuesday morning after visiting in town a few days with her mother Mrs. W. E. Howard. The beauty of the cantata is something that will last and make you feel that your evening has not been wasted, but of lasting benefit to you. Don't set hens the same old way when our new plan is better ten to one. 100-egg hatcher can be made for one dollar. Information free. S. Minchin, Dundee, Or. Mr. and Mrs. L. J. Butterfield, parents of C. L. Butterfield who is teaching the Adventist school in the west part of town, arrived a few days ago from Minnesota. Harrison Crater intends to leave the first of the week on quite an extended trip. He will journey first toward the sunny clime of Southern California, thence eastward where he will visit relatives and friends in Iowa and Indiana. A large attendance is expected at the fruit growers' meeting tomorrow afternoon. Secretary Thielsen of the Salem Fruitgrowers' Union has been secured to give an address, which will be supplemented by short speeches by local enthusiasts. Dr. H. J. Minthorn has purchased of the Bank of Newberg a lot of sixty feet frontage on the corner across the street from Parker & Poole's store. He intends to build an office building on his property and engage in the practice of medicine here. Mrs. M. E. Baldwin who has been visiting for some weeks at Oregon City with her brother Dr. J. B. Moore and family returned home the first of the week. She was accompanied by her father Alfred Moore who will remain here with his children for some time. The North Yamhill Record man is showing all kinds of enterprise lately. One week he enlarges his paper and in the next he comes out with an illustrated edition in the interests of his town and vicinity. If North Yamhill will follow the pace set by its editor it is good for a record. On last Saturday Mr. G. Keller sold his interest in the Newberg Flouring Mills to his partner H. A. Grate. He has not fully decided on future plans, and it is hoped that when developed they will not take him and his family from Newberg. For the present they will move into the J. H. Miller house on Meridian street which is to be repaired by Claud Cummings and cleaned up generally. E. Palmer, a railway mail clerk whose run is down in New Mexico, out of Albuquerque, after visiting for several days with his parents near Dundee, started back to his work Tuesday morning. While here Mr. Palmer called on Mr. and Mrs. Vesta, he being acquainted with their eldest son Plummer who is also in the railway mail service, the latter's run extending from Los Angeles eastward through Arizona and part of New Mexico. "Dog days" seem to have struck Newberg out of season this year. Marshal Woods has been roaming around with dangerous looking shooting irons endeavoring to reduce the surplus, in which good work he has been assisted by Seth Mills and one of the college professors, one or two canine carcasses having adorned the college dissecting table. Jo made good doggies of half a dozen curs last week and the harvest is still being reaped. On Thursday of last week a company of people from Lakeland, Minnesota, arrived here. They are relatives and friends of Rob't Forsyth and Mr. J. M. Shaw who recently purchased the Green place southwest of town. Among them were Mr. and Mrs. Hutchins, Homer Hutchins, wife and child and Miss Etta Hutchins. The above named people are the parents, brother and sister respectively of Mrs. Forsyth and Mrs. Shaw. They were accompanied by Arthur Fox, Edgar Hall and Lew Anson, the two latter named being recently from England. "The bells, the bells, the ringing and the jingling of the bells, bells, bells" all sounds very well when worked up in a good piece of poetry but some of our citizens think it is another proposition when something less than a half hundred of the musical instruments in question, attached to as many town cows sound their music all over town day in and day out. It is felt by many that if owners will have their cows ran at large, they might at least consent to remove the distracting bells which after all serve very little purpose except for adornment, and occasionally for encouraging a preacher in the morning service to raise his voice in order that he may be heard at least by the majority of his congregation.

Mr. and Mrs. O. V. Allen of Salem visited in Newberg over Sunday. Wanted—a young and gentle pony. Mrs. H. G. Miller, West Chelavon. 12 Go to T. M. Cummings for paints and oils. A full line of undertaking goods kept in stock. Wm Sargent of Perrydale visited in town Tuesday with his daughter Mrs. O. K. Edwards. Miss Julia Minchia who was in the quarantine at the college boarding hall went up to her home at Dundee Saturday evening. Tickets for the dramatic cantata "Lost and Saved" on sale at 25c, reserved seats 50c, children 15c. Plat of seats at both drug stores. W. E. Thomas of Newberg was in town Monday on his way to his place on Salmon river. He expects to be gone two weeks.—McMinnville News. Noah Heister, J. S. Ross, G. M. Bales, L. M. Parker, Mrs. A. Pickett, Mrs. J. B. Mount and Mrs. J. C. Davis were passengers on the down train Tuesday morning. A part of the company now visiting J. M. Shaw have rented the Biglow property on west First street and will move in at once. They were fortunate in finding an empty house of any kind. Mr. J. W. Moore, who purchased the Johnson farm north of town, will take possession about March 18. He has gone to Union, his former home, to look after the removal of his people and property. Information was received from the postoffice department at Washington Saturday evening that the salary of rural mail carrier Calva Martin is to be increased from five to six hundred dollars a year. Come and hear some of the finest music ever given in Newberg at the cantata. You will greatly appreciate the bass solo "Lost;" also the "Lullaby." The pathos of "That Mr. Jinks is Coming" will appeal to you. Mr. and Mrs. Geo. Metcalf came down from Salem the latter part of last week for a short visit with Newberg friends. Mr. Metcalf says he hears four times the talk about the Salem smallpox down here that he does at home. J. R. Hunt has moved to the Stanbrough place north of town, and A. C. Stanbrough having traded property, the latter taking J. R.'s house and lot in town. Amos has decided to give up farming and stick to teaching school. The exhibitions of hypnotism by Prof. Ryan are being well attended at Crater's hall and the usual amount of fun is had with subjects in the "hypnosis" state. The professor is somewhat above the usual grade of entertainers along this line. On next Sunday evening at 7:30, Pres. H. E. McGrew will deliver a special address at the Friends church on "Some of the vital needs of Newberg." Everybody cordially invited to attend. Come and hear something good as well as exceedingly practical. A brother-in-law of Lewis Hanson named Hineslaw of Marion, but who has been working for some time in the shingle mills of northern Washington, visited in town this week. He and Lewis have been looking around somewhat with a view to renting a small farm near town. Geo. F. Taplin, a progressive farmer of Hancock, Minnesota, and an old friend of H. A. Grate, arrived with his family the latter part of last week. Mr. Taplin was out here to see the country several months ago and has now come to stay. As soon as their household goods arrive they will occupy the Osborn house on "Dayton Avenue." Mr. and Mrs. H. F. Allen of Portland came up Saturday evening and visited in town over Sunday. They were accompanied by the latter's eldest brother, Will McGregor of Vancouver, British Columbia, who is down on a visit. He brings good reports of his brothers Ed and Fred, well known here, who are engaged in good business houses of Vancouver. In the debate held at Monmouth last Friday night between the State Normal and McMinnville colleges the former won the decision, the question debated being the wisdom of the fifteenth amendment to the Constitution. This leaves Monmouth and Albany to battle for the league championship. For once Old Yamhill was sent to the ropes in the first round. A sample of rock can be seen in a window of the Newberg Land Company, taken from a quarry owned by Marion George five miles east of town. This stone has value for building and paving purposes beyond many kinds that are now being used. The quarry is inexhaustible and is alongside the track ready for easy shipment and should have attention of builders. An industry of surprising proportions might be opened up with proper care. No sooner had Atkinson Bros. taken possession of the creamery than they began to make some important changes in machinery. One very striking improvement is the large latest improved Simplex churn, purchased at a cost of one hundred and sixty dollars. In it butter is not only made but thoroughly worked without coming in contact with the hand and in fact so complete are the facilities for working that at no stage of the production of butter does the hand come in contact with it. This insures perfect cleanliness and a high grade such as the best trade demands. The butter already stands at "top notch" in the Portland market.

You must not fail to attend the wedding in high life at 8 o'clock Thursday evening March 29, at Crater's hall. Florian Fuchs has sold out his store at Terry and with his wife is visiting in town with H. Nierendorf and family. F. A. Elliott and Clarence Price came up from Portland Saturday evening and spent Sunday with Mr. Elliott's family. Lost—Umbrella, having the name of Walter R. Miles on it. Newberg seems to be a pretty good town to present oil propositions. There are now three companies soliciting for the sale of their respective stocks by the Newberg people; two are California affairs and one a local enterprise. Each one of the three are strictly wildcat. Neither one of the three are producers. Each is simply a prospect, but undoubtedly each hopes to find oil. Allowing for a full measure of confidence and effort for success to each, the fact remains, that only one of these three companies are able to sell stock in the county wherein their prospect exists. "Distance lends enchantment to the view." This old saying is thought by some to be the particular merit which appeals to the purse of the Newberg purchaser of California stock. It's none of our business who these purchasers are, or to what amount they invest. We simply make a comparison to show that if you want to buy non-producing stock we believe our local company has the best of it from any point of view. When you purchase stock of a wildcat nature with its prospect located in a far off country, it's a gamble pure and simple; there is no other name for it; it's neither investment or development. When you purchase stock in our local company, call it what you like, it's a dead sure thing that in its broadest meaning it's a development. We do not try to blow you in on a sure thing because we have none and the people who buy our stock do so with action on their own judgement as to amount for the purpose of developing an industry, which, proving successful, they know will prove valuable and the benefits of which indirectly if not directly, no man can escape. We are going to sell stock enough to complete the work and mostly in \$5, \$10 and \$20 investments. We hope to make a discovery; we believe we will, and are confident that in any event shareholders will get their money's worth.
