The attendance at the fruit meeting last Saturday evening not being sufficiently large to justify organization, it was decided to postpone the meeting until to-morrow at 2:30 o'clock in the city council rooms. It is highly important that complete organization of the "Newberg Small Fruit Association" be effected at once and all who are in any way interested are urged to be present.

They went by way of San Francisco where they will spend a week visiting with two of their daughters. In speaking of the possibilities for making a grand showing of the timber resources of Oregon and Washington at the 1905 exposition, N. E. Britt said that in a recent trip he made into the mountains he found a monarch of the forest that measured fifteen feet in diameter. It would not require very many poles of this size for the erection of a pretty fair sized cabin on the fair grounds. Mr. Britt says he found a depth of four feet of snow in some places, there having been a heavy fall recently. With the cool weather holding on so late it is but reasonable to expect the snow to come out with a rush when warm weather comes on and Portland is liable to see high water again this season.

Claudia E., daughter of Mr. and Mrs. J. C. McCrea, who had been ill for some time at the home of her parents at the foot of River street, died of consumption last Friday morning at a little after eight o'clock. The funeral services were held at the Friends church Sunday afternoon at half past two and were conducted by Prof. H. E. McGrew, assisted by Mrs. Jane Votaw. The deceased came to Oregon with her parents in 1877, and has lived here since that time with the exception of about one year, which she spent in the state of Minnesota. In 1893 she was united in marriage to Caspar Peters, from which union were born two sons, William and George, now aged eight and six years respectively. Besides these are left her parents, three brothers, Fred L., John C., Archie E., one sister, Edith A. and many relatives and friends to mourn her loss.

The annual address was given by Hon. George H. Williams, while the charge to the class was delivered by Dr. Woods Hutchinson. The exercises were followed by the class banquet at the Portland Hotel. George will take up practice at once at his office over the Chehalis Valley Bank.

E. C. Clement, inspector of Rural Mail Routes, who passed through Newberg on the train Tuesday, informed a representative of the Graphic that he had received the information from the postoffice department that routes number two and three out of Newberg, recently petitioned for, had been favorably considered. Maps of the routes have been received at the postoffice here and official information regarding the establishing of the routes is expected from Washington at an early day. By these two new routes a large number of people who have been isolated for years will be served and as Mrs. E. A. Soper expressed it they will no longer be "out of the world." The people who live down in the lower pocket of the county along the river, and who have been compelled to keep a boat or pay ten cents to cross the river every time they wanted the mail are especially gratified at the prospect of a change, and those who live in sightly homes along the Chehalis mountain road are happy in view of the prospect of having the mail delivered daily at their doors. The granger is beginning to have his lining although he has had to wait a good many years for it.

A petition was being circulated here the first of the week asking that the name of Governor T. T. Geer be placed upon the official ballot at the coming election as a candidate for the votes of the people for United States Senator. "Would you believe I was lying if I told you the truth?" asked David Stout last Saturday. On being assured that we wouldn't, he proceeded to tell us that a black Minorca hen he had purchased from Lew Hoskins had just laid an egg that measured six inches around the short circumference and eight inches long. A well known democrat standing near said, "Don't tell that if you don't want to injure Hoskins' chances for re-election. A man that raises hens like that will be blamed for the war and tear."—Reporter.

Through oversight South Newberg neglected to make a nomination for the latter position.

The stereopticon lecture on Alaska given in the Friends church Monday evening was fairly well attended. Most of the views exhibited were good and it was evident that some had been obtained only after much persevering and daring effort. At the close of the lecture light refreshments in a la Alaska were served in the basement of the church, where four little girls, Beulah Spaulding, Erma O'Brien, Pearl Moore and Lucy Mills, rigged out as bona fide Indian maidens, acted as waiters. The refreshments consisted of Indian tea and doughnuts fried in seal grease. The smell of the latter was sufficiently refreshing in most cases, however. The seal was shot by Harlan Smith when in Alaska last year, and the tallow rendered by Mrs. Silas Moon at the Friends Mission at Kake Village. Several Alaskan curios were on exhibition which Harlan had secured on his trip.

Richard Hevland died at the home of his son B. F. Hevland in Newberg, on last Tuesday and was buried on Wednesday. Had he lived until May 11, he would have reached the advanced age of ninety years. **McMINNVILLE CORRESPONDENCE**

Less than two thousand voters have registered so far. This leaves almost as many yet to be registered in the next two weeks.

The political campaign opens this week with the county conventions on Thursday and Friday. Aspiring candidates are showing up on all sides, and interesting times are expected at both conventions.

The churches of the city adjourned last Sunday evening, and a union temperance service was held at the court house. The court room was crowded, and the large audience gave close attention to a strong address delivered by Rev. Touts of Eugene. The speaker maintained that McMinnville citizens

should not waste time worrying over the prevalence of the liquor traffic in Salem or other places, while so much needs to be done at home. The liquor question is largely a local question. In general, the government leaves the regulation of such matters to the states, and the states to the incorporated towns and cities. The responsibility for the saloons in McMinnville rests with the citizens. Temperance people differ in methods but this should not keep them from working together. It matters not whether the desired result comes through the democratic, republican, populist or prohibition parties, or through some other method. Don't be afraid to compromise method if the desired end can be attained. Work for a partial success if complete success is impossible. Organize and systematize your efforts. Be sure of your strength before you strike, and when you do strike, make your efforts count. The speaker recommended the formation of an anti-saloon league, and after the address a large number joined the league.

**When She's Dead.**

A man never appreciates his wife's work until she is dead, but when he has to pay a hired girl ten or twelve dollars a month for her wages he begins to dimly comprehend that a woman's work has a money value. He then begins to have visions of bankruptcy and concludes that it will be cheaper to marry again and probably proposes to the girl. She poor fool, surrenders her \$125 per year in good, hard cash for her board and the title of Mrs. and the privilege of mothering a job lot of second hand children and a few of her own. Lord only knows what she does it for. She works harder than ever she did when she was a hired girl and doesn't have half the liberty. When she dies the cookey jar is empty and the neighbors wonder how she got along with so few sheets and pillow cases, and they report that the cellar stairs was "something dreadful" and all this results from giving up her salaried position for a man who thinks five dollars in spending money an extravagant allowance for one year.—Mrs. Gates in Auburn Granger.
