Mrs. W. S. Pemberthy and daughters of Clear Lake, South Dakoka, arrived here Monday and joined Mr. Pemberthy who had already been here several days. Mrs. Pemberthy is an aunt of John Dunstan. The family will look at our country with a view of locating sometime in the future, and it might be well to suggest to them as well as to others from the East lately, that they reserve their verdict on Oregon, until this "unusual" weather in the way of cold rainy days gives way to our blithesome, bonny days of spring, when they will think they never saw such a royal country.

On last Friday evening, previous to their moving to Portland, Prof. and Mrs. R. W. Kelsey were tendered a reception by the students, alumni and board of managers of Pacific College, which was well attended and much enjoyed by those present. At the close of the evening, on behalf of the students Miss Nervia Wright assured the professor and his wife of the general esteem in which they were held, and of the gratitude felt toward them for their efficient work, as a token of which she presented them a bust of Abraham Lincoln. In his acknowledgement, Prof. Kelsey sprung something of a surprise by the announcement that a few hours previous he had contracted with the board of managers to remain another year in Pacific College, which announcement was received with great enthusiasm by the students.

It is wondered whether the citizens of Newberg, parents in particular, realize the number of boys in this town who are becoming confirmed in the offensive habit of cigarette smoking. If the roll was called of youths ranging in age from twelve to eighteen years, what proportion is it supposed would be found following in the footsteps of the cigarette fiend? We could give an idea, but for the fair name of the town desist. Suffice it to say that the prevalence of the habit is little less than appalling—especially as it seems to be on the increase locally. It is not more marked than in other towns doubtless, but that is nothing to the credit of the cigarette-sucking striplings of Newberg. It may be that the knowledge that there is a law against selling cigarettes to minors gives parents a sense of security. If so, it is a false sense, and the sooner they are relieved of it the better. Law or no law the boys are getting the cigarettes, and to be on the safe side there will be nothing amiss in fathers taking an inventory of their sons' habits and practices. Some fathers would resent the charge that their boys are fooling with the poison but some fathers in this town are being deceived. Many things can be condoned in youths, on the plea that "boys will be boys," but let it be remembered that the cigarette boy generally makes a cigarette man and that is about as near nothing as can well be conceived.

The fact that one hundred and ten dollars were received at the door is sufficiently indicative as to the attendance at the Meneley Concert on Thursday evening of last week, and then some left on account of lack of seating room. The concert was good and was well received throughout. Some who heard the Meneleys here last year think the loss of their former soprano has weakened the quartet somewhat, but the impersonator Knox is the same today, yesterday, and tomorrow and is a whole show in himself any time.

Hall, father of the bride officiating. The ceremony was performed in the presence of the family, only, and a very few friends. The bride is known in Newberg as a young lady of worth and integrity, and will be greatly missed by her associates. The young man, who has proved a successful wooer with a handicap of some two thousand miles, makes a good impression among strangers and holds down a position in a bank in his home town. Mr. and Mrs. Warren will probable leave for their Minnesota home in about two weeks, followed by the best wishes of many friends for much happiness and many pleasures in their sojourn through life together.

Attention is called to the notice given elsewhere in these columns of the meeting to be held under the auspices of the Newberg Small Fruit Association next Monday evening. It is to be one of the most important meetings of the kind held here for some time, as the presence of the members of the State Board of Horticulture will give it something of an official significance. Hon. E. L. Smith, of Hood River should draw a good audience on any subject at any time, and as he will tell us from his ripe experience about an industry in which Newberg is especially interested at this time, he should be favored with an unusually good attendance. He will be accompanied by Commissioner Newell and Messrs. Lamberson, Carson and Reynolds and probably other members of the state board. An opportunity will thus be offered to learn about strawberry culture which should be made the most of.

MCMINNVILLE CORRESPONDENCE

The democratic county convention to elect state delegates was held at the court house last Saturday. A good delegation from all parts of the county was present.

The McMinnville Grange and Farmer's store, one of the largest and best general stores in the county, was closed this week by creditors. The total liabilities amounted to about $28,000 while the assets seem to be considerably less than that amount. The failure of this store is very much regretted as it was one of the most popular trading places in the county.

The prohibitionists of the county met in convention last Tuesday and nominated a full county ticket. A number of addresses were made during the afternoon. Pres. Boardman's speech was received the best as his remarks were free from slurs and unpleasant criticism of those holding different views, which cannot be said of all the remarks made. The Meneley quartet was present in the afternoon and entertained the audience with several selections. In the evening the quartet gave a concert at the Opera house which was highly appreciated by a large audience.

Since Mr. Watson, the oil expert, visited our property we have passed out of the wild cat class referred to in our last week's ad, and moved up a peg, if not in, the sure thing class. Of course we are pleased to have any man claiming expert knowledge pronounce us as sure winners in our development for oil. Some people are skeptical of expert claims but nevertheless experts have cut a material figure in past discoveries of oil. To one who is putting money or time into development work, it is quite gratifying to have expert indorsement. Geological experts say we should find oil. Mr. Watson, who is the originator of an apparatus for which he claims the power to locate oil, a machine thoroughly tested in known oil fields, not only bears out the geological claim but is willing to back his machine's test with coin. All of this should prove of interest to the people of Yamhill county and the public in general. It's unfair for people to hold back their support who are able to realize that a good development of oil or coal will prove a valuable industry, the benefits of which no man can escape. We receive less support from those who will reap the greatest benefits. The company's intentions can not be questioned. Our possession of drilling outfit now located on drilling ground, with engagement of drilling crew, settles for all time doubts as to our ability to start the work. Now is the time to come to the front with your subscription. We have been progressive in our part of the business. The management have assumed obligations far greater than we have requested of any stockholder of record or prospective. All we ask is your co-operation to the extent of a few dollars, and if you, the business man and the land owner would come to the front with only such amount as horse sense would figure out you could afford to give to know that coal or oil existed, we would be financed and you would feel better.
